Our Industrial Infrastructure Business Geared For Growth

Our Industrial Parks Are Strategically Located At Gujarat

One of India's most prosperous states with robust pro-industry infrastructure like major all-weather ports (Kandla & Mundra) providing global market access

Well-established auto clusters at Halol, Sanand and Rajkot

Upcoming clusters at Becharaji, Mandal, Dholera, Halol-Savli SIR and Anjar

Becharaji in Gujarat, where our industrial parks are situated, is slated to become one of India's major auto hubs

Proximity to the plants of MNC auto majors

like Suzuki and Honda Motorcycles, which are spurring the setting up of production facilities by auto-components / OEM / ancillary manufacturers supplying to their principals

As part of our joint venture with the Kataria Group of Ahmedabad, we have already delivered five (5) dormitories, commercial complex and a couple of logistics warehouses. We are truly geared for growth with an anticipated spurt happening in the development of new industrial units and the subsequent need for support facilities like worker residences, warehouses, commercial buildings, etc.

Director

Shyamal S. Joshi
Director

Ms. Foram B. Mehta
Director

Ashok R. Bhandari
Director

Manoj B. Vadodaria

Chairman & Managing Director

Mr. Manoj Vadodaria is son of the well-known journalist, editor and founder of the Sambhaav Group, Shri Bhupatbhai Vadodaria. Mr. Manoj Vadodaria is a self-made businessman with an immense entrepreneurial passion. In his entrepreneurial journey of about four decades, he has always found a way amidst the paucity of resources and market challenges. He has pinnacle knowledge, in-depth insight and thorough understanding of the dynamics of the industry. He is a visionary of future trends, and a creator of opportunities. He has efficiently transformed NILA from a city-based realtor to a meaningful civic urban infrastructure player. He is a firm believer in the best management practice, transparent governance, and long-term value investments.

Kiran B. Vadodaria

Director

Mr. Kiran B Vadodaria is CMD of Sambhaav Media Limited (SML), a BSE/NSE Listed corporate entity. SML has a track record of value based, objective, balanced journalism acting as a reference post in Gujarati print and electronic media. He has steered through SML journey of more than 30 years. He was elected as President of Indian Newspaper Society (INS), the reputed, prominent and influential media association for 2014-15. Currently, he is INS Executive Committee Member. He has also held post of President of Gujarat Daily Newspaper Association (GDNA). He was a Member of National Integration Council of Government of India and has served on the Board of the United Bank of India as an Independent director during 2011-2014. He has demonstrated his experience and insight based judgment at several issues and matters of national and societal interest. He possesses powerful entrepreneurial abilities reflected in his decisions of expansion, acquisition, diversification of media activities.

Mr. Kiran Vadodaria is well respected in societal circles and recognized as a balanced personality in media, political and social spheres. He earned his BE (Mech) from the reputed LD College of Engineering, Ahmedabad and has served as President of the College Alumni Association. He has widely travelled in India and overseas.

Dilip D. Patel
Director

Mr. Patel possesses a wealth of management teaching and consulting experience spread over more than 30 years. He is a founding faculty member at the prestigious SP Jain Institute of Management & Research, Mumbai which is considered as one of the top 10 management institutes in India. With rich experience in consulting, mentoring and training at companies in India and overseas, Mr. Patel has specially engaged with family managed businesses. Mr. Patel has widely travelled in India and abroad for work and pleasure.

Shyamal S. Joshi
Director

Mr. Joshi possesses 48 years of senior level financial management experience in manufacturing and trading corporations with US\$ 7 billion in revenues having worldwide operations. Further, he has an expansive experience in financial planning, funding, taxation and accounting and has served numerous renowned companies. He is recognized for his expertise in Corporate Funding, Restructuring, Merger, Acquisition, Local and International Financing, Private Equity and others. Mr. Joshi is a fellow member of the Institute of Chartered Accountant.

Ms. Foram B. Mehta
Director

Ms. Mehta possesses wide knowledge in the field of brand conceptualization and marketing management. She also has solid experience in the field of marketing, advertising, corporate branding, television management and modeling. She is a qualified anchor, drama artist from All India Radio, and has participated and hosted numerous events and won several awards. Currently she manages affairs of her own firm 'GOD BROTHERS' and is engaged in activities of creative branding, marketing, communication and also associated with JP Group. In the past, she has worked with Hindustan Unilever Ltd., Tata Teleservices Ltd., Atharva Telefilms Pvt. Ltd. and the Tashee Group. Ms. Mehta holds an MDP degree from IIM, Ahmedabad and a BE Chemical degree from the Nirma University, Ahmedabad.

Ashok R. Bhandari
Director

Mr. Ashok Bhandari is a Chartered Accountants having more than 35 years of experience in the field of accountancy, auditing, investment banking and finance.

Management Team

Deep Vadodaria

Chief Operating Officer

Mr. Deep Vadodaria is an original thinker with an immense reasoning power. With a problem-solving attitude, he addresses complex issues in his own distinctive manner. With his excellent operational and project execution skills; he is driving the Company to new horizons. His idiosyncratic leadership style is structured on a well-defined moral code and provides for an excellent teamwork. He has embedded a culture of review, responsibility and shared accountability to achieve high standards for all.

Ravinder Kumar

President – Civil

Mr. Ravinder Kumar carries a rich professional experience of 30+ years in controlling and delivering large civil engineering projects from conceptualisation to commissioning stage. His specialities include Project and Construction Management services for Mega Civil Engineering projects in diversified fields including Infrastructure, Thermal Power Plants, Roads, Oil Depots, Institutional Complexes, Industrial estates, Residential Townships, etc.

He has held various senior/top management positions in prominent organisations and has been dealing with number of renowned national and international consultants. He has worked with reputed top-rung/leading corporate houses like Reliance, Adani, Bajaj, etc. in private sector & premier government institutions/organisations like CPWD, NIDC, BHEL, NTPC, and a couple of SEBs.

Rajendra Sharma

President - Business Development (Rajasthan)

Mr. Rajendra Sharma, a law graduate, is a visionary and has developed a forward-looking attitude, with his rich experience of 30+ years, in a wide variety of professional areas e.g. business development, liaisoning, land and capital market related matters, finance & accounts, law, banking, etc. A keen intellect gets to the depth of the matter - to make it work. He is a specialist at predicting the trends of customer behavior. He has a knack for taking apart the pieces of a problem and then configuring them to present an out-of-the-box solution, rather than a conventional one. A fundamentally non-conformist professional, enjoys developmental activities.

Jignesh Patel

President - Project Management and Strategies

Mr. Patel is a civil engineer with a vast experience of 25+ years in the field of construction, project execution and project management. He is a creative individual and has made significant contributions to the company with his innovative and analytical abilities as well as his problem-solving skills.

Ritesh Parikh

Industrial Projects Head

Mr. Ritesh Parikh is a dedicated civil engineer with 20+ years of experience in the field of industrial construction as well as project execution and management (Roads, Ports, etc.). His logical inputs, tenacious nature and organizational capabilities continue to benefit the Company.

Prashant H. Sarkhedi

Chief Financial Officer

Mr. Sarkhedi is a passionate professional with about three decades of experience in finance, accounting, fund raising and general management. He is a disciplinarian, has in-depth knowledge and insight on diverse subject matters and possesses excellent organizational and motivational skills.

Dipen Y. Parikh

Company Secretary

Mr. Dipen Parikh is a dedicated professional with 10+ years of experience of secretarial practice, corporate laws and general legal affairs. His exceptional enthusiasm towards his duties, wise inputs and dedication towards his responsibilities make him an asset to the Company.

Himanshu Bavishi

President - Finance

Mr. Bavishi is a wise strategist and growth catalyst with 20+ years of professional experience in retail and corporate finance, investment banking, debt syndication, M&A, Investor Relations, etc. He not only has deep insight in managing huge masses of finances, but also has immense decision making abilities, is stimulated by challenges and works as a Change Agent.

Chairman's Message

Dear Readers,

I wish that you are safe, healthy and taking all precautions to abate any further spread of COVID-19 pandemic. In FY2021, the pandemic landed a severe blow to the construction industry and NILA is no exception. FY2021 started with the onset of COVID-19 pandemic which by now has transformed a variety of our perspectives. The challenging situation made everyone more empathetic and sensitive towards life and the world at large. It was one of the most difficult and challenging time that many of us have faced, and it has impacted our lives in unforeseen ways. It has cast a shadow of uncertainty and anxiety all over the world, affecting people across all social strata.

On our part, we have ensured absolute health, safety and hygiene guidelines for our workforce at our sites and supported them with healthy food, hygienic living conditions, and requisite medication – including provision of requisite essentials regularly. All our sites have been following the safety guidelines since the pandemic, and we have been constantly updating them thus offering our workforce a safe environment to function. To ensure the safety and wellbeing of our passionate workforce, we also concluded a vaccination drive.

Even though we observed a series of lockdowns during H1-FY2021, we were reasonably positively placed to sail through the crisis, with a strong balance sheet, adequate liquidity, strict safety measures, high quality and diverse portfolio of orders, a passionate workforce and an experienced Board and management. These ensured that we rode over the crisis with Resilience – for a sustainable future. While the H1-FY2021 was subdued because of the lockdown constraints, the initiatives taken by government, RBI and other regulatory authorities offered great support which ensured normalcy during H2-FY2021 upto February 2021 when the second wave emerged.

The pandemic also led to a paradigm shift in the preferences and behaviour of the home buyers. Merits of staying in home have been established as the most resilient remedy to abate such pandemic. It made people realise the importance of owning a home that takes care of all the needs and safety of every family member. This realisation has since catalysed the demand of homes and accordingly the medical and social infrastructure. With a mission to execute urban development and infrastructure projects, including Affordable Housing, which benefits the society at large, this year your Company participated in apt orders and has built a meaningful order-book i.e. confirmed unexecuted orders aggregating ₹ 555.84 crore at 31st March, 2021 - that provides multi-year revenue visibility of your Company. Your Company has also rationalized the Order-book by weeding out certain non-moving orders. Your Company has been entrusted with the total Affordable Housing responsibility of 14,671 Dwelling Units in aggregate. What is more heartening is the fact that your Company is poised to further uplift the living condition of about 3200+ slum-dwelling families within next couple of years. With a profound conviction, I reassure you that this could be one of the biggest growth drivers for your Company in the upcoming years. Water and infrastructure both being basic to humans, have remained same. Thirst is quenched with water and civilization is fostered with infrastructure. Infrastructure has one added advantage

over Water. Unlike water, infrastructure not built today will be built tomorrow; the demand may be just postponed. This gives me tremendous confidence that a resilient infrastructure company can give one of the best returns' money can generate on sustainable basis.

I am full of hope and optimism for the sustainable future. The rollout of vaccines is extremely encouraging and, of course, vital to our economy's recovery, but we know it will take time as only an effective drive covering a large proportion of the population, will help us contain this spread. I am confident that our business model and strategy, which builds on the satisfactory execution of orders puts NILA in a strong position to outperform the industry as it returns to full strength.

I want to thank all those who remained committed to NILA during these challenging times. Our workforce prioritised the safety, remained steadfast and resolute to adherence to the cost, quality and timelines of the clients' orders even during this adversity. Our other stakeholders have shown immense trust and faith in us during this unprecedented crisis. I also want to take the opportunity to convey my sincere thanks and gratitude to the Government of India for prompt actions to curb pandemic and support economy and business.

For a sustainable future, we have remained Resilient and that catalysis us to continue to address business challenges with agility, working closely with our business partners and stakeholders. I am confident that with the guidance of our experienced Board, dynamic leadership of the management team, and the commitment of our workforce, we will not just overcome the challenges but convert these very challenges into opportunities for a sustainable future.

**With best wishes that you all stay positive, safe and healthy,
Sincerely,**

**Manoj B. Vadodaria
Chairman and Managing Director**

Diluted	0.01	0.44	(0.02)	0.41

The detailed financial analysis and information of projects and activities are more specifically given in the Management Discussion and Analysis Report annexed to this Board Report.

IMPACT OF COVID-19 AND LOCKDOWN AND SUBSEQUENT UNLOCK:

During FY2021, your Company has shown tremendous Resilience to withstand the unprecedented disorder induced by the COVID-19 pandemic. In absolute compliance with the serial of Lockdown notifications as well as the safety guidelines announced by the Government of India from time-to-time during the year, the operations of the Company commensurately shut down to ensure the safety of our employees, labour force & their families and to contain the spread of COVID-19. This has resulted into adverse effect on the business of your Company during H1-FY2021 and the Q4-FY2021 i.e. the optimum operations were on only for a single quarter i.e. Q3-FY2021. Your Company has adopted and implemented the Work from Home Policy during the entire duration of the lockdown for its corporate office operations. Your Company has also taken all requisite precautions and is adhering to complete safety measures to ensure the safety and well-being of its employees and other stakeholders during resumption of operations at the project sites and corporate office to help fight the spread of COVID-19 pandemic. Considering the demand of housing, the impact of COVID-19 on your Company seems temporary. The broad impact of COVID-19 on your Company is as under.

- a) **Capital and Financial resources** - The Company is having enough capital and adequate banking limits are in place;
- b) **Profitability** - During FY2021 profitability has witnessed severe pressure and has remained restricted below its true potential.
- c) **Liquidity position** - The Company has enough liquidity due to adequate banking limits being in place. The Company has also taken many cost reduction measures to ensure healthy liquidity position all the time.
- d) **Ability to service debt and other financing arrangements** - As the Company is having comfortable liquidity position therefore the Company is servicing its debt and other financial obligations on timely manner. It may be mentioned that your Company did not availed the benefits of moratorium under the "Reserve Bank of India COVID-19 Regulatory Package", except non-reduction of the Drop Line Over Draft (DLOD) facility from SBI. However, the utilization was well below stipulated DP and hence, it does not have any bearing on our overall creditworthiness.
- e) **Assets** - The assets of the Company are secured and are in proper working condition.
- f) **Internal financial reporting and control** - Internal Financial reporting and control have remained intact and were not adversely affected. The Company has provided facility to its employees to WFH during the lockdown period and all office functions including accounting, HR management, audit, MIS reporting, financial management, etc. were facilitated digitally.
- g) **Supply chain** - The supply chain was pulled to a complete stop during the lockdown period. The construction material and the ancillary services were not available. It has since got normalized gradually.
- h) **Demand for its products** - The Company is in the business of development of infrastructure projects and foresee some slowdown in Q1-FY2022 in the wake of the 2nd wave of COVID-19 in the country. However, the company is positive and expects that things will get normalized from the beginning H2-FY2022.

CHANGE IN NATURE OF BUSINESS:

During the financial year under review, there has been no change in the nature of Business of the Company.

REPORT ON PERFORMANCE OF SUBSIDIARY COMPANIES PURSUANT TO RULE 8 (1) OF THE COMPANIES (ACCOUNTS) RULES, 2014:

Your Company is undertaking various projects through subsidiaries, associates and joint ventures. As per Section 129 (3) of the Companies Act, 2013, your Directors have pleasure in attaching the consolidated financial statements prepared in accordance with the applicable accounting standards with this report. In accordance with Section 136 of the Companies Act, 2013, the audited financial statements, including the consolidated financial statements are available at the Company's website at www.nilainfra.com. The audited financial statements of each of the subsidiary, associate and

joint venture are available for inspection at the Company's registered office at Ahmedabad and also at registered offices of the respective companies. Copies of the annual accounts of the subsidiary, associate and joint venture will also be made available to the investors of Nila Infrastructures Limited upon request. In terms of proviso to Section 129(3) and Rule 8(1) of the Companies (Accounts) Rules, 2014, statement containing the salient features of the subsidiaries, associates and joint ventures in the prescribed Form AOC-1 is annexed to this report as "Annexure B". The Company has framed a policy for determining material subsidiaries, which has been uploaded at the website of the Company at www.nilainfra.com.

COMPANIES WHICH HAVE BECOME OR CEASED TO BE SUBSIDIARIES, ASSOCIATES OR JOINT VENTURES DURING THE YEAR:

During the year under review there is no change in status of Subsidiaries, Associates or Joint Ventures of your Company.

AMOUNT TO BE TRANSFERRED TO GENERAL RESERVES:

The Company has not transferred any amount to the General Reserve during the year under review.

DIVIDEND:

Foreseeing the requirement of financial resources for the future growth, and in order to create strong economic base and long term value for the investors; your directors have decided not to recommend any dividend for the financial year ended on 31 March 2021.

PUBLIC DEPOSITS:

During the year under review your Company has not accepted any deposits from the public within the meaning of Section 73 and 76 of the provisions of the Companies Act, 2013.

INSURANCE:

All the existing properties of the Company are adequately insured.

DIRECTORATE:

- At the 30th Annual General Meeting held during the year; approval of shareholders were taken for reappointment of Ms. Foram B. Mehta (DIN: 07140346) for another term of five years as Independent Director and continuation of directorship of Mr. Dilip D. Patel (DIN: 01523277) as Non-Executive Director notwithstanding attaining age of 75 years.
- Pursuant to Section 152 of the Companies Act, 2013, Mr. Kiran B. Vadodaria, (DIN: 00092067) a Non-Executive Director retires by rotation at the ensuing Annual General Meeting of the Company and being eligible offers himself for reappointment.
- Except as mentioned herein above there is no change in the Board of Directors and key Managerial Personnel of the Company.
- As per the provisions of Section 203 of the Companies Act, 2013 Mr. Manoj B. Vadodaria – Chairman & Managing Director, Mr. Prashant H. Sarkhedi – Chief Financial Officer and Mr. Dipen Y. Parikh – Company Secretary are the Key Managerial Personnel of the Company.
- All the Directors have confirmed that they are not disqualified from being appointed as Directors in terms of Section 164 of the Companies Act, 2013.
- Necessary Resolutions for the reappointment of Mr. Manoj B Vadodaria (DIN:00092053) as Managing Director and change in terms appointment of Mr. Kiran B Vadodaria (DIN:00092067) as Non Executive Director, have been included in the Notice convening ensuing Annual General Meeting and details of the proposals, rationals, justification and performance evaluation report, in terms of applicable secretarial standard on General Meeting (SS-2) for the reappointment of directors are mentioned in the explanatory statements of the notice.

Statement regarding opinion of the board with regard to appointment of Independent Director during the year:

In the opinion of the Board the Independent Directors appointed during the year possess highest level of integrity, rich experience, and requisite expertise in relevant area.

Declaration given by Independent Directors:

The Company has received declarations from all the Independent Directors of the Company confirming that they meet with the criteria of independence as prescribed under sub-section (6) of Section 149 of the Companies Act, 2013 and Regulation 25 read with 16(1) (b) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and that there has been no change in the circumstances which may affect their status as an Independent Director and the same has been noted by the Board. The Independent Directors have complied with the Code for Independent Directors prescribed in Schedule IV to the Companies Act, 2013. All the Independent Directors on the Board of the Company are registered with the Indian Institute of Corporate Affairs (IICA), Manesar, Gurgaon as notified by central government under section 150(1) of the Companies Act, 2013.

Board Evaluation:

Pursuant to the provisions of the Companies Act, 2013 and SEBI Circular date 10 May 2018; an annual performance evaluation of the members of the Board of its own individually and working of various committees of the Board was carried out. Further in a separate meeting of the Independent Directors held on 08 February 2021 without presence of other Directors and management, the Independent Directors had, based on various criteria, evaluated performance of the Chairman and also performance of the other members of the Board. The manner in which the performance evaluation was carried out has been explained in the Corporate Governance Report annexed with this report.

Board and Committee Meetings:

During the year under review 8 (Eight) Board Meetings, 5 (Five) Audit Committee meetings, 1 (One) Corporate Social Responsibility Committee, 1 (One) Stakeholder Relationship Committee and 1 (One) Nomination & Remuneration Committee meetings were held. The details of the meetings are given in the Corporate Governance Report as a part to the Boards' Report. The intervening gap between the meetings was within the period prescribed under the Companies Act, 2013.

DIRECTORS' RESPONSIBILITY STATEMENT:

Pursuant to the provisions of Section 134 (3) (c) of the Companies Act, 2013, with respect to Director's Responsibility Statement, it is hereby confirmed that:

- a) In the preparation of annual accounts, the applicable accounting standards have been followed along with proper explanation relating to material departures;
- b) The Directors have selected such accounting policies and applied them consistently and made judgment and estimates that are reasonable and prudent so as to give a true and fair view of the state of affairs of the Company at the end of the financial year and of the profit and loss of the company for that period.
- c) The Directors have taken proper and sufficient care for the maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company for preventing and detecting fraud and other irregularities.
- d) The Directors have prepared the annual accounts on a going concern basis.
- e) Proper internal financial controls are in place and that the financial controls are adequate and were operating effectively; and
- f) The Directors have devised proper systems to ensure compliances with the provisions of all applicable laws and that such systems are adequate and operating effectively.

REPORTING OF FRAUD:

During the year under review there was no instance of any fraud which has been reported by any auditor to the audit committee or the Board.

ALTERATION OF MEMORANDUM AND ARTICLE OF ASSOCIATION:

During the year under review no changes have been made in the clauses of Memorandum and Articles of Association of your Company.

SHARE CAPITAL:

There is no change in share capital of the Company. Presently the paid up capital of the Company is ₹ 39,38,89,200 comprising of 393889200 equity shares of ₹ 1/- each.

UNCLAIMED DIVIDEND AND UNCLAIMED SHARES

The Company has taken various initiatives to reduce the quantum of unclaimed dividend and has been periodically intimating the concerned shareholders, requesting them to encash their dividend before it becomes due for transfer to the Investor Education and Protection Fund (IEPF). Unclaimed dividend amounting to ₹ 9,25,132/- for FY 2012-13 was transferred to the IEPF on 26 August 2020, in terms of the Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 as amended, the Company has transferred the corresponding shares to IEPF, where the dividends for the last seven consecutive years have not been claimed by the concerned shareholder.

Further, the unclaimed dividend in respect of FY 2013-14 must be claimed by shareholders on or before if any, 27 October 2021, failing which the Company will be transferring the unclaimed dividend and the corresponding shares to the IEPF within a period of 30 days from the said date. The concerned shareholders, however, may claim the dividend and shares from IEPF after complying with the prescribed procedure.

In terms of the IEPF (Uploading of information regarding unpaid and unclaimed amounts lying with companies) Rules, 2012, your Company has made the relevant disclosures to the Ministry of Corporate Affairs (MCA) regarding unclaimed dividends and unclaimed shares. Your Company has also uploaded the prescribed information on www.iepf.gov.in and www.nilainfra.com.

Details of Unclaimed Dividend as on 31 March 2021 and due dates for transfer are as follows:

SN	Financial Year	@Unclaimed Amount (₹)	Due Date for transfer to IEPF Account
1	2013-14	9,71,385.60	27 October 2021
2	2014-15	9,96,846.30	04 October 2022
3	2015-16	11,31,631.71	17 October 2023
4	2016-17	10,38,195.18	05 November 2024
5	2017-18	8,35,769.77	05 November 2025

@The Corresponding shares for which dividend has not been claimed for seven consecutive years shall be identified at the due dates and be transferred to the IEPF authority. The list of such shareholders, upon identification, shall also be displayed at the website of the Company at www.nilainfra.com.

CORPORATE GOVERNANCE AND MANAGEMENT DISCUSSION & ANALYSIS REPORT:

The Company has implemented the procedure and adopted practices in conformity with the code of Corporate Governance as enumerated in Schedule V of SEBI (Listing Obligations and Disclosure Requirements), Regulations 2015. The Management Discussion & Analysis and Corporate Governance report are made part of this report. A certificate from the Practicing Company Secretary regarding compliance of the conditions of corporate governance is attached hereto and forms part of the Directors' report.

STATUTORY AUDITORS AND AUDITORS' REPORT:

During the year under review the statutory auditors of the Company M/s B S R & Associates LLP (FRN: 116231W/W100024) had tendered resignation for disagreement on audit fees for the remaining years of their term of appointment. 6. Affirmation that the remuneration is as per the Remuneration Policy of the Company:

It is confirmed that the remuneration paid to the Directors and Key Managerial Personnel are as per the Remuneration Policy of the Company.

Note: 1. Independent Directors of the Company are paid only sitting fees as per the statutory provisions during the year under review. The ratio of remuneration and percentage increase for Independent Directors is therefore not considered for the aforesaid purpose. The details of remuneration of Independent Directors are provided in the Corporate Governance Report.

2. Employees for the aforesaid purpose include all on roll employees of the Company.

Annexure D:

SECRETARIAL AUDIT REPORT FOR THE FINANCIAL YEAR ENDED ON 31 MARCH 2021

[Pursuant to section 204(1) of the Companies Act, 2013 and rule No.9 of the Companies (Appointment and Remuneration Personnel) Rules, 2014]

To,
The Members,
Nila Infrastructures Limited
1st Floor, Sambhaav House,
Opp.Chief Justice's Bungalow,
Bodakdev, Ahmedabad – 380015

We have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by Nila Infrastructures Limited (hereinafter called the Company). Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing our opinion thereon.

Based on our verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives in electronic form using the Information Technology Tools due to COVID-19, during the conduct of secretarial audit, We hereby report that in our opinion, the company has, during the audit year covering the year ended on 31 March 2021 complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent , in the manner and subject to the reporting made hereinafter.

We have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on 31 March 2021 according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made there under;
- (ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made there under;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed there under;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made there under to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings;
- (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):-
 - (a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
 - (b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
 - (c) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018; (Not Applicable to the Company during the Audit Period)
 - (d) The Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014;
 - (e) The Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008; (Not Applicable to the Company during the Audit Period)
 - (f) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client;

- (g) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009; (Not Applicable to the Company during the Audit Period) and
- (h) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 2018; (Not Applicable to the Company during the Audit Period)
- (vi) Transfer of Property Act, 1882;
- (vii) Registration Act, 1882;
- (viii) The Building and Other Construction Workers (Regulation of Employment and Conditions of Service) Act, 1996;
- (ix) The Land Acquisition Act, 1894;
- (x) Real Estate Regulation Act, 2017;
- (xi) Income Tax Act, 1961 and rules made there under;
- (xii) The Central Goods and Services Tax Act, 2017 & Gujarat Goods and Services Tax Act, 2017 and rules made there under;
- (xiii) Payment of Gratuity Act, 1972 and rules made there under;
- (xiv) Employee State Insurance Act, 1948 and rules made there under;
- (xv) Minimum Wages Act, 1948 and rules made there under;
- (xvi) Payment of Bonus Act, 1965 and rules made there under; and
- (xvii) The Employees' Provident Fund and Miscellaneous Provisions Act, 1952, and rules made there under.
- (xviii) The Contract Labour (Regulation and Abolition) Act, 1970
- (xix) The Environment (Protection) Act, 1986
- (xx) The Indian Stamp Act, 1899
- (xxi) The Gujarat Stamp Act, 1958
- (xxii) The Indian Contract Act, 1872
- (xxiii) The Gujarat Town Planning and Urban Development Act, 1976
- (xxiv) Gujarat Real Estate (Regulation and Development) General Rules, 2017
- (xxv) We have relied on the representation made by the Company, its Officers and on the reports given by designated professionals for systems and processes formed by the Company to monitor and ensure compliances under other applicable Acts, Laws and Regulations to the Company.

We have also examined compliance with the applicable clauses of the following:

- (i) Secretarial Standards issued by The Institute of Company Secretaries of India.
- (ii) The Listing Agreements entered into by the Company with Stock Exchanges read with Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015.

During the period under review the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above.

We further report that:

Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. There were no changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice is given to all directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance except in some instance wherein the shorter notice was consented by the Directors, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

All decisions in the Board is carried through, while the dissenting members' views, if any, are captured and recorded as part of the minutes.

We further report that there are adequate systems and processes in the company commensurate with the size and operations of the company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

We further report that during the Audit period the Company has no specific events/actions having a major bearing on the Companies Affairs in pursuant of the above referred Laws, Rules, Regulations, Guidelines, Standards etc.

Section E: Principle wise Performance:

PRINCIPLE 1: BUSINESSES SHOULD CONDUCT AND GOVERN THEMSELVES WITH ETHICS, TRANSPARENCY AND ACCOUNTABILITY

1. Does the policy relating to ethics, bribery and corruption cover only the Company? Yes/No. Does it extend to the Group/Joint Ventures/Suppliers/Contractors/NGOs/Others?

Yes, the Company has Code of Conduct for Directors and Senior Management and Vigil Mechanism and Whistle Blower Policy which governs the matters of ethics, bribery, corruption etc.

2. How many stakeholder complaints have been received in the past financial year and what percentage was satisfactorily resolved by the management? If so, provide details thereof, in about 50 words or so.

No stakeholder complaints were received in the FY2020-21. The status of investor complaints received and resolved during the financial year are disclosed in the Corporate Governance report which forms part of the Annual Report 2020-21.

PRINCIPLE 2: BUSINESSES SHOULD PROVIDE GOODS AND SERVICES THAT ARE SAFE AND CONTRIBUTE TO SUSTAINABILITY THROUGHOUT THEIR LIFE CYCLE

1. List up to 3 of your products or services whose design has incorporated social or environmental concerns, risks and/or opportunities.

Development and execution of affordable housing, civic urban infrastructure, and industrial parks.

2. For each such product, provide the following details in respect of resource use (energy, water, raw material etc.) per unit of product(optional):

- a) Reduction during sourcing/production/ distribution achieved since the previous year throughout the value chain?

The company has achieved the reduction in generation of waste, raw material and other resources through various initiatives like environment awareness campaigns, training of safety measures and monitoring of hazardous & non-hazardous material, developing facilities for labour and their timely health checkups, development of anganwadies and community development centers for children of labour. Further the Company encourages procurement of major construction material locally to avoid unnecessary fuel wastage. Wherever feasible, the Company uses AAC blocks instead of clay bricks towards sustainable project.

- b) Reduction during usage by consumers (energy, water) has been achieved since the previous year?

The Company has reduced the consumption of energy by adopting new techniques and alternate methods i.e. use of natural light, use of LED bulbs which shows improved results year by year. The Company encourages usage of rooftop solar and solar street lights at its projects sites and water harvesting system to store natural water.

3. Does the company have procedures in place for sustainable sourcing (including transportation)? (a) If yes, what percentage of your inputs was sourced sustainably? Also, provide details thereof, in about 50 words or so.

The Company has many construction project sites in Gujarat and Rajasthan. The first and foremost practice the Company prioritize is to procure material locally to support the sustainable sourcing and generating employment for the locals. In addition it also helps to eliminate unnecessary transportation from far places. Also for the project, the Company encourages its clients to adopt Green and Sustainable design.

4. Has the company taken any steps to procure goods and services from local and small producers, including communities surrounding their place of work? (a) If yes, what steps have been taken to improve their capacity and capability of local and small vendors?

The Company takes several steps to procure material and avail services from local vendors and suppliers which includes major construction materials, like cement, sand, steels, bricks, etc. The Company also majorly hire permanent as well as contractual manpower available in the vicinity of the project sites. Moreover, the Company also take steps to give job work/construction contracts to locals thereby improving their capacity and capability.

5. Does the company have a mechanism to recycle products and waste? If yes what is the percentage of recycling of products and waste (separately as 10%). Also, provide details thereof, in about 50 words or so.-

Many small waste parts of AAC bricks and other material etc. are used as filler whenever and wherever possible to avoid wastage. Also many such wastages are supplied for recycling wherever possible.

PRINCIPLE 3: BUSINESSES SHOULD RESPECT AND PROMOTE THE WELL-BEING OF ALL EMPLOYEES, INCLUDING THOSE IN THEIR VALUE CHAINS.

1. Please indicate the Total number of employees:

The company has a total 43 number of employees as on 31 March 2021

2. Please indicate the Total number of employees hired on temporary/contractual/casual basis.

There are 17 employees hired on temporary/contractual/casual basis as on 31 March 2021

3. Please indicate the Number of permanent women employees:

The company has a total 2 number of permanent women employees as on 31 March 2021

4. Please indicate the Number of permanent employees with disabilities:

There is no employee in the Company with disabilities as on 31 March 2021

5. Do you have an employee association that is recognized by management?

There is no such employee association in the Company.

6. What percentage of your permanent employees is members of this recognized employee association?

Not Applicable

7. Please indicate the Number of complaints relating to child labour, forced labour, involuntary labour, sexual harassment in the last financial year and pending, as on the end of the financial year.

No such complaint received during the financial year 2020-21 nor any such complaint pending as on the end of the financial year.

8. What percentage of your under mentioned employees were given safety & skill up- gradation training in the last year?

The Company has provided training of safety and skill up to its employees of all categories and the percentage of employees to whom such training is provided is approximately 50%.

PRINCIPLE 4: BUSINESSES SHOULD RESPECT THE INTERESTS OF AND BE RESPONSIVE TO ALL THEIR STAKEHOLDERS.

1. Has the company mapped its internal and external stakeholders?

The company has mapped its internal and external stakeholders. Employees and management are its internal stakeholders while shareholders, investors, lenders, suppliers, vendors, clients, regulators, contractors, workers, NGOs and its local communities are the external stakeholders.

2. Out of the above, has the company identified the disadvantaged, vulnerable & marginalized stakeholders?

The Company as a part of its CSR activities identifies such disadvantaged, vulnerable and marginalized external stakeholders.

3. Are there any special initiatives taken by the company to engage with the disadvantaged, vulnerable and marginalized stakeholders? If so, provide details thereof, in about 50 words or so.

Yes, the Company during undertaking its CSR program and activities, engage with such disadvantaged, vulnerable and marginalized external stakeholders with an objective to promote sustainable growth and betterment of the society.

PRINCIPLE 5: BUSINESSES SHOULD RESPECT AND PROMOTE HUMAN RIGHTS

1. Does the policy of the company on human rights cover only the company or extend to the Group/Joint Ventures/ Suppliers/Contractors/NGOs/Others?

The policy of the Company on human rights covers only the company, its employees and workers.

2. How many stakeholder complaints have been received in the past financial year and what percent was satisfactorily resolved by the management?

No stakeholder complaints, relating to human rights, have been received during the Financial Year 2020-21.

PRINCIPLE 6: BUSINESSES SHOULD RESPECT AND MAKE EFFORTS TO PROTECT AND RESTORE THE ENVIRONMENT.

1. Does the policy related to Principle 6 cover only the company or extends to the Group/Joint Ventures/ Suppliers/ Contractors/NGOs/others?

Applies only to the Company.

2. Does the company have strategies/ initiatives to address global environmental issues such as climate change, global warming, etc? Y/N. If yes, please give hyperlink for webpage etc.

Yes, the Company has been taking appropriate steps to address global environmental issues by promoting awareness of cleanliness and sanitation through its CSR programs. The detailed information of initiatives taken by the Company in this connection may please be referred in the Annual Report For F.Y. 2020-21 readily available at the website of the Company at www.nilainfra.com under the investor segment.

3. Does the company identify and assess potential environmental risks? Y/N

No.

4. Does the company have any project related to Clean Development Mechanism? If so, provide details thereof, in about 50 words or so. Also, if Yes, whether any environmental compliance report is filed?

The Company does not have any project related to Clean Development Mechanism.

5. Has the company undertaken any other initiatives on – clean technology, energy efficiency, renewable energy, etc? Y/N. If yes, please give hyperlink for web page etc.

The Company initiates various measures of clean technology, energy efficiency, renewal energy etc. at various projects like

- usage of LED lights at corporate offices and projects sites
- Installation of solar panel for renewable energy at certain project sites
- Usage of AAC blocks for energy efficiency at certain project sites

- Sewage Treatment Plant and recycling of water for gardening and flushing
- Water harvesting
- Rooftop Solar and usage of solar street lights at projects
- Solid Waste Converter

6. Are the Emissions/Waste generated by the company within the permissible limits given by CPCB/SPCB for the financial year being reported?

Not Applicable.

7. Number of show cause/ legal notices received from CPCB/ SPCB which are pending (i.e. not resolved to satisfaction) as on end of Financial Year.

There is no such show cause/legal notices received from CPCB/SPCB which are pending as on the end of the Financial Year 2020-21.

PRINCIPLE 7: BUSINESSES, WHEN ENGAGED IN INFLUENCING PUBLIC AND REGULATORY POLICY, SHOULD DO SO IN A MANNER THAT IS RESPONSIBLE AND TRANSPARENT.

1. Is your company a member of any trade and chamber or association? If Yes, Name only those major ones that your business deals with:

Yes, the Company is member of industry association like GIHED and CREDAI.

2. Have you advocated/lobbied through above associations for the advancement or improvement of public good? Yes/No; if yes specify the broad areas (drop box: Governance and Administration, Economic Reforms, Inclusive Development Policies, Energy security, Water, Food Security, Sustainable Business Principles, Others).

No major advocacy has been done by the Company through the associations as above.

PRINCIPLE 8: BUSINESSES SHOULD PROMOTE INCLUSIVE GROWTH AND EQUITABLE DEVELOPMENT.

1. Does the company have specified programmes/ initiatives/projects in pursuit of the policy related to Principle 8? If yes details thereof.

The company has in place Corporate Social Responsibility Policy in line with the requirement of Section 135 of the Companies Act, 2013. Through this policy the company promotes sustainable development and welfare of the society. The policy for CSR can be downloaded from the website of the Company at

http://www.nilainfra.com/pdfs/Policies%20and%20Code%20of%20Conducts/corporate_social_responsibility_policy.pdf.

The brief of the initiatives taken by the Company can be referred in the Annual CSR Report given under Annexure A of the Annual Report 2020-21 readily available at the website of the Company at www.nilainfra.com under the investor segment.

2. Are the programmes/projects undertaken through in house team/own foundation/external NGO/government structures/any other organization?

The Company has undertaken such programs on its own as well as in association or collaborations with several NGOs, trusts, and foundations, depending on the size, scale, and nature of the respective initiatives.

3. Have you done any impact assessment of your initiative?

The initiatives are periodically reviewed by the CSR Committee at their meetings. No other formal assessment is made for such initiatives.

4. What is your company's direct contribution to community development projects - Amount in INR and the details of the projects undertaken?

The Company has spent ₹ 57.87 Lakh during the Financial Year 2020-21 for various CSR activities to ensure community development. The details of the expenses may please be referred in the Annual Report of CSR given in the Annexure to the Board Report in Annual Report 2020-21 readily available at the website of the Company at www.nilainfra.com under the investor segment.

5. Have you taken steps to ensure that this community development initiative is successfully adopted by the community? Please explain in 50 words, or so.

No such formal impact assessment have been done by the Company except periodic review by the CSR Committee. However the Company makes attempts to ensure that CSR initiatives undertaken by the Company are successfully implemented and needs of the Community are met at large through feedback communications.

PRINCIPLE 9: BUSINESSES SHOULD ENGAGE WITH AND PROVIDE VALUE TO THEIR CONSUMERS IN A RESPONSIBLE MANNER.

1. What percentage of customer complaints/consumer cases are pending as on the end of financial year?

There is no consumer complaint is pending at the end of the F.Y. 2020-21.

2. Does the company display product information on the product label, over and above what is mandated as per local laws? Yes/No/N.A. /Remarks (additional information).

The Company is not in the business of manufacturing of any goods or material and therefore this does not apply.

3. Is there any case filed by any stakeholder against the company regarding unfair trade practices, irresponsible advertising and/or anti-competitive behavior during the last five years and pending as on end of financial year? If so, provide details thereof, in about 50 words or so.

No such complaint is filed against the Company during the last five years or pending at the end of the Financial Year 2020-21.

4. Did your company carry out any consumer survey/ consumer satisfaction trends?

Not required as the orders that the Company undertakes/executes invariably gets satisfactory completion certificate by the employer/client/principal.

Management Discussion and Analysis

1. THE ECONOMIC SCENARIO:

As a consequence of the COVID-19 pandemic the global economy contracted by 3.3% in 2020 as compared to a growth of 2.8% in 2019. Advanced economies contracted by 4.7% with the US by 3.5% and the UK by 9.9%. The emerging markets and developing economies contracted by 2.2% while the Asian economies by 1.0%. Within this group, the Indian economy contracted by 8.0% while the economies of Sri Lanka, Maldives, Malaysia, Bhutan and Nepal contracted by 3.6%, 32.2%, 5.6%, 0.8% and 1.9% respectively. China was the only major economy to register a 2.3% growth in 2020 (Source: IMF, World Economic Outlook, April 2021). Although difficult to pin down precisely, the contraction could have been three times as large if not for extraordinary policy support. Most developed and large economies responded to the pandemic by deploying measures to stimulate the economy through liquidity support, tax cuts and other regulatory changes. Many central banks employed asset purchase programs which were successful in lowering bond yields without triggering currency depreciations. The scale of pandemic can be gauged as it overshadowed all other major global events including the change in US administration, the UK's deal with the EU post Brexit, extreme weather events and geo-political tensions.

Despite the pandemic, the global economy is set to expand by 6% in 2021, its strongest growth in 80 years moderating to 4.4% in 2022. This recovery is uneven and largely reflects sharp rebounds in some major economies. The US economy is projected to grow by 6.4% in 2021 and 3.5% in 2022, while the UK is projected to grow by 5.3% in 2021 and 5.1% in 2022. The IMF projects a 12.5% growth rate for India in 2021 and 6.9% in 2022 while China is projected to grow by 8.4% in 2021 and 5.6% in 2022. (Source: IMF, World Economic Outlook, April 2021). In the US, the USD 1.9 trillion economic package is expected to deliver a significant jump in employment and economic growth. As per the Bank of England, with the UK aggressively pushing its vaccination programme, the country's economic growth could reach pre-pandemic levels comparatively quickly. In its March 2021 report, the World Bank has highlighted clear signs of an economic rebound for South Asia, with per-capita incomes expected to revert to their pre-COVID levels by 2022. It may be noted that the global prospects remain highly uncertain and the outlook is subject to significant downside risks, including the possibility of additional COVID-19 waves, new virus mutations and the accumulating human toll, even as growing vaccine coverage lifts sentiment. The financial stress amid high debt levels of Emerging Market and Developing Economies (EMDEs) is also a concern. Economic recoveries are diverging across countries and sectors, reflecting variation in pandemic-induced disruptions and the extent of policy support. The outlook depends not just on the outcome of the battle between the virus and vaccines—it also hinges on how effectively economic policies deployed under high uncertainty can limit lasting damage from this unprecedented crisis. The policy makers will need to support the recovery while safeguarding price stability, fiscal sustainability and to continue efforts towards promoting growth-enhancing reforms.

India's real gross domestic product (GDP) at current prices stood at ₹ 195.86 lakh crore (USD 2.71 trillion) in FY2021, as per the second advance estimates (SAE) for 2020-21. The nation-wide lockdown caused a sharp contraction of 23.9% in GDP during Q1-FY2021, recovering to a 7.5% drop in Q2-FY2021, together with improvement in all key economic indicators. Commencing from July 2020, the recovery has been V-shaped, as demonstrated by Quarter-on-Quarter GDP growth, a sustained resurgence in high frequency indicators such as power demand, E-way bills, GST collection, steel consumption, and so on. GST collections, in fact, reached pre-COVID monthly levels following unlocking of industrial and commercial activity. Imports contracted more sharply than exports and foreign exchange reserves were USD 58,204 crore, as of 12 March 2021, according to data from RBI, i.e. at levels covering approx. 18 months of imports. Inflation, mainly driven by food prices, remained above 6% for much of the year. India's GDP is estimated to contract by 7.7% in FY2021, with a sharp 15.7% decline in H1-FY2021 and a minor 0.1% fall in H2-FY2021, which was cushioned by the Government consumption, improving private consumption and net exports. If taken sector-wise, agriculture can be said to have performed better in comparison to industries, with a growth of 3.4% during FY2021, while industry and services are estimated to contract by 9.6% and 8.8% respectively. Within industry, mining is estimated to contract by 12.4%, manufacturing by 9.4% and construction by 12.6%. The utilities sector has shown a sharp recovery and is set to register a growth of 2.7% in FY2021.

The Economic Survey projects India's real GDP to grow by 11% in FY2022 and a 6.8% rise in FY2023, provided normalisation of economic activities continues and the rollout of COVID-19 vaccines gathers traction. If this is supplemented with a supply-side push from reforms, the easing of regulation, continued infrastructural investments, recovery of pent-up demand, increase in discretionary consumption, low-interest credit disbursement and adequate liquidity, the Economic Survey projects that the economy can overtake the pre-pandemic levels of FY2020 in another two years (Source: Economic Survey 2020-21). According to the IMF, in the next two years, India is also expected to emerge as the fastest-growing economy. India is expected to be the third largest consumer economy as its

consumption may triple to USD 4 trillion by 2025, owing to shift in consumer behaviour and expenditure pattern, according to a Boston Consulting Group (BCG) report. It is estimated to surpass USA to become the second largest economy in terms of purchasing power parity (PPP) by 2040 as per a report by PricewaterhouseCoopers.

2. THE INDUSTRY SCENARIO:

A. Infrastructure

Any highly-populated country needs a robust infrastructure and India is no exception to the rule. A key driver of the economy, Infrastructure is highly responsible for propelling India's overall development. Infrastructure sector includes power, bridges, dams, roads and urban infrastructure development. It is a major contributor towards India's GDP, both directly and indirectly. GDP from Construction in India averaged ₹ 2,23,671 crore from 2011 until 2021, reaching an all-time high of ₹ 3,17,514 crore in Q1-FY2021 and a record low of ₹ 1,31,439 crore in Q2-FY2020. The latest forecast of India's GDP from Construction is ₹ 3,11,000 crore by 2022 and ₹ 3,31,200 crore by 2023. It employs 5,500 lakh people, and any improvements in the construction sector affect a number of associated industries such as cement, steel, technology, skill-enhancement, etc. Low entry and technology barriers make the industry highly fragmented. While low fixed costs narrow the entry barriers, uncertainties on payments drives up working capital requirements. Entities in a contracting process of infrastructure and industrial projects include the owner (project implementer), contractors, consultants, process licensors and suppliers of raw materials and equipment. The industry is regulated and implemented by different apex authorities of the various segments. It encompasses different types of contracts (EPC, EPCM, BOT, BOOT, etc.), depending on the nature of project. Each contract has certain features which draw interest of players and aim at enhancing overall efficiency. Revenues in construction contract are recognised as per Ind-AS 115 i.e. the revenue is recognised to depict the transfer of goods or services to customers at an amount that is expected to be entitled to in exchange for those goods or services. Contract costs that meet certain criteria will be capitalised as an asset and get amortised as revenue is recognised.

Infrastructure accounts for nearly 40% of India's industrial output. Hence, it enjoys intense focus from the Government for initiating policies that would ensure time-bound creation of world class infrastructure in the country. To prevent 'lack of infrastructure' becoming a 'binding constraint' on the growth of Indian economy that aspires to become a USD 5 trillion by 2024-25, the country needs to spend about USD 1.4 trillion on infrastructure. India is witnessing significant interest from international investors in the infrastructure space with many MNCs keen to collaborate on infrastructure, high speed trains, renewable energy, developing smart cities, etc. FDI in Construction Development sector (townships, housing, built up infrastructure and construction development projects) stood at USD 2,593 crore at December 2020.

The Government of India is keen on developing the infrastructure sector in the country. This is clearly evident through the numerous initiatives announced for this sector as part of the Union Budget 2021-22, while National Infrastructure Pipeline has projected total infrastructure investment of ₹ 1,02,000 crore during the period FY2020 to 2025 in India. The "Affordable Housing" sector enjoys the coveted "Infrastructure" status. Overall construction spends in key infrastructure sectors has gathered further pace, aided by a slew of recent policy reforms. Roads would drive majority construction spends while investments in urban infrastructure and railways are expected to grow at a faster pace with the government's increased focus on schemes such as HFA by 2022, Smart cities, AMRUT, Swachh Bharat, Clean Ganga Mission, WSS projects and metro construction in major Indian cities are expected to boost urban infrastructure investment in the years to come.

B. Logistics:

In recent times the warehousing sector has achieved new benchmarks on demand, supply and investments. Further, these have also been backed by graduating value-chain of the logistics eco-system i.e. improvement in quality. The coveted status of "Infrastructure" has further catalysed the growth of this segment.

The presence of a robust logistics-related infrastructure and an effective logistics management system facilitates seamless movement of goods from the point of origin to that of consumption, and aids an economy's movement to prosperity. The progress of logistics sector holds an immense value for India as well; as such advancement would increase exports, generate employment and give the country a significant place in the global supply chain. Indian logistics industry is a sunshine sector. The Indian logistics sector provides livelihood

to about 220 lakh people. Improving the sector would facilitate a 10% decrease in indirect logistics cost, leading to a growth of 5-8% in exports.

The industrial warehousing segment in India is highly fragmented, with the unorganised players have aggregated 83-85% share of the total warehousing space. As a consequence, there is severe price competition among players. The industrial warehousing segment witnesses intense competition on account of unorganized nature of the industry. The other challenges hindering its growth include high cost, underdeveloped material handling infrastructure, fragmented warehousing, presence of multiple regulatory and policy making entities, lack of seamless movement of goods across modes, and poor integration with modern information technology. These challenges, particularly the ones pertaining to procedural complexities, redundant documentations and involvement of several agencies at our ports and borders, severely dent our performance in international trade, resulting into about 70% of the delays.

There are several policies aimed at encouraging investment in the sector, including free trade warehousing zones and logistics parks. Selecting the right location, optimal usage of storage facilities, providing value-added services, and achieving scale are the key success factors for the warehousing industry. The government has laid an emphasis on infrastructure growth with plans to develop highways, railways and rural roads, and revive unused airstrips and airports. The government also announced the revival of the Sagarmala project for port modernisation and port automation, development of multimodal logistics parks, and dedicated freight corridors. The successful and timely completion of these proposed projects can help ensure cost effectiveness and operational efficiencies.

The GST implementation in 2017 has since brought efficiency in supply chain e.g. it has expedited the freight movement at interstate borders due to dismantling of check posts by upto 20%. The rollout of GST has started to improve supply-chain effectiveness and reduction in consolidation costs by promoting hub-and-spoke model (have a large warehouse in a strategic location instead of numerous small ones) resulting in a reorganised industry. There is a target to reduce the logistics cost in India from the present 14% of GDP to 7-8% of it, by 2022. The warehousing market in India was valued at ₹ 1,05,000 crore in 2020. It is expected to expand at a compound annual growth rate (CAGR) of ~14.86% between 2021 and 2025, to reach a value of ₹ 2,02,886 crore by 2025. The industrial warehousing segment is driving growth, led by the organised segment (largely third-party logistics players i.e. 3PL) fuelled by value-added services. The growth of logistics is two sided – led by demand and supply. The demand-led growth is mainly strengthened with the economic recovery, and implementation of GST. The supply-led growth drivers include improvement in logistics infrastructure, integrated logistics and birth of numerous logistics start-ups, especially tech led start-ups. Such significant development is reflected in improvement in the global rankings i.e. 44th out of 167 countries in World Bank's Logistics Performance Index (LPI) 2018.

The Indian government has announced that it is working at the policy in order to set up new logistics plan in the country. The intention is to devise the most cost-effective method to transport goods by the year 2035. The policy aims at preparing a proper integrated logistics plan. The new logistics division within the department of commerce is working on this national integrated plan, with the objective to identify and iron out any existing bottlenecks and gaps in the industry. It will also encourage tech-enabled start-ups in the logistics sector as they will be able to provide seamless movement of goods across the country.

In the post COVID-19 era consolidation of warehouses are expected to accelerate, while stocking levels shall increase. 3PL will be at the forefront for warehouse demand; however the largest occupier will be e-Commerce. With accelerated institutionalisation of warehousing segment, the footprint shall expand in the smaller cities, too.

The industry is attracting a lot of investment and as a result of the transformations and changes led by these investments; the industry will stimulate job creation. The experts predict that it can be the largest job creator by 2022. Some of key investors include Ascendas-Singbridge, Morgan Stanley, and Warburg Pincus, beside others. The investment burst in the sector is leading to development of new and better warehousing facilities. The future for the Indian logistics industry is going to shine even brighter. It will enhance our trade competitiveness, create jobs, shoot up country's performance in global rankings and pave the way for India to become a logistics hub. Such measures will also contribute to creation of a New India.

3. NILA:

As a pure-play Civic Urban Infrastructure contractor/developer, your Company works on AH Infrastructure and civic urban infrastructure projects by leveraging its core competency. The management is optimistic about the quick revival of the economy in general and construction sector in particular. Your Company has since secured meaningful Affordable Housing development orders and envisage that, on back of enhanced pre-qualifications/bidding capacities, its business will grow sustainably. Also, the outbreak of COVID-19 pandemic has compelled people to stay at home as a precautionary measure to abate further spread. While, there are lakhs of people in India who do not have a home of their own, inducing the government to plan more aggressively to provide houses to these people who don't have housing at this point of time.

Your Company has also built significant PPP based order book where the remuneration is superior for a long-term sustainable growth. Your Company is now a sort of a Specialist in AH Infrastructure and pure-play Civic Urban Infrastructure player.

4. Strategic Focus of NILA:

A. Unique Business Model – Diversified and Flexible:

Your company has developed a unique business model of construction contracts on EPC/LSTK, EPC+PPP and PPP mode for AH projects as well as Civic Urban Infrastructure Projects. Your Company has successfully leveraged the construction expertise to grow into construction contracts from government authorities and reputed corporates. Your Company holds commercial properties in the prime location of Ahmedabad and such lease rent ensures continues revenue. An integrated well balanced business model of construction and development of government and private projects and contracts provides hedging.

This diversified model of business has shown great strength and resilience in the past years of challenging business environment. Leasing ensures steady cash flow income while construction contracts of Government assure timely and confirmed recovery of dues, whereas the PPP projects ensure better profitability margins. Your Company has developed in-house expertise in the entire gamut of construction and execution – including design, planning & estimation, project preparation, project execution, interior designing, integration of project management.

B. Project Selection and Execution:

Your Company's comprehensive evaluation of opportunities in infrastructure projects includes the following parameters:

- **Principal:** Constitution, financial strength, bureaucratic structure, involvement of any bilateral/multilateral agency, track record on other projects, contract management strength, appropriateness of design for local market, etc.
- **Pre-development:** Financing flexibility to fund the early design work, community/political participation/opposition, government stability over the life of the project, environmental problems, site selection and regulatory approval delays, land acquisition, etc.
- **Finance:** Commercial viability of the project, capacity of the lender to evaluate and speed in providing the credit lines, repayment mechanism, credit availability on viable terms, etc.
- **Construction:** Viability of the design/technology, availability of labour and raw-material, outlook of raw-material cost, contractor failure, developer's access to funds on a timely basis for construction, etc.
- **Market:** Local economic conditions, demand-supply outlook, interest/inflation rate scenario, etc.

Throughout this process, your Company has to identify and mitigate inherent risks that can adversely affect the project. It is broadly evaluated in three parts: 1) preliminary considerations, market analysis, financial

analysis, and strategic marketing; 2) site selection and due diligence, land acquisition, deal structure, entitlements, permissions, etc.; and 3) planning and design, construction management, operations and property management. Hence, with sufficient due-diligence the project is selected and execution is carried-out accordingly by your Company. Your Company's Quality Management System is ISO 9001 : 2015 accredited by INTERCERT that include Project Management, Site Development and Construction activities for Infrastructure, Industrial, Residential and Commercial projects.

C. Project Management and Monitoring:

Your Company has adopted an integrated system for planning, scheduling, monitoring and control of the approved project under implementation. To coordinate and synchronise all the support function of Project Management it relies on an Integrated Project Management Control System which integrates its project management, contract management and control function addressing all stages of project implementation from concept to commissioning.

All projects have project monitoring centres which facilitate monitoring of key project milestones and also act as a Decision Support System for the management. It is used as integrated web based collaborative system to facilitate consolidation of project related issues and its timely resolution. Various features for information delivery of ERP facilitate project tracking, issues resolution and management interventions on a regular basis. Integrated ERP platform for monitoring and controlling of critical project activities spread across various functions – projects, contracts, finance and execution. This helps in decision support through timely identification of critical input and provides a holistic approach towards project implementation and major project milestones.

D. Financial Resources:

The foremost source of finance of your Company has traditionally been internal accruals and borrowings from banks. Your Company has made financial arrangement with banks and financial institutions for its various long-term and working capital requirements. During the year your Company has successfully contracted/renewed substantial credit limits at competitive terms. Such negotiations will enhance the overall financial flexibility.

E. Joint Ventures:

In order to share risk and cost, experience and expertise your Company develops certain projects in association with other renowned corporates and has formed associates and joint ventures. This provides a larger scale to your Company to work on specific operations. In such a scenario, the construction work is invariably carried-out by your Company. Your Company looks upon them as partners in its progress and shares with them the rewards of growth. It is your Company's endeavour to build and nurture strong links with the trade based on mutuality of benefits, respect for and cooperation with each other, consistent with consumer interests.

5. Opportunities and Outlook:

A. Gujarat – The Growth Engine of India:

The organisation of "Vibrant Gujarat" at every two-years has been instrumental to make Gujarat a corporate hub with the entry of national and multinational companies which has led to rising employment. Gujarat is one of the leading industrialised states in India. As of February 2021, Gujarat had a total installed power generation capacity of 37,222 megawatt (MW). Gujarat is considered the petroleum capital of India due to presence of large refining capacity set up by private and public sector companies with total refining capacity of 102 MMTPA, accounting for 42% of the country's capacity. The state is the world's largest producer of processed diamonds, accounting for 72% of the world's processed diamond share and 80% of India's diamond exports. With a contribution of 65 to 70% to India's denim production, Gujarat is the largest manufacturer of denim in the country and the third largest in the world. There are 42 ports, 18 domestic airports and one international airport. There are 106 product clusters and 22 notified special economic zones (SEZs). Large scale investment is expected in Gujarat as part of the USD 9,000 crore DMIC.

ECONOMIC SNAPSHOT

GSDP of Gujarat at Current Prices

GSVA Composition by Sector at Current Prices

FDI inflow in Gujarat in April 2000 -December 2020 (US\$ billion)

Note: - ^: CAGR in Rs., GSDP - Gross State Domestic Product, GSVA - Gross State Value Added, AE - Advance Estimate, FDI - Foreign Direct Investment
Source: Ministry of Statistics and Programme Implementation, Directorate of Economics and Statistics, Department for Promotion of Industry and Internal Trade (DPIIT)

ADVANTAGES

High economic growth and industrial development

- One of the most industrially developed states. Contributes about a quarter of India's goods export.
- Gross State Domestic Product (GSDP) of Gujarat grew at a rate of 10.02% during 2015-16 and 2020-21.

Adequate power generation capacity

- The State Government has framed policies in almost all key sectors such as industry, power, ports, roads, agriculture and minerals.

Rich labour pool

- Good educational infrastructure with premier institutes in management, fashion, design, infrastructure planning and pharmaceuticals.
- Industrial training institutes in each district to train manpower for the shop floor level.

Facilitating infrastructure

- The state has developed 42 ports, 18 domestic airports and one international airport.
- 2,200 kms gas grid supplies gas to industrial areas.

KEY GOVERNMENT POLICIES AND OBJECTIVES

Gujarat New Industrial Policy 2020

Promote entrepreneurship & innovation in the state

Garment and Apparel Policy 2017

Creation of 100,000 jobs in the state.

Solar Power Policy 2015

Promote power generation of green and clean power in the state using solar energy and reduce the cost of generating renewable energy.

IT Policy, 2014-19

Accumulate US\$ 15 billion from IT sector in Gujarat by 2020.

E-Governance Policy, 2014-19

Provide cost efficient services in Gujarat through information and communication technologies.

GOVERNMENT VISION FOR THE STATE

Energy

Universal access to affordable, adequate, reliable, modern and sustainable energy.

Agriculture

Increase the productivity and processing in agriculture sector to double farmers' income by adopting modern and sustainable agricultural practices; and ensure food security for all.

Tourism

Position Gujarat as a vibrant tourist destination with an emphasis on visitor experience, livelihood linkages, environmental concerns and investment opportunities.

Education

Knowledge and skill-based society with modern and quality educational system and infrastructure to prepare people for competing at international and national events.

Further, it may be noted that Gujarat is amongst the "Top-achiever" states in the recent EODB Combined Score Card of Reform Evidence and Feedback. Hence, your Company foresees ample opportunities in infrastructural development. The rapid urbanisation is likely to boost metaphorical growth in years to come. All these would ultimately generate a demand to develop infrastructure that shall offer opportunity to the developers to grow in years to come. The envisaged opportunities are discussed further. Your Company is favourably placed to participate in the opportunities arising from the home-state that is considered the "Growth Engine of India".

B. Rajasthan – The Sunrise State for Civic Urban Infrastructure:

Rajasthan is India's largest state by area and it is bordered by the other important Indian states: Punjab to the north; Haryana and Uttar Pradesh to the northeast; Madhya Pradesh to the southeast; and Gujarat to the southwest. Thus it is a natural corridor between the wealthy northern and the prosperous western states, making it an important trade and commerce centre.

The population of Rajasthan stands at about 685 lakh (2011 census), making it the eighth most populated state in India (5.6% of the country's population). Globally, the urban areas are becoming centres of economic growth. Due to the rapid growth and urbanization, there has been an increased pressure on the urban infrastructure facilities. Rajasthan is also in accordance with such global phenomenon and has recorded 29% urbanisation growth rate during 2001-2011 as per the Census.

Meanwhile, the Urban infrastructure and Public Services for Rajasthan's burgeoning urban population is inadequate. On a conservative basis, an investment to the tune of ₹ 10,000 crore would be required in the next 10 years to adequately address the infrastructure needs of various urban centres in Rajasthan.

The natural resources, policy incentives, strategic location and infrastructure in the state are favourably suited for investments in sectors such as cement, IT and ITeS, ceramics, tourism, automotive and agro-based industries. Rajasthan is the largest producer of oilseeds, seed spices and coarse cereals in India. Tremendous opportunities exist in the areas of organic and contract farming as well as in infrastructure developments. Rajasthan accounts for 26% of the total cement grade limestone reserves in India and is the largest cement producer with 24 major cement plants having a total capacity of 55 MTPA.

The state has undertaken a series of labour and industry reforms in recent past. It has also opened many sectors for PPP; earning favourable response from residents, activists and industrialists. The GoR is committed to providing a significantly better and more prosperous life to all the citizens of the State. For people of Rajasthan to realise their dream of a much better life for themselves and their children, it is creating an entire ecosystem of opportunities including a slew of measures, which gets reflected as Rajasthan ranked 8th in the latest EODB Combined Score Card of Reform Evidence and Feedback. Hence, your Company foresees ample opportunities in infrastructural development and has built a propitious order-book (as detailed further).

ECONOMIC SNAPSHOT

GSDP of Rajasthan at Current Prices

GSVA Composition by Sector at Current Prices

FDI inflow in Rajasthan in April 2000 -September 2020 (US\$ million)

Note: - ^-CAGR in Rs, GSDP - Gross State Domestic Product, GSVA - Gross State Value Added, BE - Budget Estimate, FDI- Foreign Direct Investment
Source: Directorate of Economics and Statistics of Rajasthan, Department for Promotion of Industry and Internal Trade (DPIIT), MOSPI

ADVANTAGES

High economic growth and stable political environment

- GSDP increased at a CAGR (in Rs.) of 7.05% between 2015-16 and 2020-21.
- Stable political environment. Government committed towards creating a progressive business environment.

Rich labour pool and infrastructure support

- Rajasthan has renowned higher education institutions in various disciplines, producing thousands of skilled and proficient young individuals every year.
- State developing sector specific infrastructure, such as special purpose industrial parks and special economic zones for export of handicrafts, IT and electronic goods.

Abundant mineral resources and location advantage

- Rajasthan offers a variety of unexploited agricultural and mineral resources.
- Rajasthan is a natural corridor between the wealthy northern and the prosperous western states.

Policy and institutional support

- Provides several incentives and concessions for investment.
- Rajasthan has a favourable industrial relations environment. The law & order situation in the state ensures a good working environment.

KEY GOVERNMENT POLICIES AND OBJECTIVES

Rajasthan Start-up and Innovation Policy, 2019

Establish 10 incubators, support 2,000 innovative start-ups, mobilize US\$ 14.31 million of Angel and Venture Capital and develop an innovation culture in the state.

Rajasthan Solar Energy Policy, 2019

Develop a global hub of solar power of 50GW capacity in next 5-6 years to meet energy requirement of Rajasthan and India.

Rajasthan Investment Promotion Scheme, 2019

Promote investment in the state and generate employment opportunities through such investment.

One Nation One Ration Card System Reform

In February 2021, Rajasthan became the 12th state in the country to successfully undertake 'One Nation One Ration Card System' reforms.

Urban Local Bodies (ULB) Reforms

In January 2021, Rajasthan became the fifth state in the country to successfully undertake Urban Local Bodies (ULB) reforms.

GOVERNMENT VISION FOR THE STATE

						
Infrastructure	Agriculture	Economy	Education	Human development	Community	Governance
To develop good quality roads, proper traffic management systems and appropriate water policy.	To create network of canals, develop five international level research labs and address soil fertility.	To promote region wide economic balance and develop efficient economic infrastructure.	To make education compulsory up to 10th standard, support higher education & research and provide computer literacy.	To eliminate poverty and generate employment opportunities for all and develop a comprehensive Economic Inclusion Policy.	To develop a coherent social environment and execute poverty elimination plans.	To make minimum education & work experience must for politicians, provide freedom to bureaucrats and implement fair & advanced taxation system.

C. Infrastructure:

i. Affordable Housing:

Right to adequate housing is a basic human right as shelter is a basic human need. Provision of adequate housing is emerging as a major thrust area for Government and the government accords a very high priority to this task. With all round increase in the cost of land, building materials, labour and infrastructure, affordable housing has become a distant dream for the economically weaker, low income groups, and middle income groups. Hence, the role and intervention of the Government has become all the more important. Sustainable human development cannot be achieved without adequate & affordable housing. Affordable shelter for the masses or creation of productive and responsive housing for all is not a simple technological issue or a mere problem of finance. It is a complex amalgam of a host of factors, which need to be tackled at all levels and in a synchronised manner. Due to rapid pace of urbanisation, increasing rural to urban migration and the gap between demand and supply, there is a growing requirement for shelter and related infrastructure in urban areas of the country.

The latest mission of the MHUPA i.e. "Pradhan Mantri Awas Yojana – HFA by 2022" offers a considerable opportunity. It aims to build about 200 lakh houses across the length and breadth of the country for EWS, ST, SC, and women (irrespective of caste and religion). HFA alongwith the "100 Smart Cities" will be a major game changer for the industry. While, the most coveted "Infrastructure" tag to AH has already initiated change in the rules-of-the-game amongst even the established and branded real-estate players.

A combination of factors such as: 1) government financial and policy thrust, 2) regulatory support, 3) rising urbanisation, 4) increasing nuclearisation of families, and 5) increasing affordability is converting latent demand into a commercially lucrative business opportunity. Increased impetus to the creation of affordable housing mission, along with quicker approvals and other supportive policy changes offers a considerable opportunity. On operating cost metrics, the new entrants with their pan-India ambitions would need to build scale quickly to compete with the incumbents whose regional-focussed models have helped maintain tight opex ratios in addition to their cost of fund advantage. This entails building up the order-book at a rapid pace. This in turn would necessitate having the right 'people' (who have seen various cycles and scale) and the right 'processes' (building a scalable and robust platform) while getting the 'pricing' (risk and opex adjusted spreads) right. These are the key differentiators. As your Company has already become a sort of a Specialist in AH space, it is quite favourably placed to participate in such opportunity as discussed further.

PMAY (U) has selected 443 cities of Gujarat and 459 cities of Rajasthan, wherein the latest progress of PMAY (U) – HFA at June 2020 is furnished below:

State	Project Proposal Considered	Physical Progress (Nos)			Financial Progress (₹ in Crores)		
		Houses Sanctioned	Houses grounded* for construction	Houses Completed*	Investment in Projects	Central Assistance Sanctioned	Central Assistance Released
Gujarat	1,604	8,13,338	7,29,528	5,71,491	76,872	15,177	11,003
Rajasthan	397	2,11,195	1,54,718	1,28,118	16,329	3,792	2,235
Total	2,001	10,24,533	8,84,246	6,99,609	93,201	18,969	13,238
PAN India	24,678	1,12,95,000	83,25,000	50,04,000	7,35,000	1,82,000	1,06,000

* Including incomplete houses of earlier NURM.

It can be gathered from the above table that your Company is already operating in states that offer about 9% in numbers and 13% amountwise opportunity. Also, about 70% Central assistance is already released in Gujarat (72%) and Rajasthan (59%) combined together, wherein it is 58% for Pan India. Out of the Houses Sanctioned, Gujarat has completed 70% and Rajasthan 61% that is superior to 44% for Pan India.

ii. Slum Redevelopment in PPP:

According to the GoG's UDUHD, about 7,00,000 families reside in slums in the urban areas of Gujarat. State Government aims to accord priority to rehabilitate such slum dweller families in-situ. Eligible slum dwellers families will be provided houses of minimum 25 sq. mtr. Carpet area with basic civic amenities free of cost in lieu of their hutments with main objectives being:

- In-situ rehabilitation of the slums situated on public land in urban areas of the State
 - Provision of pucca houses with basic amenities having two rooms, kitchen, bath room and latrine for slum dwellers families
 - Ownership rights of the house to the beneficiaries after 15 years
 - Provision of hygienic and healthy life style especially for urban poor
 - Qualitative improvement in socio-economic and environmental conditions of towns and cities of Gujarat
 - Attracting private investment by PPP for this purpose
 - Simple and transparent policy framework to rehabilitate slums in-situ on public land through PPP
- The beneficiaries get basic civic facilities of drinking water, sewerage line, electricity connections, Anganwadi/Health Centre. The beneficiaries are responsible for payment of operational and maintenance cost, property tax and any other tax levied by LSG. The beneficiaries will be initially granted lease-hold rights for the houses allotted to them for first 15 years and thereafter will be granted ownership rights. However, the ownership of the land will remain with the LSG. The developer gets certain incentives including additional FSI, TDRs, free-hold rights on balance vacant land for development and free sale, exemption on developmental charges, relaxation in construction. Private developer is selected through established, open and transparent procedures.

Your Company has already built proprietary knowledge required to execute such PPP projects by successfully delivering certain slums aggregating 1,142 units for AMC, while your Company is further executing certain meaningful projects that are slated to change lives of about 2,676 slum-dwelling families. Hence, your Company is very enthusiastic about such opportunity.

iii. Civic Urban Infrastructure:

Your Company has, over a period of time, developed a niche for itself by executing unique and pioneering projects e.g. BRTS bus-shelters, Multi-level parking facility, Slum Rehabilitation and Redevelopment, Medical college campus, etc. Through execution of such projects, your Company has built proprietary knowledge and it places your Company favourably with employers of such projects. Your Company expects that number of large sized urban infrastructure projects in Gujarat will start taking shape on the basis of investments committed vide 28,360 MoUs executed during the latest Vibrant Gujarat. In the backdrop of the announcement of GIFT, MEGA, Dholera SIR, Mega cities, Million plus cities, etc., your Company is favourably poised to replicate such experience. Apart from this, there are also other opportunities that your Company can participate into, such as:

- Transportation infrastructure for better mobility through public transport, improved walkability, parking
- Sewerage, drainage and water supply
- Solid waste management
- Social infrastructures such as parks, playgrounds and leisure spaces
- Preservation of heritage precincts
- Community Halls

Your Company is confident to benefit from this.

1. Bus Ports in PPP

A typical SRTC is a state owned corporation for passenger transport providing bus services both interstate and intra-state. As part of this endeavour, various SRTCs have decided to develop state-of-the-art Bus Terminals with an iconic structure and design as well as modern facilities. To improve the urban transport infrastructure, SRTC will undertake development and operation & maintenance of bus terminals with commercial facilities on DBFOT basis.

SRTC normally adopts a single stage three step online tendering process for selection of the Concessionaire for award of the Project(s). Govt's guidelines for qualification of bidders seeking to acquire stakes in any public sector enterprise through the process of disinvestment apply mutatis mutandis. The selected bidder i.e. the Concessionaire is responsible for designing, engineering, financing, procurement, construction, operation and maintenance of the Project(s) under and in accordance with the provisions of a long term Concession Agreement to be entered into between the Concessionaire and SRTC.

The scope of work broadly include rehabilitation, demolition of existing bus terminals with designing, financing, construction of new bus terminals along with associated amenities & facilities, development and construction of commercial facilities and the operation and maintenance thereof of bus terminal and commercial facilities. The commercial facilities to be developed by the Concessionaire shall be available on a long-term lease basis.

Your Company has already got a couple of orders directly as well as in joint venture with other reputed corporates for Amreli and Modasa Bus Ports at Gujarat. Your Company is confident to gain positively from execution of such projects.

2. Office/Commercial Complex

Your Company has already executed 8,00,000 sq ft bua for a reputed corporate at Gujarat. Your Company is confident to gain positively from execution of such projects.

3. Health and Medical

Your Company has already executed 3,00,000 sq ft bua facility of a Medical College campus for 100 MBBS admission annually as per applicable MCI norms at Barmer, Rajasthan. This Project will provide additional opportunities to your Company into Medical and Health related construction business, which has abundant prospect – moreso post COVID-19 pandemic. Your Company is confident to gain positively from execution of such project.

D. Industrial and Logistics:

The logistics value chain comprises three units – transportation, warehousing and administration. Transportation involves the end-to-end movement of freight from the manufacturer/retailer to the customer. This transfer can span across borders and across different modes of transport. Warehousing is the intermediate storage of goods that happens during a product's journey from the factory to the consumer. Administration is supply chain management.

Logistics entails a lot of coordination and integration, which is made efficient through supply chain management. It plays an indispensable role in the transportation of goods across the country. There is a target to reduce the logistics cost in India from the present 14% of GDP to 7-8% by 2022. At present it is nearly double as compared to 6-9% in developed countries such as the US, Hong Kong and France. Much of the higher cost could be attributed to absence of efficient intermodal and multimodal transport systems. Moreover, warehousing which approximately accounts for 25% of the logistics cost has also been facing major challenges. This further added to the logistics cost borne by the end users and other stakeholders.

Indian Government has increased thrust to improve the logistics sector. Promising and futuristic Policy and Infrastructure environment for the Logistic sector exists in India today, and is creating the most encouraging impact in revolutionizing the logistics sector and taking it to the next level of evolutionary phase. The country is gradually improving its logistics positioning as seen in the LPI, wherein India's rank has improved as mentioned earlier – also attributable to reforms undertaken by the government like the introduction of the SWIFT in the Customs Department.

The sector indeed has a potential to embrace lot more positive changes and has a long way to go. With the Logistics Sector getting Infrastructure status, the access to credit on long term basis is at competitive rates from financial institution and access to funds as ECB, as well as access long tenure funds from insurance and pension funds and borrows from IIFCL. Further, the implementation of GST has made way for cost and operationally efficient Hub & Spoke Model of warehousing and has shifted the end user demand and developer supply from inefficient, low quality redundant warehouses to large box, good quality Grade "A" warehouses. Strong demand and investment are foreseen in short to medium term.

A warehouse is a fundamental part of business infrastructure and is one of the key enablers in the global supply chain. It is the fulcrum for procurement, manufacturing and distribution services which collectively build robust economies. Earlier, the incentives to enter India's warehousing sector was minimal for organised players as the occupiers themselves were content to engage with fringe partners offering low cost options with a network of small storage facilities near consumption centres. Multiple state and central level taxes made it sensible for companies to maintain smaller warehouses in each state. Further, this limited the focus on automation and higher throughput. This attitude of occupiers of preferring to save on costs as their sole objective is changing. There has been a gradual transition in the mind-set of occupiers to use the services offered by organised segments. A plethora of factors are driving this wave of change such as: requirement from compliance regulators (in case of the pharmaceutical industry), quality consistency assurance required by clients/ regulators, statutory penalties on non-complaint warehousing facilities, economies of scale being achieved through larger warehouses, safety and security of goods, efficiency in operations, quicker turnarounds, need for efficient warehousing designs and the advent of e-commerce and other multinational businesses that prefer to occupy only complaint facilities. This shift was further accentuated by the implementation of the GST. The warehousing market in India is highly fragmented as majority of the warehouses measure less than 10,000 square feet. Further, almost 90% of the warehousing space is controlled by unorganised players and comprises small-size warehouses with limited mechanisation. The present warehousing market in India can be categorised into three – lower stratum, middle stratum and higher stratum. The lower stratum is just godowns of the past converted into warehouses. These are old buildings, mostly Reinforced Cement Concrete (RCC) structures and their only utility is storage. The middle stratum warehouses comprise similar structures as in the lower stratum, but these are built with pre-engineered slabs and are known

as pre-engineered building (PEB) structures. Their planning and functioning is very basic, like that of the lower strata, but their buildings are in a comparatively better condition. Higher stratum warehouses are the modern and massive structures that perform a lot of supply chain functions along with storage. Another practice in Indian warehousing market is the lack of attention to warehouse designing. This ignorance stems from lack of awareness and/or lack of willingness on the part of landowners and developers to cater to the requirements of end users. Most warehouses are built keeping in mind the developer's perspective and not that of the end user. Hence, the focus is to save cost which results in the construction of a very basic structure for a warehouse. Such warehouses do not adhere to market standards and therefore, end users are frequently plagued with issues like lack of basic amenities and sub-standard infrastructure with lower longevity. Warehouses today take different forms – fulfilment centres, distribution centres, return centres, and even showrooms. Your Company, thus, focuses on the concept of Built-to-Suit (BTS) warehouse incorporating the designing and end user centric facilities/amenities. Demand for large warehousing spaces is likely to see steady increase as occupiers now prefer to move out of their smaller warehouses and consolidate their activities in larger facilities, which are presently in short supply compared to the demand. This demand-supply gap is visible in the current premium commanded by organised players owning these assets.

Such opportunity has attracted global corporations in Indian warehousing sector. The government's thrust to the sector such as giving infrastructure status to the logistics sector, "Make in India", "Digital India", "Skill India", India Brand Equity Foundation Trust, Multi-modal logistics parks, signing of FTA/PTA, etc.; and initiatives to set up industrial corridors like DMIC, Delhi Kolkata Industrial Corridor and logistics parks have propelled the cause. Over the past few years, the government has undertaken several reforms to promote and provide an exit route to real estate investors via the REITs. Currently the market for REITs in India is at a very nascent stage and it would take time to evolve. Once the market for REITs matures, the institutional investors would be able to get a credible exit avenue to gain from their warehousing investments by listing their warehousing assets through REITs. These initiatives would go a long way in leveraging the true potential of the sector and bring down the overall costs linked to warehousing and logistics as well give credible exit opportunities to investors.

As more and more companies streamline their logistics networks, it would be observed that unorganised players or smaller organized players would consolidate or sell their assets to larger ones. The industry is expected to witness a structural shift over the next 3–5 years. The warehousing aspect in the logistics supply chain globally is going through a transformation. From being a mere storage space provider for goods, the segment is offering an array of value added services such as packaging, small scale manufacturing, cross docking, automation, algorithm based demand forecasting and distribution centres. This transition would only happen if economies of scale come into play and companies are able to consolidate their spaces and move into larger warehouses. The Indian warehousing industry, which was lagging behind its global counterparts due to its fragmented structure, would now enter the same league. Your Company is favourably located, being in the economically most vibrant state of India i.e. Gujarat, to participate in developing/constructing the industrial infrastructure. The MOU with the Kataria Group of Ahmedabad to work jointly for acquiring land and developing industrial and logistics parks, units, sheds, plots, residential colonies, and allied infrastructure at various locations situated near the upcoming automobile hub at Bechraji – about 90 kms from Ahmedabad at Gujarat; offers your Company a strategic advantage. Your Company has already delivered five (5) dormitories, commercial complex, and a couple of sizeable logistic warehouses under this initiative. Your Company is favourably placed to take the advantage of the expected spur in construction/development of new industrial facilities e.g. industrial park, warehouse/logistics Park, etc.

6. Risk, Challenges, and Threats:

As is typical in expanding business activities your Company has become a subject to a variety of risks, challenges, and threats. It is recognised that risks are not only inherent to any business but are also dynamic in nature. Further, the Company is susceptible to certain risks arising out of various activities undertaken in the normal course of business.

There are many constraints affecting the smooth functioning of the industry in which your Company operates. The table below provides a brief overview of the most significant risks and your company's approach to managing them.

Risk	Explanation	Mitigation approach
Pandemic risk	Any epidemic/pandemic can cause interruption/disruption in the execution and business	Your Company categorises Project sites into High, Medium and Low based on perception of such risk and the sites are mandated to be operated with strict adherence to the government/HSE guidelines. Your Company focuses to ensure the health and safety of all employees, labourers, suppliers and channel partners, while initiating stringent measures to control costs and strengthen cash flows.
Health and Safety at projects	Any employee, labour, worker is hurt or killed by an accident at work.	Apart from the QMS, project execution policy/processes, loss prevention programmes, insurance, etc. your Company ensures to initiate development and construction of the Project, only post identifying, defining and addressing all such risk propositions and dynamics. Your Company also ensure to share sufficient knowledge about such risks and imparts adequate training to all the employees, labourers, workers, so as to tackle such risks. Zero accident programs supported by proactive near miss reporting aims at the avoidance of all workplace accidents.
Health and Safety related to your Company's construction	Person or persons are hurt or injured as a result of your Company's construction failure or defect. Stability/sturdiness of the structure is compromised.	Your Company follows strict design and validation rules for all projects, and fully adheres to Principal/client/NBC specific requirements for safety and structural sturdiness. Your Company ensures implementation of detailed instructions of the Project Principal/client, Architect, Structural Engineer, PMC, etc. to ensure the fulfilment of Principal/client's requirements and your Company's quality standards. Your Company's overall approach to quality management assures conformance and performance to the highest level.
Interest rate risk	Your Company's interest costs are impacted by market rates.	Your Company's liquidity and borrowing are managed by professional at Senior management level. The interest rate exposure of your Company is reduced by matching the duration of investments and borrowings.
Credit risk	Your Company's Principal's ability to pay can have an impact on the financial result.	As per your Company's policy only well-established institutions/corporates are approved as counterparties. Exposure per counterparty is continuously monitored.
Liquidity risk	Acceptable liquidity levels are required in order to achieve desired financial results.	In addition to its own liquidity, your Company enjoys credit facilities with the largest Bank of the country as well as other banks/financial institutions of high-standing and good repute.
Competitor risk	Competitors find ways to bid at dramatically lower cost or bid to construct with better functioning/latest technologies.	Your Company aims to be the cost and value leader, meaning striving to innovate and bring new and increased value through the innovation to our customers while at the same time working to assure that your Company's operations are world class in terms of efficiency, cost and waste avoidance. Your Company has developed proprietary knowledge to construct with different technologies, while the management provides highest importance to the Quality perspective to ensure long-term sustainable growth.

Risk	Explanation	Mitigation approach
Economic downturn	Your Company's customers could be impacted by a major economic downturn resulting in lower demand for their respective projects.	Your Company has a highly diversified and well balanced customer base. The risk is therefore spread very widely on customer, regional and industrial sector/segment perspective. Your Company's flexible business model is capable to set operational priorities in the face of changing economic scenario. Your Company uses market data intelligence to follow and anticipate developments – allowing proactive management of changing market conditions.
Execution risk	It depends on various factors e.g. labour availability, raw material prices, receipt of approvals and regulatory clearances, access to utilities, weather conditions, and absence of contingencies such as litigation.	Your Company manages the adversities with cautious approach, meticulous planning and by engaging established and reputed contractors.
Input cost fluctuations	Significant changes in raw material costs can impact the profitability.	Your Company has established a proficient supply chain which assures raw materials are purchased in a highly competitive manner. Raw material cost indexes could also be included in customer agreements.
Supply chain disruption	External factors such as fires, extreme weather events, natural disasters, water stress, war or pandemic illness to mention a few, could result in disruption of supply and impact on revenue and profit.	Your Company has intentionally set up a flexible supply chain and works to avoid dependence on a single source or production location. The supply chain tracks issues e.g. extreme weather events, natural disasters, water stress, war or pandemic illness, etc. as these may impact the supply. In addition your Company focuses on working with suppliers that have adequate insurance for both production and transports.
Material source or type compliance risks	Your Company aims to avoid the use of hazardous substances in its products and processes; your company also strives to avoid negative social impacts within the extended supply chain. Legislations have been and are being introduced in these aspects, failure to meet with direct or customer requirements of these legislations could result in costs as well as loss of business for your Company.	Your Company's majority Principal/client are government bodies and the material used by your Company is subject to stipulations of the client, BIS specifications, laboratory checks, inspection by independent third-party e.g. Project Management Consultant, etc. Hence, environment, health and safety risks have already been considered while deciding such stipulations.
Labour disputes	Industrial disputes lead to industrial action with impacts your Company's ability to meet Principal/client demands.	Your Company maintains an open and positive relationship with all the employees, sub-contractors, workers, etc.; as exemplified by not a single instance of any such dispute so far.

Risk	Explanation	Mitigation approach
Loss of a major project site	Fire, flood or natural disaster could result in the temporary loss of a construction operation, in addition to the reconstruction and remediation costs; this could put time schedule, cost and revenues at risk.	Your Company's Quality Management System is ISO 9001 : 2015 accredited by INTERCERT that include Project Management, Site Development and Construction activities for Infrastructure, Industrial, Residential and Commercial projects. Your Company's construction strategy aims to assure adequate insurance, so that your Company is not financially affected. While, the loss prevention programmes, protect your Company's tangible and intangible assets through active risk management. Your Company is operating on about 19 projects across Gujarat and Rajasthan. Hence, if one project is taken out of action, others could provide support.
Major incident at a project	A major incident during which a significant amount of local environmental damage occurs leading to fines, loss of reputation, etc.	Your Company's Quality Management System is certified to ISO 9001 : 2015 and works to assure that all such material risks are identified and effective counter-measures are implemented in order to mitigate them. This includes actions to mitigate the risk as well as emergency response plans to assure the impacts of any incident are minimised.
Climate change risks – extreme weather events	Extreme weather events disrupt project execution.	Requirements for emergency response plans at all sites include flood risks etc. See also mitigations mentioned hereinabove.
Corrupt or fraudulent actions carried out by your Company's representatives	Your Company's employee or employees fail to adhere to your Company's Code of Conduct and related policies and requirements and act in a fraudulent or corrupt manner leading to financial penalties and reputation damage.	Your Company takes a proactive approach to assure awareness of demanded ethical standards by education, compliance programmes including anti-corruption, antifraud and antitrust. The work to follow up adherence is facilitated by the whistle blower function and a risk-and incident based audit system.
Non-compliance with applicable laws	The diverse nature of your Company's business and operations means that your Company is required to adhere to numerous laws and regulations related to all aspects of its activities. Failure to meet these requirements could lead to legal and financial consequences as well as damage to your Company's reputation.	Your Company has put in place comprehensive and robust compliance programme which is based on your Company's Code of Conduct. The compliance programme is put in place to ensure that applicable laws and regulations are identified, understood and adhered to.

Risk	Explanation	Mitigation approach
Legal risks relating to our business activities	In connection with the revenue of your Company and in the purchase of materials and services from our suppliers, consultants, etc. large potential liabilities may occur in case of e.g. late delivery, delivery of defective products, unfulfilled service commitments and incorrect advice. Therefore, it is important that all such risks are identified, that risk decisions are taken on the appropriate level and that carefully worded contractual provisions aiming at reducing your Company's liabilities are included in contracts.	Your Company has put in place policies, procedures and training programs in order to make sure that legal risk relating to our business activities are identified and that risk decisions are taken on the appropriate level. In addition, independent professional legal counsels support your Company in identifying and handling legal risks. The legal counsels work closely with the Senior management and provide contract drafting and negotiation support, claim and litigation management, support, training and general advice.

Your Company is operating in a business which is cyclic in nature. Timely supply of raw material like cement, steel, bricks are essential for timely completion of the projects. Shortage of labour and raw material may delay the execution of projects of your Company. The infrastructure projects are capital intensive in nature. Your Company's business requires long-term commitment of capital to meet the financial requirement of long-term projects. Further, timely availability of skilled and technical personnel is also one of the key challenges. Infrastructure projects are mainly dependent on the economic scenarios and any adverse events affecting the whole economy may deteriorate the industry as well. Any significant change in government policy in promoting Affordable Housing and/or Civic Urban Infrastructure could pose a threat. Further, the approval process and time for projects are generally uncertain which may delay the execution and thereby affect financials.

Your Company has in place an effective risk management mechanism to identify potential risk and its timely mitigation.

Please refer the COVID-19 section, part of this Report, for detailed comments on the affects, response, and future-readiness of your Company.

7. Corporate Governance:

Your Company's Corporate Governance philosophy is based on the total transparency, integrity, fairness, equity, accountability and commitments to the values. Your Company is committed to the best governance practices that create long term sustainable shareholder value. With the object of your Company to conduct its business in a highly professional manner and thereby enhance trust and confidence of all its stakeholders, your Company has devised a complete compliance of Corporate Governance norms. Your Company firmly believes that definite Corporate Governance leads to the optimal utilization of resources and enhances the value of the enterprise and an ethical behavior of the enterprise leads to honoring and protecting the rights of all the stakeholders. Sound Corporate Governance practices and ethical business conduct always remain at the core of your Company's value system.

The Annual Return for the FY2021 is available at the website of your Company at www.nilainfra.com under the investor segment. A separate report on Corporate Governance is provided together with a Certificate from the Practicing Company Secretary of your Company regarding compliance of conditions of Corporate Governance as stipulated under Listing Regulations. A Certificate of the CEO and CFO of your Company in terms of Listing Regulations, inter alia, confirming the correctness of the financial statements and cash flow statements, adequacy of the internal control measures and reporting of matters to the Audit Committee is part of this Annual Report.

8. Work Culture and Human Resources:

The management believes in team work and a corporate environment which is self-motivating. Your Company has successfully developed a work force of people over a period of time i.e. 43 Nos. at 31 March 2021. The top management is acting as the governing force in creating and maintaining the corporate work culture. The businesses that your Company engages in are primarily people-driven. Our Vision is to raise our own benchmarks with every successive endeavour and it is possible only by making every employee a fully engaged and aligned team member. Your Company continues to remain focused on reinforcing the key thrust areas i.e. being the employer of choice, building an inclusive culture, building a strong talent pipeline, building capabilities in the organization and continuing to focus on progressive employee relations policies. Accordingly, our HR policies are centered around the creation of an environment that attracts, nurtures and rewards high-caliber talent. Young engineers gain the opportunity to operate on the frontlines of technology and associate with projects of scale and complexity. We drive sustainable growth and have been instrumental in bringing in thought leadership in building strong employee relations. There is no material development in HR. Your Company continued to build on the Diversity and Inclusion agenda through building leadership capability and recognizing line managers who provide a simple, flexible and respectful work environment for their teams. Your Company is developing future leaders and having the best people practices. A structured leadership development initiative has helped to build a robust talent pipeline at all levels. Our HR organisation is well-geared towards attraction and retention of qualified/potent talent in an ecosystem that provides long-cycle professional development opportunities in various facets of civil urban infrastructure and caters to career building aspirations of talent at all levels.

9. Internal Control System:

The Corporate Governance Policy guides the conduct of affairs of your Company and clearly delineates the roles, responsibilities and authorities at each level of its three-tiered governance structure and key functionaries involved in governance. The Code of Conduct commits management to financial and accounting policies, systems and processes. The Corporate Governance Policy and the Code of Conduct stand widely communicated across your Company at all times, and, together with the 'Strategy of Organisation', Planning & Review Processes and the Risk Management Framework provide the foundation for Internal Financial Controls with reference to your Company's Financial Statements. Such Financial Statements are prepared on the basis of the Significant Accounting Policies that are carefully selected by management and approved by the Audit Committee and the Board. These Policies are supported by the Corporate Accounting and Systems Policies that apply to the entity as a whole to implement the tenets of Corporate Governance and the Significant Accounting Policies uniformly across your Company. The Accounting Policies are reviewed and updated from time to time. These, in turn are supported by a set of divisional policies and SOPs that have been established for individual businesses. Your Company uses ERP System as a business enabler and also to maintain its Books of Account. The SOPs in tandem with transactional controls built into the ERP Systems ensure appropriate segregation of duties, tiered approval mechanisms and maintenance of supporting records. The Information Management Policy reinforces the control environment. The systems, SOPs and controls are reviewed by divisional management and audited by Internal Audit whose findings and recommendations are reviewed by the Audit Committee and tracked through to implementation. Your Company has in place adequate internal financial controls with reference to the Financial Statements. Such controls have been tested during the year and no reportable material weakness in the design or operation was observed. Nonetheless your Company recognises that any internal financial control framework, no matter how well designed, has inherent limitations and accordingly, regular audit and review processes ensure that such systems are reinforced on an ongoing basis. Your Company has also put in place comprehensive systems and procedural guidelines concerning other areas of business, too, like budgeting, execution, material management, quality, safety, procurement, asset management, human resources etc., which are adequate and necessary considering the size and level of operations of your Company. The management has been making constant efforts to review and upgrade existing systems and processes to gear up and meet the changing needs of the business.

10. Business Overview:

A. Infrastructure

During FY2021, your Company has completed and/or handed-over certain projects – the details are furnished below.

AH-PPP Projects	
Kailashnagar, Sabarmati ¹	The Project envisaged rehabilitation of about 80 slum-dwelling families living at Kailashnagar, Sabarmati, Ahmedabad. The slum redevelopment is since completed. However, the units were revised to 196 with revision in the development cost and the TDRs.
Chhanaji Na Chappra, Khodiyarnagar, Asarva ¹	The Project envisaged rehabilitation of about 307 slum-dwelling families living at Chhanaji Na Chappra and Khodiyarnagar, Asarva Slum. The slum redevelopment is since completed alongwith nine (9) shops.
Anant Sky – Nila Spaces Ltd	The real-estate infrastructure project of affordable housing envisaged construction of total 460 flats (264 = 1BHK + 196 = 2BHK) and 10 shops alongwith internal development of the project site with all the contemporary amenities on turnkey basis at Ranip, Ahmedabad. The project is since completed.

¹ The contract was awarded by AMC for the Integrated Slum In-situ Development for P.P.P. Project at Ahmedabad under Urban Development & Urban Housing Department, Government of Gujarat's Slum Rehabilitation and Redevelopment Policy-2013. As remuneration, the Company gets the balance vacant land and/or the TDRs to be used within the development plan of the Ahmedabad City. These offer financial and operational flexibility as has a long-term validity for monetization by selling it to other real-estate developer/s, depending on the market trends.

Currently, your Company is executing various projects on PPP, EPC/LSTK basis as detailed further.

AH-PPP Projects	
Harivan na Chhapra, Sabarmati ¹	The Project envisages rehabilitation of about 687 slum-dwelling families living and 36 shops at Harivan na Chhapra, Sabarmati. The slum redevelopment is to be completed in 24 months. The project is to commence soon.
Sonaria Block, Rakhiyal-Asarwa, AMC ²	AMC has awarded an order that envisages overall construction of 760 Dwelling Units (DU) and 18 shops. The Company has also agreed to develop 80 DU towards creation of additional AH stock as premium to AMC.
Khokhara Old Slum Quarters, AMC ²	AMC has awarded an order that envisages overall construction of 448 Dwelling Units (DU) and 14 shops.
India Colony, Vijay Mill Municipal Health Quarters, AMC ¹	AMC has awarded an order that envisages overall construction of 348 Dwelling Units (DU).
Rabari na Chhapra, Gulbai-Tekra ¹	The Project envisages rehabilitation of about 89 slum-dwelling families living at Rabari na Chhapra, Gulbai-Tekra. The slum redevelopment is to be completed in 18 months. The project is to commence soon.
Bank of Baroda Society na Chhapra, Paldi ¹	The Project envisages rehabilitation of about 91 slum-dwelling families living at Bank of Baroda Society na Chhapra, Paldi. The slum redevelopment is to be completed in 18 months. The project is to commence soon.
Labalavi ni Chali, Behrampura ¹	The Project envisages rehabilitation of about 105 slum-dwelling families living at Labalavi ni Chali, Behrampura. The slum redevelopment is to be completed in 18 months. The project is to commence soon.

2 The contract is awarded by AMC on PPP Basis under “Redevelopment of Public Housing Scheme – 2016” of Urban Development & Urban Housing Department, Government of Gujarat for development of Integrated Group Housing Facility alongwith common amenities, infrastructure & development works of the entire site, and SITC of Roof Top Solar PV System covering atleast 50% of roof-area . The redevelopment is to be completed in 24 months. The project shall commence soon.

AH-EPC Projects	
Radha Raman Ni Chali - Vyapti	Vyapti Infrabuild Pvt Ltd has awarded a Turnkey contract for slum redevelopment project, at Radha Raman Ni Chali, Bapunagar, Ahmedabad involving about 1,80,000 sq. ft. built-up area for 552 slum –dwelling families. The execution is going on.
F.P. No. 241 EWS (Cat.-II) at Bopal - AUDA	The Project envisages construction of 77 units and SITC of 22 KW Rooftop Solar with completion time of 18 months. The contract is awarded by AUDA for EWS units with ~402 sq. ft. super built-up area each alongwith common amenities, infrastructure & development works of the entire site, 11 kv electrification, and Supply, Installation, Testing and Commissioning (SITC) of Roof Top Solar PV System. The execution is going on.
Urban Improvement Trust (UIT) - Udaipur	Urban Improvement Trust, Udaipur has awarded four (4) contracts for the construction of affordable housing flats on turnkey basis under the Chief Minister’s Jan Awas Yojana – 2015 corresponding to the Memorandum of Understanding under the latest “Resurgent Rajasthan Partnership Summit - 2015”. The large scale affordable housing schemes for EWS (325-350 sq. ft.) and LIG (500-550 sq. ft.) categories envisage overall construction of approx. 400,000 sq. ft. super built-up area on the Government lands at Sector A, South Extension Scheme, Udaipur. The Project will be constructed on 75% of the land area and remaining 25% will be allotted to your Company, free of cost to subsidize the ceiling rate. The execution is going on.
Urban Improvement Trust (UIT) - Bhilwara	Urban Improvement Trust, Bhilwara has awarded a contract for the construction of affordable housing flats on turnkey basis under the Chief Minister’s Jan Awas Yojana – 2015 corresponding to the Memorandum of Understanding under the latest “Resurgent Rajasthan Partnership Summit - 2015”. The large scale affordable housing schemes for EWS (325-350 sq. ft.) and LIG (500-550 sq. ft.) categories envisage overall construction of approx. 300,000 sq. ft. super built-up area on the Government land at Harni Khurd village, Bhilwara. The Project will be constructed on 75% of the land area and remaining 25% will be allotted to your Company, free of cost to subsidize the ceiling rate. The execution is going on.
Jodhpur Development Authority - Jodhpur	JoDA has since revised the contract for construction of EWS and LIG Houses with G+3 pattern and internal Development as per Model No. 4A (i) of Chief Minister Jan Awas Yojana 2015 at Khasra No. 88, Village Barli, District Jodhpur. The township / complex / campus will comprise total 1,216 residential units i.e. total ~470,000 sft will be constructed by NILA. Work will be completed in stipulated time. Your Company will also get the balance vacant land of 3.37 acres towards part-remuneration, once the project reaches 50% completion.
Kheda Jaganathpura – Jaipur Development Authority	JDA has awarded a contract for the construction of affordable housing EWS flats on turnkey basis as per Model No. 4A (i) of Chief Minister’s Jan Awas Yojana 2015 at Kheda Jaganathpura, Jaipur – to be completed within 30 months. The campus will comprise total 384 residential units i.e. total ~172,422 sft.

The campus will comprise total 236 residential units i.e. total ~107,542 sft.

AH-EPC Projects	
Anand Vihar Plot 5 & 6 – Jaipur Development Authority	JDA has awarded a contract for the construction of affordable housing EWS flats on turnkey basis as per Model No. 4A (i) of Chief Minister's Jan Awas Yojana 2015 at Anand Vihar Plot No. 5 & 6, Jaipur – to be completed within 30 months. The campus will comprise total 316 residential units i.e. total ~ 140,325 sft.
Surya Nagar Plot A2 to A6 – Jaipur Development Authority	JDA has awarded a contract for the construction of affordable housing EWS flats on turnkey basis as per Model No. 4A (i) of Chief Minister's Jan Awas Yojana 2015 at Surya Nagar Plot No. A2 to A6, Jaipur – to be completed within 30 months. The campus will comprise total 256 residential units i.e. total ~ 114,948 sft.

CUI Projects-EPC	
GSRTC Bus Ports at Amreli and Modasa	To improve the urban transport infrastructure, GSRTC has awarded a contract to develop and operate state-of-the-art BTF with an iconic structure and design as well as modern facilities that integrate CF on DBFOT Basis. The BTF construction work envisages development of the latest infrastructure including bus bays, administrative area, operating area, works/repairs area, passenger amenities, etc. The SPV of your Company will have to maintain certain basic BTF facility for 30 years, while the core operating and depot facility will be maintained by GSRTC. In consideration, your Company will get the right to develop, design, finance, construct, operate and maintain the CF (shops, offices, restaurants, hospitals, multiplex, parking lots, etc.) to be leased upto period of 90 (ninety) years. At Amreli, out of the total area of 17,095 square meters, the BTF facility will be constructed in 7,719 square meter built-up area incorporating 12 (twelve) boarding/alighting bays and six (6) idle bays. In consideration the SPV will get right to monetise CF of about 12,800 square meters. While, at Modasa, out of the total area of 30,212 square meters, the BTF facility will be constructed in 6,279 square meter incorporating 11 (eleven) boarding/alighting bays and seven (7) idle bays. In consideration the SPV will get right to monetise CF of about 39,000 square meters. While the Amreli BTF facility is awarded individually to your Company, the Modasa BTF is awarded in Consortium with Vyapti Infrabuild Pvt Ltd (wherein your Company's share is 34%). The execution is going on.

Summary of movement in your Company's order book for last seven (7) years is furnished below:

(₹ in lakhs)

Particulars	FY2015	FY2016	FY2017	FY2018	FY2019	FY2020	FY2021
Opening Order book	9,537	20,955	20,259	40,761	51,784	64,747	53,451
Add: Work started on new orders	19,486	15,050	39,758	35,053	40,276	27,061	18,601

Confirmed unexecuted Order book	20,955	20,259	40,761	51,784	64,747	^53,451	^55,584

* To be executed by the SPV | # Including value of proportionate land | @ Tender value reduction post allocation and/or orders terminated by your Company

^ In order to reflect the realistic unexecuted value of the specific work-order, as an optimal prudence, your Company has since decided to declare the practically executable order-book - duly derived by considering the intricate dynamics of the respective work-orders. This shall ensure the absolute reconciliation of execution vis-à-vis Revenue with the books of accounts.

(₹ in lakhs)

The composition of the existing order-book of your Company is quite balanced. The summary of the existing unexecuted order-book is furnished further.

(₹ in lakhs)

Activity	Gujarat			Rajasthan			Total (A+B)	%
	GoG	PWL/ Misc.	Total (A)	GoR	PWL/ Misc.	Total (B)		
Affordable Housing	37,359	174	37,533	10,957	-	10,957	48,490	87%
EPC	95	174	269	10,957	-	10,957	11,226	20%
PPP	37,264	-	37,264	-	-	-	37,264	67%
Civic Urban Infra (EPC)	-	7,094	7,094	-	-	-	7,094	13%
Total	37,359	7,268	44,627	10,957	-	10,957	55,584	
%	67%	13%	80%	20%	0%	20%	100%	

Geographically the state of Gujarat accounts for 80% orders (₹ 44,627 lakh), and Principalwise government entities account for 87% (₹ 48,316 lakh). AMC and GoR are the largest government clients. The other orders mainly include orders from your Company's associate/JV/subsidiary/related parties.

Your Company continues to focus on its core competence of "Affordable Housing" with 87% orders (₹ 48,490 lakh) i.e. about 8,778 units, while PPP is the major tributary with 67% orders (₹ 37,264 lakh). Detailed information on the order book is given in the subsequent part to this report.

B. Leasing

Your Company holds 88,000 sq ft of commercial properties at the prime location in Ahmedabad, which your Company leases to earn rental income.

C. Share of Profit

Your Company has made certain strategic investments in JV/associates/subsidiaries and earns its share of profit, which is detailed further.

Financial Discussion and Analysis

The outbreak of COVID-19 pandemic has impacted the economy and the market sentiment significantly. Being a constituent of the economy it has hit your Company, too. During H1-FY2021, the Company could not generate any meaningful revenues due to the lockdown as well as reverse-migration of labourers and heavy-monsoon. Certain projects that were slated for commencement of execution were either called-off and/or were under review by the relevant client (Government Authority), as the prime focus of the government was to abate the further spread of COVID-19 pandemic. While certain other projects, were delayed for want of requisite government approval/sanction. Your Company could not add-up the revenue of such projects during the period under review. This impacted the profitability right from EBITDA level as whilst the income ceased, certain operational expense were being incurred on selected projects alongwith the overheads. Nonetheless, due to the underlying rationale, financial performance of FY2021 is incomparable and cannot be relied for a meaningful and reasonable assessment. In isolation, it is misleading and does not reflect the right intrinsic strengths of your Company.

Your Company has always demonstrated RESILIENCE and thence ensured the sustainability to capture the up-side that is in-store of the future. The considerable improvement in business profile of your Company has continued primarily due to focusing the available resources only on developing civic urban infrastructure business. Your Company has since been able to broad-base its offerings as well as expanded scale of operations in civic urban infrastructure activities. The summarized analysis of financial statements viz. Profit and Loss Account, Balance Sheet and Cash Flow are furnished further.

Total Revenue

(₹ in lakhs | % change)

Particulars	For FY2021	For FY2020	YoY change	% change
Revenue from Operations on: (Refer Note 23)	10,071	19,003	-8,932	-47%
• EPC basis	8,372	15,706	-7,334	-47%
• PPP basis	1,699	3,297	-1,598	-48%
Projects without construction: (Refer Note 23)	-	6,064	-6,064	-100%
Rental income	130	77	53	69%
Share of Profit/(Loss) from LLP	-94	-46	48	-104%
Other Operating Income	5	0	5	100%
Total Operating Income (TOI) (A)	10,112	25,099	-14,987	-60%
Other income (B) (Refer Note 24)	999	1,234	-235	-19%
Total Revenue (A + B)	11,111	26,333	-15,222	-58%

The revenue of your Company comprises income from construction and development of Civic Urban Infrastructure projects in the distinct modes as mentioned hereinabove as well as certain income from rental, and share of profit from LLPs; while Other Income mainly comprises interest earned on investments such as term deposits with banks, and on loans given.

The overall revenue from operations during FY2021 reduced by ₹ 8,932 lakh (47%) as compared to the FY2020 mainly as your Company is engaged in construction of Civic Urban Infrastructure that the government had ordered for lockdown, right from the first phase (i.e. 25 March 2020), to contain the spread of COVID-19 pandemic. Consequently, operations of your Company were ceased during H1-FY2021, while it faced certain constraints in availability of: (i) labourers and (ii) clear-working-days due to heavy monsoon during Q2-FY2021. Your Company attained recovery in operations to a reasonable extent from H2-FY2021, however these have affected the financials of your Company during FY2021.

The revenue from EPC basis projects has since increased by 20% during FY2021 as compared to FY2020, while the revenue from PPP basis projects has since increased by 3% during FY2021 as compared to FY2020. Unlike FY2020, during FY2021 your Company has not earned any revenue from projects without construction.

Geographywise, the revenue contribution from both Gujarat and Rajasthan has remained marginally similar with 2% tolerance on either side. During FY2021, revenue from certain better-margin CUI projects has reduced by ₹ 6,351 lakh (71%) as compared to FY2020 mainly as certain major CUI orders were already in finishing/handing-over phase at the end of FY2020.

The total income for FY2021 is ₹ 11,111 lakh as against ₹ 26,333 lakh in the previous year registering a decrease of 58%. The detailed breakup of Infrastructure revenue for FY2021 is furnished in the following table:

(₹ in lakhs)

Activity	Gujarat			Rajasthan			Total (A+B)	%
	GoG	PWL/ Misc.	Total (A)	GoR	PWL/ Misc.	Total (B)		
Affordable Housing	2,074	3,179	5,254	2,214	-	2,214	7,468	74%
• EPC	375	3,179	3,554	2,214	-	2,214	5,768	57%

Total	4,111	10,945	15,056	1,923	2,025	3,948	19,003	
%	22%	57%	79%	10%	11%	21%	100%	

Each element of total revenue is discussed further.

Infrastructure Projects

Your Company undertakes construction and development of Civic Urban Infrastructure projects for government/semi-government agencies/departments as well as private entities of repute. Construction and development of Infrastructure project is carried-out pursuant to work order issued by/Agreement entered into with the client. Revenue of your Company from construction and development of Infrastructure project is driven by the success in selecting the right order (nature as well as size), executing it proficiently and building sufficient order-book.

On 1 April 2020, your Company had an unexecuted order-book of construction and development of Infrastructure projects worth ₹ 53,451 lakh. During FY2021, your Company participated in tenders amounting to ₹ 30,740 lakh, while secured work-orders amounting to ₹ 18,601 lakh.

Your Company could generate limited revenues during FY2021 mainly as H1-FY2021 was lackluster while the Second-wave broke in Q4-FY2021. Meanwhile, certain running projects had attained completion-stage, while the fresh orders were in planning phase and hence, could not contribute much to the revenue.

The market dynamics are since in favour of the organized players like your Company. The outlook of government spending in civic urban infrastructure is absolutely positive in short, medium and long-term. Be it PM's "Housing for All Mission" or "Smart Cities" – the scales here are very promising and additionally the Fiscal and Monetary eco-systems are also galvanized. Moreso, the COVID-19 pandemic has since established the conclusive importance of staying in home, maintaining distance from others as the prime remedy. Observing health, safety, and hygiene guidelines at home are the supreme fortification from getting infected and to abate the spread. The new PPP Policy for AH with central

assistance may open door for additional revenue stream for your Company. While, extension of CLSS benefits for one (1) more year, invocation of Force Majeure that provides additional timelines to complete the projects, shall provide the needed relief in execution of extant projects by certain extent.

Your Company is absolutely convinced about the Affordable Housing sector, moreso, as प्रधान मंत्री आवास योजना – “Housing for All” with thrust from the PMO (e.g. Affordable Housing since officially classified as “Infrastructure”). Currently your Company is executing about 8,700+ units under EWS, LIG and MIG categories (Affordable Houses). Your Company is very favorably placed to seize the endless possibilities in the area of its core competence as the government’s focus is on creating more affordable houses. Your Company has since secured meaningful orders in the state of Gujarat and Rajasthan under the schemes of Affordable Housing and envisages that, on back of enhanced pre-qualifications/bidding capacities, it will grow in natural/normal course of business. Considering the funding dynamics, it well fits into your Company’s strategy of executing civic urban infrastructure projects where the cash flows are expected to be steady. Your Company is also executing certain unique Slum Rehabilitation and Redevelopment Projects in Ahmedabad as well as GSRTC Bus Port projects for Amerli and Modasa.

So far as the “Smart Cities” are concerned, your Company is in sweet-spot and very favorably placed to partake in the opportunities as it is already active in all the important facets of “Smart City” concept that is in Social Infrastructure, your Company is qualified to construct infrastructure for education, healthcare, entertainment, sports, children’s parks and gardens, Slum rehabilitation, etc. In Physical Infrastructure, your Company has already executed urban utility projects like BRTS Bus Stations, Multilevel Parking, the housing stock, sanitation facilities, etc. For Economic Infrastructure, your Company has requisite experience and expertise to undertake construction of office complex, industrial parks, logistic parks, community hall, etc.

Rental

Your Company owns prime commercial office space of 88,000 sq ft in an upmarket locality of Ahmedabad. In order to generate regular sustainable income, your Company has leased certain prime commercial office space to reputed corporates on long-term basis. Income from rental for FY2021 is ₹ 130 lakh that is 69% (₹ 53 lakh) higher as compared to FY2020 as certain more office space has since been let during FY2021. Meanwhile, your Company is looking-out for the new lessee with good credentials and is confident to find lessee/s in due-course for the remaining space.

Share of Profit/(Loss) from LLP

During FY2021, your Company has booked share of its loss from a JV i.e. Kent Residential and Industrial Park LLP of ₹ 94 lakh, which is higher by ₹ 48 lakh from ₹ 46 lakh loss during FY2020. Meanwhile, it may be noted that COVID-19 pandemic induced disorder affected the operations in subsidiary, associate and JV entities during FY2021. It would gradually regain the scale.

Other Income

Other income mainly comprises interest income from bank deposits and others, liabilities written back, and miscellaneous income. Other income in FY2021 is ₹ 999 lakh that is 19% (₹ 235 lakh) lower as compared to FY2020’s ₹ 1,234 lakh. The break-up of other income is furnished further.

(₹ in lakhs)

Particulars	For FY2021	For FY2020	YoY change	% change
Interest income: (Refer Note 24)	875	1,011	-136	-13%
• From loan	827	947	-120	-13%
• On Bank Deposits	48	64	-16	-25%
Liabilities no longer required to be paid written back	87	202	-115	-57%
Bad debt recovered	35	-	35	100%
Other non-operating income	2	21	-19	-90%
Total Other Income	999	1,234	-235	-19%

The reduction in interest income from other parties to the extent of ₹ 120 lakh is from the advances extended mainly to JVs and subsidiary companies. It may be mentioned that such advances are given in the routine course of business and it carry interest not lesser than the weighted average cost of your Company's funds. Interest income from bank deposits for FY2021 has reduced by ₹ 16 lakh owing to falling-interest rate scenario as well as your Company has dynamically utilized its bank-guarantee limits from the banks that stipulate lower cash-margin. Overall interest income during FY2021 has reduced by 13% i.e. by ₹ 136 lakh as compared to FY2020. During FY2021, your Company has recovered ₹ 35 lakh from certain bad debt that were already written-off.

Expenses

Total expenses in FY2021 is ₹ 10,994 lakh as compared to ₹ 24,096 lakh in FY2020 i.e. reduction of 54% (₹ 13,102 lakh), which is lower in comparison of 58% (₹ 15,222 lakh) reduction of total revenue. The breakup of the said expenses is furnished further.

(₹ in lakhs)

Particulars	For FY2021	For FY2020	YoY change	% change
Cost of material consumed and project expenses (Refer Note 25) and Changes in inventories (Refer Note 26)	8,611	20,943	-12,332	-59%
Employee benefit expenses (Refer Note 27)	319	505	-186	-37%
Finance costs (Refer Note 28)	1,609	1,690	-81	-5%
Depreciation and amortization expense (Refer Note 4, 5 & 6)	178	175	3	2%
CSR Expense (Refer Note 29A)	58	62	-4	-6%
Other Expenses (Refer Note 29)	220	721	- 501	-69%
Total Expenses	10,994	24,096	-13,102	-54%

Cost of material consumed and project expenses (Refer Note 25) and Changes in inventories (Refer Note 26)

The expenditure incurred on projects for FY2021 has reduced to ₹ 8,730 lakh, almost in line with the revenue from operations, by 49% over the previous year's expenditure of ₹ 17,010 lakh. However, the proportion of reduction in revenue is lower at 47%, while it is higher at 49% for cost of material consumed and project expenses. The prime contributors to the net reduction of ₹ 8,280 lakh are labour and raw-material costs on the back of COVID-19 pandemic induced disorder.

The expenditure incurred on consumption of material for FY2020 is ₹ 1,631 lakh, which is reduction by 70% over the previous year's expenditure of ₹ 5,417 lakh; while Civil, Electrical, Contracting, Labour work, etc. cost for FY2021 is ₹ 5,491 lakh, which is reduction by 46% (₹ 4,600 lakh) over the previous year's expenditure of ₹ 10,091 lakh. Legal and professional expense for FY2021 is ₹ 54 lakh, which is reduction by 49% over the previous year's expenditure of ₹ 106 lakh. However, savings from such reduced costs were curtailed by increment of 126% over the previous year's expenditure in certain other direct expense by ₹ 826 lakh i.e. from is ₹ 652 lakh for FY2020 to ₹ 1,473 lakh for FY2021.

The inventories (RM+WIP) have reduced collectively, at lower proportion to TOI, by 39% (₹ 679 lakh) i.e. ₹ 1,045 lakh during FY2021 from ₹ 1,724 lakh during FY2020. This is owing to restrained execution as detailed hereinabove. There has been marginal increment in land-bank by 3% i.e. ₹ 1,796 lakh during FY2020 to ₹ 1,846 lakh during FY2021 resulting in reduction of the overall inventory by ₹ 4,053 lakh.

Both these have collectively reduced the costs for FY2021 by ₹ 12,332 lakh i.e. by 59% over the previous year's expenditure.

Employee benefits expenses (Refer Note 27)

Employee benefits expenses include salaries, allowances, bonus, Contribution to provident and other funds, Remuneration and perquisites to Directors, and Staff welfare expenses.

Total No. of employees at 31 March 2021 is 43, which is net reduction as compared to 55 employees at 31 March 2020. This expense has reduced by 37% (₹ 186 lakh) i.e. from ₹ 505 lakh in FY2020 to ₹ 319 lakh in FY2021. There is no variable component of remuneration availed by the Directors except fixed pay of monthly salary and sitting fees as applicable, which is in conformity of the Remuneration Policy of your Company.

Finance costs (Refer Note 28)

Your Company does not inventorise any finance cost. The finance costs for FY2021 is ₹ 1,609 lakh in comparison to ₹ 1,690 lakh during FY2020. Interest on borrowings has reduced by ₹ 81 lakh over previous financial year as your Company successfully re-negotiated the RoI with the lenders for existing as well as fresh debt and has lowered the finance cost. The weighted average cost of borrowing has reduced.

The 'Other borrowing cost' has reduced by 26% from ₹ 113 lakh in FY2020 to ₹ 83 lakh in FY2021, as during FY2021 your Company has paid lower upfront/one-time processing fees by ₹ 31 lakh (44% reduction) towards sanction of new credit facilities, while marginally higher payment of bank charges by ₹ 1 lakh (3% increment) - as compared to FY2020.

Depreciation and amortisation expense (Refer Note 4, 5 & 6)

The depreciation and amortisation expense charged to the profit and loss account during FY2021 is ₹ 178 lakh as compared to ₹ 175 lakh in FY2020 i.e. an increment of 2%. During FY2021, your Company sold certain worn-out Plant & Machinery, office equipment, vehicles aggregating ₹ 33 lakh; while there has been a net addition of office equipment/computers by ₹ 1 lakh. The combined net-block of PPE and Investment properties has increased by ₹ 758 lakh at 31 March 2021 as compared to 31 March 2020 mainly on back of fresh purchase of a building of ₹ 942 lakh during FY2021.

CSR Expense (Refer Note 29A)

As an ideal corporate citizen, your Company has undertaken activities for promotion of preventive and corrective/remedial healthcare, organizing medical camps towards COVID-19 pandemic; distribution of grocery kits/food parcels to poor during lockdown, etc. An aggregate amount of ₹ 58 lakh is spent on such CSR activities during the year, well satisfying the statutory stipulations.

Other expenses (excluding CSR Expense) (Refer Note 29)

Other expenses majorly comprise Legal and professional charges, Power and fuel expenses, Repairs and Maintenance expenses, Travelling and conveyance, Insurance, Rent, Printing and Stationery, Audit fees. Collectively other expenses (excluding CSR Expense) have reduced by ₹ 500 lakh i.e. ₹ 720 lakh in FY2020 to ₹ 220 lakh in FY2021 mainly owing to lesser Provision for loss allowance on trade receivables by ₹ 180 lakh, bad-debts written off by ₹ 127 lakh, TDR cancellation expense by ₹ 126 lakh, Power and fuel expenses by ₹ 25 lakh, Travelling and conveyance by ₹ 16 lakh, Legal and professional charges by ₹ 14 lakh.

Profitability

(₹ in lakhs)

Particulars	For FY2021	For FY2020	YoY change	% change
Revenue from Operations	10,112	25,099	-14,987	-60%
Less: Operational Expenses	9,207	22,231	-13,024	-59%
EBITDA	905	2,868	-1,963	-68%
EBITDA % to Revenue from operation	9%	11%		
Add: Other Income	999	1,234	-235	-19%
Less: Finance Costs	1,609	1,690	-81	-5%
Less: Depreciation and amortisation expenses	178	175	3	2%
Profit Before Tax (PBT)	117	2,237	-2,120	-95%

(₹ in lakhs)

Particulars	For FY2021	For FY2020	YoY change	% change
PBT % to Total Revenue	1%	8%		
Tax Expenses	68	474	-406	-86%
Profit After Tax	49	1,763	-1,714	-97%
PAT % to Total Income	0.44%	6.69%		

Total expenses in FY2021 is ₹ 10,994 lakh as compared to ₹ 24,096 lakh in FY2020 i.e. decrease of 54% (₹ 13,102 lakh), which is lower in comparison of 58% (₹ 15,221 lakh) de-growth of revenue. The project/operations cost and other costs have increased with a few projects being in preliminary stage, the employee cost has reduced due to reduction in overall employee base. The EBIDTA has reduced from ₹ 2,868 lakh i.e. 11% of revenue from operations for FY2020 to ₹ 905 lakh i.e. 9% for FY2021 mainly due to reduction in operational efficiency on back of change in revenue-mix i.e. higher contribution from low-margin EPC projects. During FY2021, though your Company implemented certain cost-cutting measures which provided cushion at PBT level, however PBT reduced by ₹ 2,120 lakh mainly due to restricted revenue. Your Company provides for current tax and deferred tax based on the computation in accordance with provisions of Income Tax Act, 1961. The net tax payable for FY2021 is ₹ 68 lakh that is reduction by 86% (₹ 406 lakh) over FY2020's ₹ 474 lakh, mainly owing to reduction in PBT/taxable income. PAT for FY2021 is ₹ 49 lakh (0.44% of Total Income), as against ₹ 1,763 lakh (7% of Total Income) for FY2020.

The Board of Directors of your Company has thought it prudent to not propose declaration of any dividend and plough-back the entire profit instead as retained earnings to ably support growth of your Company.

Non-current Assets

The non-current assets at 31 March 2021 and 31 March 2020 with detail of changes therein during the financial year are as follows:

(₹ in lakhs)

Particulars	At 31 March 2021	At 31 March 2020	YoY change	% change

b. Investment properties (Refer Note 5)	3,262	2,383	879	37%
c. Intangible assets (Refer Note 6)	1	1	-	-%
d. Financial assets:				
i. Investments (Refer Note 7)	1,794	1,544	250	16%
ii. Loans (Refer Note 8)	8,976	7,967	1,009	13%
iii. Other financial assets (Refer Note 9)	209	470	-261	-56%
e. Other tax assets net (Refer Note 11)	129	85	44	52%
f. Other non-current non-financial assets (Refer Note 10)	392	-	392	100%
Total	15,322	13,130	2,192	17%

During FY2020, your Company purchased net new PPE amounting ₹ 1 lakh - mainly equipment to support the operations, while it sold certain worn-out Plant & Machinery, office equipment, and vehicles aggregating ₹ 33 lakh i.e. post depreciation the reduced balance is ₹ 559 lakh at 31 March 2021. Your Company purchased a building amounting to ₹ 942 lakh as an Investment Property, while post depreciation the reduced balance is ₹ 3,262 lakh at 31 March 2021.

The primary reason of net increment in Investment during FY2021 is to provide further support to JV/associate viz. Vyapnita Terminals (Modasa) Pvt Ltd with incremental ₹ 274 lakh as well as loss from JV LLP firm i.e. Kent Residential and Industrial Park LLP ₹ 94 lakh. Your Company has also extended further loans to its subsidiary/associate/JV entities.

These entities are established to address specific business opportunities. Such investments as well as loans/advances are extended in normal course of business in order to pursue the specific objective for which it is formed. Loans and Advances to related parties at 31 March 2021 are ₹ 7,801 lakh as against ₹ 7,495 lakh at 31 March 2020 mainly additional ₹ 912 lakh to Romanovia Industrial Park Pvt Ltd and additional ₹ 684 lakh to Nila Terminals (Amreli) Pvt Ltd – a WOS.

Security Deposit has reduced by net ₹ 54 lakh to ₹ 1,175 lakh at 31 March 2021 from ₹ 1,229 lakh at 31 March 2020 mainly due to release of SD on completion of certain project sites. Certain stipulated amount is normally deposited towards utility, other infra connections, etc.

The benefits of contracting bank guarantee facilities at favourable terms have started delivering the fruits to your Company with reduction in margin money deposited with bank; alongwith other favourable terms. It may be noted that such interest bearing fixed deposits are kept with bank for the purpose of issuing bank guarantee in order to participate in various tenders. Other financial assets reduced by ₹ 261 lakh to ₹ 209 lakh at 31 March 2021 from ₹ 470 lakh at 31 March 2020 towards cash-margin of BG due to release of certain bank guarantees on successful completion of projects and/or completion of defect-liability period of the projects executed in past.

The other tax assets have increased by ₹ 44 lakh from ₹ 85 lakh at 31 March 2020 to ₹ 129 lakh at 31 March 2021.

During FY2021, your Company gave advance towards certain PPE and incurred certain prepaid expenses with an aggregate balance of ₹ 392 lakh at 31 March 2021.

Hence, overall Non-current Assets have increased by net ₹ 2,192 lakh i.e. 17% from ₹ 13,130 lakh at 31 March 2020 to ₹ 15,322 lakh at 31 March 2021 mainly due to support operations of the subsidiary, associate and JV entities of your Company and towards fresh purchase of a building.

Current Assets:

The detail of Current Assets at 31 March 2021 and 31 March 2020 with changes therein during the year is furnished further.

(₹ in lakhs)

Particulars	At 31 March 2021	At 31 March 2020	YoY change	% change
a. Inventories (Refer Note 12)	2,890	3,520	-630	-18%
b. Financial Assets				
i. Trade receivables (Refer Note 13)	6,504	6,833	-329	-5%
ii. Cash and cash equivalents (Refer Note 14)	1,309	66	1,243	1883%
iii. Bank balances other than (ii) above (Refer Note 14)	584	560	24	4%
iv. Loans (Refer Note 8)	16	117	-101	-86%
v. Other current financial assets (Refer Note 9)	10	302	-292	-97%
c. Other current non-financial assets (Refer Note 10)	9,899	10,285	-386	-4%
Total	21,212	21,683	-471	-2%

Total reduction of ₹ 630 lakh in inventories during FY2021 is mainly attributable to ₹ 679 lakh reduction in RM+WIP i.e. ₹ 1,045 lakh at 31 March 2021 from ₹ 1,724 lakh at 31 March 2020. There has been marginal increment in land by ₹ 50 lakh during FY2021 i.e. ₹ 1,846 lakh at 31 March 2021 from ₹ 1,796 lakh at 31 March 2020. This fructified as a result of your Company's conscious and focused efforts to rationalize the inventory carrying as well as graduated efficiency of purchase function.

The Receivables from related parties have increased by ₹ 408 lakh i.e. from ₹ 624 lakh at 31 March 2020 to ₹ 1,032 lakh at 31 March 2021. However, there is an overall reduction in the level of Trade Receivables by ₹ 329 lakh i.e. from ₹ 6,833 lakh at 31 March 2020 to ₹ 6,504 lakh at 31 March 2021. This is mainly attributable to your Company's continued

rigorous follow-up with all the debtors despite the COVID-19 pandemic induced disorder. The Retention those are not due since amount to ₹ 899 lakh at 31 March 2021. These have cumulatively resulted in increment to 241 days due to distorted operations during FY2021. Collection for FY2021 is ₹ 11,440 lakh i.e. efficiency of 103%. Meanwhile, your Company has continued rigorous follow-up with debtors (all considered "good") and is confident to recover such amounts in full, in normal course of business.

There is a significant increment in collective cash and bank balance by ₹ 1,267 lakh i.e. from ₹ 626 lakh at 31 March 2020 to ₹ 1,893 lakh at 31 March 2021 mainly as one of your Company's banks had disbursed a substantial amount towards WCTL vide ECLGS/GECL 2.0 at subsidised/capped RoI on 31 March 2021.

Loans comprise the portion that is expected to be realized within a period of 12 months from the Balance Sheet Date. At 31 March 2021 it is ₹ 16 lakh as against ₹ 117 lakh at 31 March 2020 depicting a reduction by ₹ 101 lakh, which is mainly attributable to repayment during FY2021. During FY2021, your Company has earned interest to the tune of ₹ 813 lakh from Loans to Related Parties.

The other receivables amount to ₹ 1 lakh at 31 March 2021 i.e. reduction by ₹ 300 lakh during FY2021.

The other current non-financial assets have reduced by ₹ 386 lakh to ₹ 9,899 lakh at 31 March 2021 as against ₹ 10,285 lakh at 31 March 2020 mainly on account of reduction in unbilled revenue vide Ind AS 11 and Ind AS 18 by ₹ 1,358 lakh to ₹ 3,742 lakh at 31 March 2021 as against ₹ 5,100 lakh at 31 March 2020. It may be noted that such contract assets are booked in normal course of business and would be converted to receivables in due course of time. GST receivables reduced by ₹ 331 lakh to ₹ 17 lakh at 31 March 2021 as against ₹ 348 lakh at 31 March 2020. Prepaid expenses reduced by ₹ 72 lakh to ₹ 61 lakh at 31 March 2021 as against ₹ 133 lakh at 31 March 2020. These have been curtailed by some extent with increment in Land and TDRs by ₹ 1,373 lakh to ₹ 4,853 lakh at 31 March 2021 from ₹ 3,480 lakh at 31 March 2020.

Hence, overall Current Assets have reduced by ₹ 471 lakh i.e. from ₹ 21,683 lakh at 31 March 2020 to ₹ 21,212 lakh at 31 March 2021 mainly due to reduction in Inventories, Other current non-financial assets, Trade Receivables, Other current financial assets, and Loans.

Net Worth

The network of your Company has been augmenting considerably in past financial years. During FY2021, the net worth of your Company has increased by ₹ 59 lakh to ₹ 14,391 lakh at 31 March 2021 from ₹ 14,332 lakh at 31 March 2020 mainly due to earnings are retained and ploughed-back.

Non-current liabilities

(₹ in lakhs)

Particulars	At 31 March 2021	At 31 March 2020	YoY change	% change
a. Financial liabilities				
i. Borrowings (Refer Note 17)	11,561	9,991	1,570	16%
ii. Trade payable (Refer Note 21)	-	359	-359	-100%
iii. Other financial liabilities (Refer Note 18)	93	16	77	481%
b. Provisions (Refer Note 19)	90	99	-9	-9%
c. Deferred tax liabilities (Net) (Refer Note 20)	756	843	-87	-10%
Total	12,500	11,308	1,192	11%

While the order-book increased by adding-up on new projects, incremental no. of sites under operations as well as to support the specific business initiatives through subsidiary, associate, JV; Borrowings of your Company has increased by ₹ 1,570 lakh at 31 March 2021 i.e. from ₹ 9,991 lakh at 31 March 2020 to ₹ 11,561 lakh at 31 March 2021. During FY2021, your Company, being eligible, has successfully availed Working Capital Term Loan (WCTL) under Emergency Credit Line Guarantee Scheme (ECLGS) of National Credit Guarantee Trustee Company Ltd (NCGTCL) at subsidized/capped RoI. With such efficient arrangement your Company has successfully reduced the weighted average cost of funds. The full-year effect shall be noticed from FY2022 and onwards.

Your Company, though being eligible, did not avail the benefits of moratorium under the “Reserve Bank of India COVID-19 Regulatory Package”, except non-reduction of the Drop Line Over Draft facility from SBI by ₹ 153 lakh on 1 June 2020. However, the utilisation was well below stipulated DP and hence, it did not have any bearing on the overall creditworthiness.

Your Company has honoured all its financial commitments and the account is Standard with all the lenders. None of the BGs submitted by your Company has ever been invoked by any Principal/Client.

There are no Trade Payable to other than Micro & Small Enterprises (as per the intimation received from vendors) at 31 March 2021.

Other financial liabilities are security deposits that your Company accepts in ordinary course of business from its various vendors and/or contractors. It has increased by ₹ 77 lakh i.e. to ₹ 93 lakh at 31 March 2021 from ₹ 16 lakh at 31 March 2020 owing to incremental holding of retention amount to your Company's contractors for want of successful completion of project and/or achieving stipulated milestones by them.

Provision for employee benefits including gratuity and leave encashment has reduced by ₹ 9 lakh i.e. ₹ 90 lakh at 31 March 2021 from ₹ 99 lakh at March 31, 2019 mainly as there has been reduction in total Eligible employees during FY2021.

Net deferred tax liability has reduced by ₹ 87 lakh i.e. ₹ 756 lakh at 31 March 2021 from ₹ 843 lakh at 31 March 2020 mainly towards excess of depreciation under tax laws over book depreciation and amortization as well as fair valuation of investment in joint venture.

Hence, overall Non-current Liabilities have increased by ₹ 1,192 lakh (11%) i.e. from ₹ 11,308 lakh at 31 March 2020 to ₹ 12,500 lakh at 31 March 2021 mainly due to increase in borrowings and other non-current financial liabilities.

Current liabilities

(₹ in lakhs)

Particulars	At 31 March 2021	At 31 March 2020	YoY change	% change
a. Financial Liabilities				
i. Borrowings (Refer Note 17)	1,050	982	68	7%
ii. Trade payables (Refer Note 21)				
ii.a. Due to micro and small enterprises	83	234	-151	-65%
ii.b. Due to others	4,761	4,038	723	18%
iii. Other financial liabilities (Refer Note 18)	2,070	1,059	1,011	95%
b. Other current financial liabilities (Refer Note 22)	1,588	2,784	-1,196	43%
c. Provisions (Refer Note 19)	92	76	16	21%
Total	9,644	9,172	472	5%

Current Borrowings consist of overdraft bank facility with utilisation of ₹ 1,050 lakh at 31 March 2021 as compared to ₹ 982 lakh at 31 March 2020 mainly utilized to support operations of your Company. It may be noted that on the other hand, your Company had sufficient liquidity on 31 March 2021 as one of your Company's banks had disbursed a substantial amount towards WCTL vide ECLGS/GECL 2.0 at subsidised/capped RoI on 31 March 2021. Trade Payables at 31 March 2021 have increased by ₹ 572 lakh (13%) i.e. ₹ 4,844 lakh at 31 March 2021 as compared to ₹ 4, 272 lakh at 31 March 2020. The current maturities of long term borrowing during FY2021 are ₹ 1,883 lakh at 31 March 2021 as per the repayment schedule of term debt contracted by your Company.

Other Current Financials Liabilities have reduced by ₹ 1,196 lakh mainly towards the advance from customers and contractors, while TDS payable have reduced by ₹ 15 lakh to ₹ 20 lakh at 31 March 2021 from ₹ 34 lakh at 31 March 2020.

Provision consist of employee benefits including gratuity and leave encashment that have remained constant, while provision for defect liability period has increased to ₹ 70 lakh at 31 March 2021 from ₹ 54 lakh at 31 March 2020.

Hence, overall Current Liabilities have increased by ₹ 472 lakh (5%) i.e. from ₹ 9,172 lakh at 31 March 2020 to ₹ 9,644 lakh at 31 March 2021 mainly due to increment in other financial liabilities, trade payables and borrowings.

Key financial ratios: Due to the rationale as duly mentioned in detail at the beginning of this section, financial performance of FY2021 is incomparable and cannot be relied for a meaningful and reasonable assessment. The ratios, in isolation, are misleading and do not reflect the right intrinsic strengths of your Company. Nonetheless, the key financial ratios are stated as following:

Ratio	FY2021	FY2020	Detailed explanation
Debtor Turnover Net Credit Sales/ Average Accounts Receivable	1.52	4.91	The credit policies and collection process of your Company are satisfactory and commensurate to the industry and/or the segment it operates into. Your Company deals with creditworthy customers. During FY2021, while the overall trade receivables have reduced, the disproportionate reduction in total revenue has disturbed the perspective of No. of days as compared to the previous year.
Days	241	74	
Inventory Turnover COGS/Average Inventory	2.69	3.82	As your Company has certain historic land, the inventory turnover is not exactly comparable with industry and/or the segment it operates into. During FY2021, while the overall inventory has reduced, the disproportionate reduction in COGS has disturbed the perspective of No. of days as compared to the previous year.
Days	136	96	
Interest Coverage Ratio EBIT/Interest	1.07	2.32	Your Company's debt:equity, leverage, gearing are commensurate to the industry and/or the segment it operates into. Your Company has tied-up with first-rung banks/NBFCs for its various credit requirements. Your Company has successfully maintained Investment Grade credit rating over a period of years, while the account is Standard with all the lenders. For FY2020, the interest coverage is lower as compared to FY2020 mainly owing to disproportionate reduction in EBIT as compared to the previous year.
Current Ratio Current assets/ Current liabilities	2.20	2.36	The reduction in current ratio of your Company at 31 March 2021 as compared to that of 31 March 2020 is mainly owing to the reduction in current assets on one hand, while increment in current liabilities on the other during FY2021. However, the current ratio is well above the stipulated level. It could also indicate that your Company has sufficient ability to pay short-term obligations i.e. due within one year. Your company has been able to maximize the current assets on its balance sheet to satisfy its current debt and other payables.

Ratio	FY2021	FY2020	Detailed explanation
Debt : Equity Ratio Total debt/ Networth	1.01	0.83	During FY2021, one of your Company's banks had disbursed a substantial amount towards WCTL vide ECLGS/GECL 2.0 at subsidised/capped RoI on 31 March 2021. Hence, considering the corresponding cash and bank balance, the Debt:Equity ratio works out to 0.88 which is almost in line with the previous year's. Meanwhile, it is commensurate to the industry and/or the segment it operates into. Your Company has tied-up with first-rung banks/NBFCs for its various credit requirements. Your Company has successfully maintained Investment Grade credit rating over a period of years, while the account is Standard with all the lenders.
Operating Profit Margin (%) Op Profit/Op Income	7.19%	10.73%	During FY2021, your Company kept on incurring the overhead expenses, while the revenue was restricted - as more specifically described in the other sections of this Report. Hence, the reduction.
Net Profit Margin (%) PAT/Total income	0.44%	6.69%	
Return on Network PAT/Networth	0.34%	12.30%	The reduction in profit during FY2021, while increased Network/Capital Employed/Assets has affected the returns. The phenomena are more specifically described in the other sections of this Report.
Return on Capital Employed EBIT/Total Assets- Current Liabilities	6.42%	15.32%	
Return on Assets PAT/Total Assets	0.13%	5.06%	

Cashflow

(₹ in Lakhs)

Particulars	For FY2021	For FY2020
Opening cash and cash equivalents	66	79
Net cash generated from / (used in) Operating Activities (A)	2,446	3,031
Net cash from / (used in) Investing Activities (B)	(2,191)	(1,106)
Net cash from / (used in) Financing Activities (C)	988	(1,938)
Change in cash and cash equivalent (Total = A+B+C)	1,243	(13)
Closing cash and cash equivalents	1,309	66

Net cash generated from operating activities is ₹ 2,466 lakh mainly due to restricted operations during FY2021, wherein your Company generated cash by reduction in inventories by ₹ 1,379 lakh, realization of trade receivables by ₹ 400 lakh, reduction in other financial and non-financial assets; which was utilised mainly towards reduction in other current liabilities by ₹ 1,196 lakh and trade payable by ₹ 300 lakh, and other financial liabilities and provisions.

Net cash utilized in investing activities is ₹ 2,191 lakh during FY2021 mainly towards purchase of investment properties by ₹ 2,066 lakh, additional loans given to related parties by ₹ 1,338 lakh, and fresh purchase of PPE and intangible assets. While, your Company has earned interest income to the tune of ₹ 864 lakh on the given loans during FY2021, proceeds from released bank deposit by ₹ 243 lakh, and repayment of loans given and sale of PPE.

Net cash utilized in financing activities is towards finance cost of ₹ 1,600 lakh, and repayment. While, it is generated from fresh borrowings.

One of your Company's banks had disbursed a substantial amount towards WCTL vide ECLGS/GECL 2.0 at subsidised/capped RoI on 31 March 2021, which substantially increased the cash at 31 March 2021.

Details of Subsidiaries, Associates and JVs of your Company at 31 March 2021:

(₹ in lakhs)

Sr. No.	Name of the entity Project location	NILA's investment in equity	% shareholding	Loans & Advances extended	Profit After Tax shared	Remark
1	Romanovia Industrial Park Pvt Ltd (23.480621, 71.974021), Navyani, Gujarat	1,251*	50%	988	-	Industrial and logistics park – various structures under execution
2	Kent Residential and Industrial Park LLP (23.478515, 72.009447), Sitapur, Gujarat	(67)	50%	4,679	-94	
3	Nila Terminals (Amreli) Pvt Ltd (21°36'11"N 71°13'19"E), Amreli, Gujarat	1	100%	1,163	-	Bus-port projects for GSRTC – under execution
4	Vyapnala Terminals (Modasa) Pvt Ltd (23°28'N 73°18'E), Modasa, Gujarat	542*	34%	971	-	

* measured at fair value at the date of transition to Ind AS i.e. the deemed cost of such investment for your Company.

None of the Pvt Ltd entities mentioned above have declared any dividend during FY2020. Further, with respect to your Company's strategic investment with the Kataria Group of Ahmedabad to work jointly for acquiring land and developing industrial and logistics parks, units, sheds, plots, residential colonies, and allied infrastructure at various locations situated near the upcoming automobile hub at Bechraji – about 90 kms from Ahmedabad at Gujarat, it may be mentioned that the progress is satisfactory and your Company has started to reap benefits as more specifically furnished in detail in other sections of this Annual Report. Your Company has executed a well-thought strategy and is favorably positioned as a first-mover, promoter of industrial eco-system in the region, and fostering infrastructure development.

Your Company has built industrial warehouse structures as well as residential dormitories on BTS basis. Such infrastructure development has already been rented out on long-term lease basis to reputed corporates including MNCs.

There surely lies an opportunity in every crisis and your Company would embark on a different growth trajectory in the years to come with the adaptation to the new normal. Your Company is getting ready to bid for new orders and has identified favourable orders in pipeline to be executed across segments and geographies over the next few quarters. The long-term outlook of your Company towards the Civic Urban Infrastructure business remains positive.

Amidst the aftermath of COVID-19 pandemic, the Company's position, contrary to general sentiments/outlook, is quite established and/or convincing – mainly considering certainty of its liquidity and cashflow management.

Report on Corporate Governance

[In terms of Regulation 34 read with Schedule V of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015]

1. COMPANY'S PHILOSOPHY ON THE CODE OF CORPORATE GOVERNANCE

Pursuant to the provisions of the Companies Act, 2013 and SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, after considering various criteria, the performance evaluation of the Board Members was carried out. Various aspects like attendance and participation at meetings, suggestions, inputs at discussions, adherence to various codes and policies, role in overall growth etc were taken into consideration while evaluating the Board. The detailed performance evaluation framework is displayed at the website of the Company at www.nilainfra.com. The performance evaluation of the Chairman and the Non-Independent Directors was carried out by the Independent Directors and Non-Executive Director. The Board of Directors expressed their satisfaction with the evaluation process.

The Company believes that a Board, which is well informed / familiarized with the Company, can contribute significantly to effectively discharge its role of trusteeship in a manner that fulfils stakeholders' aspirations and societal expectations. In pursuit of this, the Directors have been familiarized on a continuing basis on changes / developments corporate and industry scenario including those pertaining to statutes / legislations and economic environment, by way of presentations, board review notes, regular updates of projects and business operations, meetings etc. to enable them to take well informed and timely decisions.

The details of familiarization programs 2020-21 is available at the website of the Company at www.nilainfra.com under investor segment.

2.10 Board Diversity and Policy on Director's Appointment and Remuneration:

The Company believes that building a diverse and inclusive culture is integral to its success. A diverse Board, among others, will enhance the quality of decisions by utilizing different skills, qualifications, professional experience and knowledge of the Board members necessary for achieving sustainable and balanced development. Accordingly, the Board has adopted a policy on 'Board Diversity', which sets out the criteria for determining qualifications, positive attributes and independence of a Director. The detailed policy is available on the Company's website www.nilainfra.com.

2.11 Code of Conduct for the Board of Directors and Senior Management Personnel:

In Compliance with Part-D under Schedule V of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015; the Board has adopted the code of conduct for the Board of Directors and senior management personnel of the Company. This code of conduct is comprehensive code which is applicable to all Directors and senior management personnel. A copy of the same has been put on the Company's website www.nilainfra.com. The same code has been circulated to all the members of the Board and all senior management personnel. The compliance of the said code has been affirmed by them annually. A declaration signed by the Managing Director of the Company forms part of this Report.

Declaration by the Managing Director:

This is to confirm that the Company has adopted a Code of Conduct for its Board Members and the Senior Management Personnel and the same is available on the Company's website. I confirm that the Company has in respect of the financial year ended on 31 March 2021 received from the Senior Management Personnel of the Company and the members of the Board a declaration of compliance with Code of Conduct applicable to them

Place : Ahmedabad
Date : 19 June 2021

Manoj B Vadodaria
Chairman & Managing Director
DIN: 00092053

2.12 Board Procedure:

Pursuant to the SEBI Laws, Stock Exchanges are being informed about the convening of the Board Meetings at least 5 clear days in advance. The agenda is prepared by the Secretarial Department in consultation with the Chief Finance Officer and Chairman of the Board. The information as required under the SEBI Regulations is made available to the Board. The agenda for the meeting of the Board and its Committees together with the appropriate supporting documents and papers are circulated well in advance of the meeting to enable the Board to take informed decisions. The Stock Exchanges are informed about the outcome of the Board Meeting as soon as the meeting concludes.

The meetings of the Board and its various Committees are generally held at the Registered Office of the Company at Ahmedabad.

2.13 Separate Meeting of Independent Directors:

As stipulated by the Code of Independent Directors under the Companies Act, 2013 and the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, a separate meeting of the Independent Directors of the Company was held on 08 February 2021 to review the performance of Non-Independent Directors (including the Chairman) and the entire Board. The Independent Directors also reviewed the quality, content and timeliness of the flow of information between the Management and the Board and its Committees which is necessary to effectively and reasonably perform and discharge their duties.

3 AUDIT COMMITTEE

3.1 Composition of the Audit Committee:

5.4 Remuneration Policy:

5.4.1 The Salient Features of the Nomination and Remuneration Policy of the Company constituted in terms of the provisions of the Companies Act, 2013 and as per the requirements of the SEBI (Listing Obligation and Disclosure Requirements) Regulation, 2015 as amended from time to time is as under:

The full Nomination and Remuneration Policy is available at the website of the Company i.e. www.nilainfra.com. The Nomination and Remuneration Policy of the Company Policy is divided in three parts:

Part – A covers the matters to be dealt with and recommended by the Committee to the Board;

Part – B covers the appointment and nomination and

Part – C covers remuneration and perquisites etc.

PART – A: Matters to be dealt with, perused and recommended to the Board by the Nomination and Remuneration Committee

The Committee shall:

- (a) Formulate the criteria for determining qualifications, positive attributes and independence of a director.
- (b) Identify persons who are qualified to become Director and persons who may be appointed in Key Managerial Personnel and Senior Management positions in accordance with the criteria laid down in this policy.
- (c) Recommend to the Board, appointment and removal of Director, KMP and Senior Management.

PART – B: Policy for appointment and removal of Director, KMP and Senior Management

(a) Appointment criteria and Qualifications:

1. The Committee shall identify and ascertain the integrity, qualification, expertise and experience of the person for appointment as Director, KMP, Committees or at Senior Management level and recommend to the Board his / her appointment.
2. A person should possess adequate qualification, expertise and experience for the position he/she is considered for appointment. The Committee has discretion to decide whether qualification, expertise and experience possessed by a person are sufficient / satisfactory for the concerned position.
3. The Company shall not appoint or continue the employment of any person as Managing Director or Whole-time Director or Manager who has attained the age of seventy years.

Provided that where any person has attained the age of seventy years and where his appointment or reappointment is approved by passing a special resolution in the General Meeting based on the explanatory statement annexed to the notice for such motion indicating the justification for extension of appointment beyond seventy years. In any other case the same shall be approved by Central Government.

(b) Term or Tenure:

1. Managing Director/Whole-time Director:

The Company shall appoint or re-appoint any person as its Managing Director or Whole-time Director or Manager for a term not exceeding five years at a time. No re-appointment shall be made earlier than one year before the expiry of term.

2. Independent Director:

- i. An Independent Director shall hold office for a term up to five consecutive years on the Board of the Company and will be eligible for reappointment on passing of a Special Resolution by the Company and disclosure of such appointment in the Board's report.
- ii. No Independent Director shall hold office for more than two consecutive terms, but such Independent Director shall be eligible for appointment after expiry of three years from cessation of Independent

Director. Provided that an Independent Director shall not, during the said period of three years, be appointed in or be associated with the Company in any other capacity, either directly or indirectly. However, if a person who has already served as an Independent Director for 5 years or more in the Company as on 1st October, 2014 or such other date as may be determined by the Committee as per regulatory requirement, he/she shall be eligible for appointment for one more term of 5 years only.

- iii. At the time of appointment of Independent Director it should be ensured that number of Boards on which such Independent Director serves is restricted to seven listed companies as an Independent Director and in case he is serving as a Whole-time Director of a listed company then he shall serve as Independent Director in three listed companies.

(c) Evaluation:

The Committee shall carry out evaluation of performance of every Director, KMP and Senior Management Personnel at regular interval (yearly).

(d) Removal:

Due to reasons for any disqualification mentioned in the Companies Act, 2013, rules made there under or under any other applicable Act, rules and regulations, the Committee may recommend, to the Board with reasons recorded in writing, removal of a Director, KMP or Senior Management Personnel subject to the provisions and compliance of the said Act, rules and regulations.

(e) Retirement:

The Director, KMP and Senior Management Personnel shall retire as per the applicable provisions of the Companies Act, 2013 and the prevailing policy of the Company. The Board will have the discretion to retain the Director, KMP, Senior Management Personnel in the same position / remuneration or otherwise even after attaining the retirement age, for the benefit of the Company.

PART – C: Policy relating to the remuneration for the Whole-Time Director, KMP and Senior Management

(a) General:

- i. The committee will determine and recommend to Board the remuneration / compensation / commission etc. to the Managing Director, Whole-time Director, KMP and Senior Management Personnel for approval. The remuneration/compensation/ commission etc. shall be subject to the prior/post approval of the shareholders of the Company and Central Government, wherever required.
- ii. The remuneration and commission to be paid to the Managing Director or Whole-time Director shall be in accordance with the limits or conditions laid down in the Articles of Association of the Company and as per the provisions of the Companies Act, 2013, and the rules made there under as amended from time to time.
- iii. Increments to the existing remuneration/ compensation structure may be recommended by the Committee to the Board which should be within the limits approved by the Shareholders in the case of Managing Director or Whole-time Director. Increments will be effective from the date mentioned in the respective resolutions in case of a Managing Director and Whole-time Director and 1st April in respect of other employees of the Company or such other date as may be determined from time to time.
- iv. Where any insurance is taken by the Company on behalf of its Managing Director, Whole-time Director, Chief Executive Officer, Chief Financial Officer, the Company Secretary and any other employees for indemnifying them against any liability, the premium paid on such insurance shall not be treated as part of the remuneration payable to any such personnel. Provided that if such person is proved to be guilty, the premium paid on such insurance shall be treated as part of the remuneration.

(b) Remuneration to Whole-time Director, Managing Director/ Manager, KMP and Senior Management:

i. Fixed pay:

The Managing Director/Manager, Whole-time Director, KMP and Senior Management Personnel shall be eligible for a monthly remuneration as may be approved by the Board on the recommendation of the Committee. The breakup of the pay scale and quantum of perquisites including, employer's contribution to provident fund, superannuation or annuity fund, gratuity, pension scheme, medical expenses, club fees etc. shall be decided and approved by the Board on the recommendation of the Committee and approved by the shareholders and Central Government, wherever required.

ii. Minimum Remuneration:

If, in any financial year, the Company has no profits or its profits are inadequate, the Company shall pay remuneration to its Managing Director and Whole-time Director in accordance with the provisions of Section II of Part II of Schedule V of the Companies Act, 2013 and if it is not able to comply with such provisions, with the previous approval of the Central Government.

iii. Provisions for excess remuneration:

If any Managing Director and Whole-time Director draws or receives, directly or indirectly by way of remuneration any such sums in excess of the limits prescribed under the Companies Act, 2013 or without the prior sanction of the Central Government, where required, he / she shall refund such sums to the Company and until such sum is refunded, hold it in trust for the Company. The Company shall not waive recovery of such sum refundable to it unless permitted by the Central Government.

iv. Stock Options:

In case, Managing Director, Whole-time Director, Company Secretary and Chief Financial Officer, are not being Promoter Director or Independent Director, they shall be entitled to any stock option of the Company as qualified by the normal employees of the Company. Provided the same shall be subject to the Companies Act, 2013 and rules made there under read with Securities and Exchange Board of India (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999 and any amendment or modification thereof.

Senior Management Personnel shall be eligible for stock options as normal employees of the Company.

(c) Remuneration to Non- Executive / Independent Director:

i. Remuneration / Commission:

The remuneration / commission shall be fixed as per the limits and conditions mentioned in the Articles of Association of the Company and the Companies Act, 2013 and the rules made there under.

ii. Sitting Fees:

The Non- Executive / Independent Director may receive remuneration by way of fees for attending meetings of Board or Committee thereof. The sitting fees shall be decided by the Board of Directors of the Company at its meeting where quorum consists of disinterested directors. In case all the directors are interested, the same shall be decided by the Resolution passed by the Members of the Company.

Provided that the amount of such fees shall not exceed Rupees One lakh per meeting of the Board or Committee or such amount as may be prescribed by the Central Government from time to time.

iii. Commission:

Commission may be paid within the monetary limit approved by shareholders, subject to the limit not exceeding 1% of the profits of the Company computed as per the applicable provisions of the Companies Act, 2013.

iv. Stock Options:

An Independent Director shall not be entitled to any stock option of the Company.

6. STAKEHOLDERS' RELATIONSHIP COMMITTEE

In terms of the provisions of Section 178 of the Companies Act, 2013 and Regulation 20 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Company has constituted Stakeholders' Relationship Committee to look into the mechanism of redressal of grievances of shareholders and investors of the Company. Independent Auditors' Report

To the Members of Nila Infrastructures Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of Nila Infrastructures Limited ("the Company") having CIN L45201GJ1990PLC013417, which comprise the Balance Sheet as at 31 March 2021 the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the financial statements, including a summary of the significant accounting policies and other explanatory information, which we have signed under reference to this report (hereinafter referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2021, and its profit (including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Basis of Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act and other applicable authoritative pronouncements issued by the Institute of Chartered Accountants of India. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

1) Recognition of contract revenue and margins:

Revenue from construction projects represents significant portion of the revenue from operations of the Company. We identified recognition of contract revenue and margins as a key audit matter because the estimation of the contract revenue and total cost to complete the contract is inherently subjective, complex and requires significant management judgment. The same may get subsequently changed due to change in prevailing circumstances, contract variations and changes to key assumptions and could result in significant variance in the revenue and profit or loss from a contract for the reporting period.

Refer note 3 (g) to the standalone financial statements on accounting policy for revenue recognition.

How the matter was addressed in our audit;

Our procedures included the following

- Obtained an understanding of management's process for analysing long term contracts, the risk associated with the contract and any key judgments.
- Evaluating the design and implementation of relevant controls over contract revenue and cost estimation process through a combination of procedures involving inquiry, observations, and inspection of evidence.

- We selected a sample of contracts to test, using a risk based criteria which included individual contracts with: significant revenue recognised during the year; significant contract asset balances held at the year-end; or low profit margins.
- For the sample contracts selected as above, verified underlying documents such as original contract and its amendments, key contract terms and milestones for verifying the estimation of contract revenue and costs and /or any change in such estimation.
- Evaluating retrospective results for contracts completed during the current year to ensure there is no management bias in estimated contract revenue and costs.
- Evaluated adequacy of specific key assumptions considered by management in determining contract revenue.
- Considered the adequacy of the disclosures in note 36 to the standalone financial statements.

2) Recoverability of carrying value of loans and investments in subsidiary, joint ventures and associate:

The assessment of recoverable value of the Company's investment in and loans receivable from subsidiary, joint ventures and associate involves significant judgement. These include assumptions such as discount rates, future business plan, recoverability of its receivables and growth rate.

We focused on this area as a key audit matter due to judgements involved in forecasting future cash flows and the selection of assumptions.

Refer note 7 and 37 to the standalone financial statements.

How the matter was addressed in our audit;
Our procedures included the following

- Tested operating effectiveness of controls over the impairment analysis performed by the management.
- Evaluated net worth and past performance of the Company to whom loans were given or investment made.
- Challenged the significant assumptions and judgements used in impairment analysis, such as forecast revenue, margins, terminal growth and discount rates, especially in light of the existing economic situation due to COVID-19.
- Evaluated adequacy of specific key assumptions considered by management in determining the recoverable value of its loans and investments.
- Performing sensitivity analysis on key assumptions including discount rates and estimated future growth.
- Evaluated accuracy of disclosure in the standalone financial statements.

Information Other than the Financial Statements and Auditors' Report Thereon

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Directors' Report and Management discussion and Analysis included in Company's annual report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the

work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements to give a true and fair view of the financial position, financial performance (including other comprehensive income), cash flows and changes in equity of the Company in accordance with the Ind AS and accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial

statements or if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by 'the Companies (Auditor's Report) Order, 2016' ("the order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in the "Annexure A", a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143 (3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations, which to the best of our knowledge and belief, were necessary for the purposes of our audit;
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - (c) The Standalone Balance Sheet, the Standalone Statement of Profit and Loss (including other comprehensive income), the Standalone Cash Flow Statement and the Standalone Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;
 - (d) In our opinion, the aforesaid standalone financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
 - (e) On the basis of the written representations received from the directors as on 31 March 2021 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2021 from being appointed as a director in terms of Section 164 (2) of the Act.

- (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
- (g) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our knowledge and belief and according to the information and explanations given to us:
- i. The Company has disclosed the impact of pending litigations on its financial position in its Standalone financial statements;
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
 - iii. There has been no delay in transferring amounts, required to be transferred to the Investor Education and Protection Fund by the Company during the year.
- (h) In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the current year is in accordance with the provisions of section 197 of the Act.

Annexure A

To the Independent Auditor's Report – 31 March 2021

Referred in paragraph 1 under the heading "Report on other legal and regulatory requirements" of our report of even date to the members of Nila Infrastructures Limited on the standalone financial statements as of and for the year ended 31 March 2021

- i. (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- (b) The Company has a regular program of physical verification of its fixed assets by which all fixed assets are verified annually. In our opinion, this periodicity of physical verification is reasonable having regard to size of the Company and nature of its assets. In accordance with this program, fixed assets were physically verified by management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification.
- (c) According to the information and explanations given to us and based on the examination of the records of the company provided to us, we report that, the title deeds, comprising all the immovable properties of land and buildings which are freehold, are held in the name of the Company as at the balance sheet date.
- ii. Physical verification of inventory has been conducted by Management at reasonable intervals. In our opinion, the frequency of verification is reasonable. On the basis of our examination of the inventory records, in our opinion, the Company is maintaining proper records of inventory. The discrepancies noticed on physical verification of inventory as compared to book records were not material and have been properly dealt with in the books of account.
- iii. The company has granted unsecured loans to companies and limited liability partnership firm covered in the register maintained under Section 189 of the Companies Act, 2013 ('the Act').
 - (a) According to the information and explanations given to us and based on the audit procedures conducted by us, we are of the opinion that rate of interest and other terms and conditions of aforesaid loans granted by the Company are not, prima facie, prejudicial to the interest of Company.
 - (b) According to the information and explanations given to us and based on the audit procedures conducted by us, the aforesaid loans granted by the Company and interest payable thereon are repayable as stipulated. The borrowers have been regular in payment of principal and interest as stipulated.
 - (c) There are no overdue amounts of more than 90 days in respect of aforesaid loans granted by the Company.
- iv. In our opinion and according to the information and explanations given to us, the Company has not granted any loans, or provided any guarantees or security to the parties covered under Section 185 of the Act during the year. Accordingly, compliance under Section 185 of the Act is not applicable to the Company. According to the information and explanations given to us, the Company is engaged in the business of providing infrastructural facilities and accordingly the provisions of Section 186 (except subsection (1) of Section 186) of the Act are not applicable to the Company. In our opinion, and according to the information and explanations given to us, the Company has made investment referred in Section 186(1) of the Act and have complied with the provisions of Section 186 of the Act.
- v. In our opinion, and according to the information and explanations given to us, the Company has not accepted any deposit from public as per the directives issued by the Reserve Bank of India and the provisions of Sections 73 to 76 or any other relevant provisions of the Act and the rules framed thereunder. Accordingly, clause (v) of the Order is not applicable to the Company.
- vi. We have broadly reviewed the cost records maintained by the Company pursuant to the rules prescribed by the Central Government for the maintenance of cost records under Section 148(1) of the Act and are of the opinion that prima facie, the prescribed accounts and records have been made and maintained. However, we have not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.
- vii. (a) According to the information and explanations given to us and on the basis of records of the Company examined by us, in our opinion, amounts deducted / accrued in the books of account in respect of undisputed

statutory dues including Provident fund, Employees' State Insurance, Income-tax, Cess and other material statutory dues have been generally regularly deposited during the year by the Company with the appropriate authorities, though there have been slight delays in a few cases, especially in case of goods and service tax. As explained to us, the Company did not have any dues on account of Wealth Tax, Sales tax, Service tax, Duty of Customs, Duty of excise and Value added tax during the year.

According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, professional tax, employees' state insurance, income tax, Goods and service tax, cess and other statutory dues were outstanding, at the year end, for a period of more than six months from the date they became payable.

- (b) According to the information and explanations given to us and the records of the Company examined by us, there are no dues of income tax, goods and service tax and cess as at 31 March 2021, which have not been deposited on account of any dispute except as stated below.

Name of the statute	Nature of the dues	Amt. not deposited (INR in Lakhs)	FY to which the amt. relates	Forum where dispute is Pending
Income Tax Act, 1961	Income tax	0.81	1999-00	Assessing Officer
Income Tax Act, 1961	Income tax	0.43	2001-02	Assessing Officer
Income Tax Act, 1961	Income tax	2.18	2006-07	Assessing Officer

Income Tax Act, 1961	Income tax	62.22	2014-15	Central Processing Centre (CPC)
Income Tax Act, 1961	Income tax	100.98	2015-16	Commissioner of Income Tax (Appeals)
Income Tax Act, 1961	Income tax	116.07	2015-16	Commissioner of Income Tax (Appeals)
Income Tax Act, 1961	Income tax	124.08	2016-17	Commissioner of Income Tax (Appeals)
Income Tax Act, 1961	Income tax	82.63	2016-17	Commissioner of Income Tax (Appeals)
Income Tax Act, 1961	Income tax	11.23	2017-18	Commissioner of Income Tax (Appeals)

- viii. In our opinion and according to the information and explanations given to us, the Company has not defaulted in the repayment of loans and borrowings to financial institutions or banks. The Company did not have any dues to government and debenture holders during the year.
- ix. According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not raised any money by way of initial public offer or further public offer (including debt instruments) during the year. In our opinion and according to the information and explanations given to us, the term loans taken by the Company were applied for the purpose for which they were raised.
- x. During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, and according to the information and explanations given to us, we have neither come across any fraud by the company or any fraud on the company by its officers or employees has been noticed or reported during the year nor have we been informed of any such case by the Management.

- xi. According to the information and explanations given to us and based on our examination of the records of the Company, managerial remuneration has been paid and provided by the Company in accordance with the requisite approvals mandated by the provisions of section 197 read with Schedule V to the companies Act.
- xii. In our opinion and according to the information and explanations given to us, the Company is not a Nidhi company as prescribed under Section 406 of the Act. Accordingly, clause (xii) of the Order is not applicable to the Company.
- xiii. According to the information and explanations given to us and based on our examination of the records of the Company, transactions with the related parties are in compliance with Sections 177 and 188 of the Act where applicable. The details of such related party transactions have been disclosed in the standalone financial statements as required by the applicable Indian Accounting Standards.
- xiv. According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year. Accordingly, clause (xiv) of the Order is not applicable to the Company.
- xv. According to the information and explanations given to us and based on the records of the Company examined by us, the company has not entered into any non-cash transactions with directors or any person connected with them. Accordingly, clause (xv) of the Order is not applicable to the Company.
- xvi. In our opinion and according to the information and explanations given to us, the company is not required to be registered under sections 45-IA of the Reserve Bank of India Act, 1934. Accordingly, the provisions of Clause (xvi) of the Order are not applicable to the Company.

Annexure B

To the Independent Auditor's Report – 31 March 2021

Referred to in Annexure referred to in paragraph 2 (f) under the heading "Report on other legal and regulatory requirements" of our report of even date to the members of Nila Infrastructures Limited on the standalone financial statements as of and for the year ended 31 March 2021

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

Opinion

We have audited the internal financial controls with reference to standalone financial statements of Nila Infrastructures Limited ("the Company") as of 31 March 2021 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("the Guidance Note").

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately

and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Standalone Statement of Changes in Equity

for the year ended 31 March 2021

Nature and purpose of reserves:

General Reserve - The General Reserve is used from time to time to transfer profits from retained earnings for appropriation purposes. As the General Reserve is created by a transfer from one component of equity to another and is not an item of other comprehensive income, items included in the general reserve is not reclassified subsequently to the Statement of Profit and Loss.

Equity Security Premium - Securities premium reserve is used to record the premium on issue of equity shares. The reserve is utilised in accordance with the provisions of the Act.

The accompanying notes 1 to 41 form an integral part of these standalone financial statements.

Notes forming part of the standalone financial statements

for the year ended 31 March 2021

1. Corporate Information

Nila Infrastructures Limited is a Company based in Ahmedabad, Gujarat with its Registered Office situated at 1st Floor, Sambhav House, Opp. Chief Justice Bungalow, Bodakdev, Ahmedabad - 380015. Nila Infrastructures Limited is a public company incorporated on 26th February, 1990 and listed on BSE (Bombay Stock Exchange of India Limited) and NSE (National Stock Exchange of India Limited). The Company is involved in the construction as well as development of infrastructures projects.

2. Basis of preparation and measurement

2.1. Statement of compliance

These standalone financial statements have been prepared in accordance with Indian Accounting Standards ('Ind AS') as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of the Companies Act, 2013 (the 'Act') and other relevant provisions of the Act.

The standalone financial statements for the year ended 31 March 2021 have been reviewed by audit committee and subsequently approved by Board of Directors at its meetings held on 19 June 2021.

Details of the Company's significant accounting policies are included in note 3.

2.2. Functional and presentation currency

These standalone financial statements are presented in Indian Rupees (₹), which is also the Company's functional currency. All the amounts have been rounded-off to the nearest lakhs, unless otherwise stated.

2.3. Basis of Measurement

The standalone financial statements have been prepared on the historical cost basis except for the following items:

Items	Measurement basis
Net defined benefit plans	Fair value of plan assets less present value of defined benefit obligation using key actuarial assumptions
Land and transferable development rights Receivables	Fair value of land and transferable development rights using applicable market inputs

2.4. Use of estimates and judgements

In preparing this standalone financial statement, management has made judgements, estimates, and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and assumptions are reviewed on an ongoing basis. Revision to accounting estimates are recognized prospectively.

Information about critical judgements in applying accounting policies, as well as estimates and the assumptions that have most significant effect to the carrying amounts of assets and liabilities within the next financial year, are included in the following notes:

Note 3(g) – Evaluation of percentage completion for the purpose of revenue recognition

Note 3(d) - Identification of the building & furniture & fixtures as an investment property

Note 3(b) – Useful life used for the purpose of depreciation on property, plant and equipment and investment properties and amortisation of intangible assets

Note 3 (e), (i) – Impairment of financial and non-financial assets

Note 3 (q) - Lease classification

Note 3 (f) – Recognition and measurement of defined benefit obligations, key actuarial assumptions

Note 3 (i) – Fair value measurement of financial instruments

Note 3 (j) – Current / deferred tax expense and recognition and evaluation of recoverability of deferred tax assets

Note 3(l) – Provisions and contingencies

2.5. Measurement of fair values

The Company's accounting policies and disclosures requires the measurement of fair values for financial instruments.

The Company has established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments.

Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets and liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entity in the same level of fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognizes transfers between the levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumptions made in measuring fair values is included in the following notes:

Note 5 – Investment property

Note 37 – Financial instruments

3. Significant Accounting Policies

a) Operating Cycle

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in Schedule III of the Companies Act, 2013. Operating cycle for project related assets and liabilities is the time start of the project to their realization in cash or cash equivalents. Operating cycle for all other assets and liabilities has been considered as twelve months.

b) Property, plant and equipment

Recognition and measurement

Items of property, plant and equipment are measured at cost, which includes capitalized borrowing costs, less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment comprises its purchase price, including non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognized in Statement of Profit and Loss.

Subsequent measurement

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

Depreciation

Depreciation is being provided on a pro-rata basis on the 'Straight Line Method' over the estimated useful lives of the assets as prescribed under Part C of Schedule II to the Companies Act, 2013. The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate. Advances given towards acquisition of property, plant and equipment outstanding at each Balance Sheet date are disclosed as other non-current assets.

Derecognition

The carrying amount of an item of property, plant and equipment is derecognized on disposal or when no future economic benefits are expected from its use or disposal. The consequential gain or loss is measured as the difference between the net disposal proceeds and the carrying amount of the item and is recognized in the Statement of Profit and Loss.

c) Intangible assets and amortisation

Intangible assets are carried at cost less accumulated amortization and impairment losses, if any. The cost of an intangible asset comprises of its purchase price, including any import duties and other taxes (other than those subsequently recoverable from the taxing authorities), and any directly attributable expenditure on making the asset ready for its intended use.

Subsequent Expenditure

Subsequent expenditure is capitalized only when it increases the future economic benefits associated with the expenditure will flow to the Company. All other expenditure is recognized in the Statement of Profit and Loss as incurred

Amortisation

Intangible assets are amortized on a straight - line basis (pro-rata from the date of additions) over estimated useful life up to five years.

Derecognition

The carrying amount of an intangible asset is derecognized on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from derecognition of an intangible assets are measured as the difference between the net disposal proceeds and the carrying amount of intangible assets and is recognized in the Statement of Profit and Loss.

d) Investment Property

Investment property is property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes.

Recognition and measurement

Upon initial recognition, an investment property is measured at cost. Subsequent to initial recognition, investment property is measured at cost less accumulated depreciation and accumulated impairment losses, if any.

Depreciation

Depreciation is being provided on a pro-rata basis on the 'Straight Line Method' over the estimated useful lives of the assets as prescribed under Part C of Schedule II to the Companies Act, 2013. The residual values, useful lives and methods of depreciation of investment properties equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Fair value disclosure

The fair values of investment property is disclosed in the notes. Fair value is determined by an independent valuer who holds a recognized and relevant professional qualification and has recent experience in the location and category of the investment property being valued.

Any gain or loss on disposal of an investment property is recognized in Statement of Profit and Loss.

e) Impairment of non-financial assets

Non-financial assets of the Company, other than inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For impairment testing, assets that do not generate independent cash inflows are grouped together into cash-generating units (CGUs). Each CGU represents the smallest group of assets that generates cash inflows that are largely independent of the cash inflows of other assets or CGUs.

The recoverable amount of a CGU (or an individual asset) is the higher of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the CGU (or the asset).

An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognized in the Statement of Profit and Loss. Impairment loss recognized in respect of a CGU is allocated to reduce the carrying amounts of the other assets of the CGU (or group of CGUs) on a pro rata basis.

f) Employee benefits

Short term employee benefits

Short term employee benefit obligations are measured on an undiscounted expenses and are expensed as the related services are provided. A liability is recognized for the amount expected to be paid, if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the amount of obligation can be estimated reliably.

Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Company makes specified monthly contributions towards government administered schemes. Obligations for contributions to defined contribution plans are recognized as an employee benefit expense in the Statement of Profit and Loss in the periods during which the services are rendered by the employees.

Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than defined contribution plan. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligations is performed periodically by an independent qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Company, the recognized asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.

Remeasurement of the net defined benefit liability, which comprise actuarial gains and losses and the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in other comprehensive income (OCI). Net interest expense (income) on the net defined liability (assets) is computed by applying the discount rate, used to measure the net defined liability (asset). Net interest expense and other expenses related to defined benefit plans are recognized in Statement of Profit and Loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognized immediately in Statement of Profit and Loss. The Company recognizes gains and losses on the settlement of a defined benefit plan when the settlement occurs.

Other long-term employee benefits

The Company's net obligation in respect of long-term employee benefits other than post-employment benefits is the amount of future benefits that employees have earned in return for their service in the current and prior periods; that benefits is discounted to determine its present value, and the fair value of any related assets is deducted. The obligation is measured on the basis of an annual independent actuarial valuation using the projected unit credit method.

Remeasurement gains or losses are recognized in the Statement of Profit and Loss in the period in which they arise.

g) Revenue recognition

(i) Construction and infrastructure contracts

Performance obligations with reference to construction and infrastructure contracts are satisfied over the period of time, and accordingly, revenue from such contracts is recognized based on progress of performance determined using input method with reference to the cost incurred on contract and their estimated total contract costs. Revenue is adjusted towards liquidated damages, time value of money and price variations/escalation, wherever, applicable. Variation in contract work and other claims are included when it is highly probable that significant reversal will not occur and it can be measured reliably and it is agreed with customers.

Estimates of revenue and costs are reviewed periodically and revised, wherever circumstances change, resulting increases or decreases in revenue determination, is recognized in the period in which estimates are revised.

The Company evaluates whether each contract consists of a single performance obligation or multiple performance obligations. Where the Company enters into multiple contracts with the same customer, the Company evaluates whether the contract is to be combined or not by evaluating various factors as prescribed in the standard.

(ii) Land and transferrable development rights

Revenue from contracts for sale of land and transferrable development rights is recognised at a point in time when control is transferred to the customer and it is probable that consideration will be collected. This is usually deemed to be legal completion as this is the point at which the Company has an enforceable right to payment. Revenue from sale of land and transferrable development rights is measured at the transaction price specified in the contract with the customer.

Contract balances

Contract assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer e.g. unbilled revenue. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset i.e. unbilled revenue is recognised for the earned consideration that is conditional.

Trade receivables

A receivable represents the Company's right to an amount of consideration that is unconditional i.e. only the passage of time is required before payment of consideration is due.

Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. Contract liabilities are recognised as revenue when the Company performs under the contract.

(iii) Lease rental income

Lease income from operating leases shall be recognised in income on a straight line basis over the lease term, unless another systematic basis is more representative of the time pattern in which use benefit derived from the leased asset is diminished. Income from leasing of commercial complex is recognised on an accrual basis in accordance with lease agreements. Refer note 3 (q) for accounting policy on leases.

h) Other income

Interest income from financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to the asset's net carrying amount on initial recognition.

Dividend income and share of profit in LLP is recognized when the right to receive the same is established, it is probable that the economic benefits associated with the dividend will flow to the Company and amount can be measured reliably.

i) Financial instrument

Financial assets

Classification

The Company classifies financial assets as subsequently measured at amortized cost, fair value through other comprehensive income or fair value through profit and loss on the basis of its business model for managing the financial assets and the contractual cash flow characteristics of the financial assets.

Initial recognition and measurement

On initial recognition, a financial asset is recognized at fair value, in case of financial assets which are recognized at fair value through the Statement of Profit and Loss (FVTPL), its transaction cost are recognized in the Statement of Profit and Loss. In other case, the transaction costs are attributed to the acquisition value of the financial asset.

Subsequent measurement and gains and losses

Financial assets are subsequently classified as measured at

- Financial assets at amortized cost: These assets are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment is recognized in the

Statement of Profit and Loss. Any gain or loss on derecognition is recognized in the Statement of Profit and Loss.

- Fair value through profit and loss (FVTPL): These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in the Statement of Profit and Loss.
- Fair value through other comprehensive income (FVOCI): These assets are subsequently measured at fair value. Dividends are recognized as income in the Statement of Profit and Loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains or losses are recognized in OCI and are not reclassified to the Statement of Profit and Loss.

Financial assets are not reclassified subsequent to their recognition, except if and in the period the Company changes its business model for managing financial assets.

Trade receivables and loans

Trade receivables and loans are initially recognized at fair value when they are originated. Subsequently, these assets are held at amortized cost, using the effective interest rate (EIR) method net of any expected credit losses. The EIR is the rate that discounts estimated future cash income through the expected life of financial instrument.

Equity instrument

All investments in equity instruments classified under financial assets are initially measured at fair value, the Company may, on initial recognition, irrevocably elect to measure the same either at FVOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. Fair value changes on an equity instrument is recognized as other income in the Statement of Profit and Loss unless the Company has elected to measure such instrument at FVOCI. Fair value changes excluding dividends, on an equity instrument measured at FVOCI are recognized in OCI.

Amounts recognized in OCI are not subsequently reclassified to the Statement of Profit and Loss. Dividend income on the investments in equity instruments are recognized as 'other income' in the Statement of Profit and Loss.

Derecognition

A financial asset (or, where applicable, a part of the financial asset) is primarily derecognized when:

- a) The right to receive cash flows from the asset have expired; or
- b) The Company has transferred substantially all the risks and rewards of the asset; or
- c) The Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Expected credit losses are recognized for all financial assets subsequent to initial recognition other than financial assets in FVTPL category. For financial assets other than trade receivables, as per Ind AS 109, the Company recognizes 12 month expected credit losses for all originated or acquired financial assets if at the reporting date the credit risk of the financial asset has not increased significantly since its initial recognition. The expected credit losses are measured as lifetime expected credit losses if the credit risk on financial asset increases significantly since its initial recognition. The Company's trade receivables do not contain significant financing component and loss allowance on trade receivables is measured at an amount equal to life time expected losses i.e. expected cash shortfall. The impairment losses and reversals are recognized in Statement of Profit and Loss.

Financial liabilities

Initial recognition and measurement

Financial liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument. Financial liabilities are initially measured at the amortized cost unless at initial recognition, they are classified as fair value through profit and loss. In case of trade payables, they are initially recognized at fair value and subsequently, these liabilities are held at amortized cost, using the effective interest method.

Subsequent measurement

Financial liabilities are subsequently measured at amortized cost using the EIR method. Financial liabilities carried at fair value through Statement of Profit and Loss are measured at fair value with all changes in fair value recognized in the Statement of Profit and Loss.

Derecognition

A financial liability is derecognized when the obligation specified in the contract is discharged, cancelled or expires.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet date if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle them on net basis or to realize the assets and settle the liabilities simultaneously.

j) Income taxes

Income tax comprises of current and deferred tax. It is recognized in the Statement of Profit and Loss except to the extent that it relates to an item recognized directly in equity or in OCI.

Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes.

It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date. Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognized amounts, and it is intended to realize the asset and settle the liability on a net basis or simultaneously.

Deferred tax

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognized in respect of carried forward tax losses and tax credits. Deferred tax assets are

recognized to the extent that it is probable that future taxable profits will be available against which they can be used.

Minimum Alternate Tax (MAT) eligible for set off in subsequent years (as per tax laws), is recognized as an asset by way of credit to the restated standalone summary Statement of Profit and Loss only if there is convincing evidence that sufficient taxable profit will be available against which the unused tax losses or unused tax credits can be utilized by the Company. At each balance sheet date, the carrying amount of deferred tax in relation to MAT credit entitlement receivable is reviewed to reassure realization.

k) Inventories

Inventory comprises of land, project inventories and work in progress in case of construction and development of infrastructure projects. Inventories comprising of land is valued at lower of cost or net realizable value. Cost includes cost of land, borrowing cost and other related overhead as the case may be.

Project inventories

Inventories of project materials are valued at cost or net realizable value whichever is less. Cost is arrived at on weighted average method (WAM) basis.

Work-in-progress

Construction and development of Infrastructure project:

Cost incurred for the contract that relate to future activity of the contract, such contract cost are recognized as an asset provided it is probable that they will be recovered. Such costs represent an amount due from the customer and are often classified as Contract work in progress which is valued at cost or net realizable value whichever is less.

l) Provisions and contingencies

A provision is recognized if, as a result of past events, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

The unwinding of the discount is recognized as finance cost. Expected future operating losses are not provided for.

Contingent liabilities are disclosed in the Notes to the Standalone Financial Statements. Contingent liabilities are disclosed for:

- i. possible obligations which will be confirmed only by future events not wholly within the control of the Company, or
- ii. present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

m) Borrowing Cost

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings to the extent they are regarded as an adjustment to the interest cost. Investment income earned on temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

Borrowing costs, if any, directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized, if any. All other borrowing costs are expensed in the period in which they occur.

n) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM) of the Company. The CODM is responsible for allocating resources and assessing performance of the operating segments of the Company. For the disclosure on reportable segments see Note 34.

o) Cash and cash equivalents

Cash and Cash equivalents for the purpose of Cash Flow Statement comprise cash and cheques in hand, bank balances, demand deposits with banks where the original maturity is three months or less and other short term highly liquid.

p) Investments in subsidiaries, joint venture and associates

The Company has elected to recognise its investments in subsidiary and associate and joint venture companies at cost in accordance with the option available in Ind AS 27, Separate Financial Statements.

q) Leases

Policy applicable before 1 April 2019 under Ind AS 17

Asset given under lease

In respect of assets provided on finance leases, amount due from lessees are recorded as receivables at the amount of the Company's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Company's net investment outstanding in respect of the leases. In respect of assets given on operating lease, lease rentals are accounted on accrual basis in accordance with the respective lease agreements.

Asset held under lease

Leases of property, plant and equipment that transfer substantially all the risks and rewards of ownership are classified as finance leases. All the other leases are classified as operating leases. For finance lease, the leased assets are measured initially at an amount equal to the lower of their fair value and the present value of minimum lease payments. Subsequent to the initial recognition, the assets are accounted for in accordance with the accounting policy applicable to similar owned assets.

Assets held under operating leases are neither recognized in (in case the Company is lessee) nor derecognized (in case the Company is lessor) from the Company's balance sheet.

Lease payments

Payments made under operating leases are generally recognized in the Statement of Profit and Loss on a straight line basis over the term of lease unless such payments are structured to increase in line with the expected general inflation to compensate for the lessor's expected inflationary cost increases. Lease incentives received are recognized as an integral part of the total lease expense over the term of lease

Policy applicable after 1 April 2019 under Ind AS 116

Effective 1 April 2019, the Company has adopted Ind AS 116 Leases which introduces single accounting model and requires a lessee to recognise assets and liabilities for all leases subject to recognition exemptions. The Company adopted Ind AS 116 Leases using modified retrospective approach and practical expedients.

At the inception of a contract, the Company assesses whether a contract is or contains, a lease. A contract is, or contains a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange of consideration. To assess whether a contract conveys the right to control the use of an asset the Company assesses whether:

- The contract involves the use of an identified asset – this may be specified explicitly or implicitly, and should be physically distinct or represent substantially all of the capability of a physical distinct asset. If the supplier has a substantive substitution right, then the asset is not identified.
- The Company has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and
- The Company has the right to direct the use of the asset. The Company has this right when it has the decision making rights that are most relevant to changing how and for what purpose the asset is used.

As a Lessee

Right of use Asset

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. At the commencement date, a lessee shall measure the right-of-use asset at cost which comprises initial measurement of the lease liability, any lease payments made at or before the commencement date, less any lease incentives received, any initial direct costs incurred by the lessee; and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

Lease Liability

At the commencement date, a lessee shall measure the lease liability at the present value of the lease payments that are not paid at that date. The lease payments shall be discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the lessee shall use the lessee's incremental borrowing rate.

Short-term lease and leases of low-value assets

The Company has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of less than 12 months or less and leases of low-value assets, including IT Equipment. The Company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

The election for short-term leases shall be made by class of underlying asset to which the right of use relates. A class of underlying asset is a grouping of underlying assets of a similar nature and use in Company's operations. The election for leases for which the underlying asset is of low value can be made on a lease-by-lease basis.

r) Earnings per share

Basic earnings per share is computed by dividing the net profit for the year attributable to the equity shareholders of the Company by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year and for all the years presented is adjusted for events such as bonus shares, other than conversion of potential equity shares that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

s) **Foreign currency transactions**

Transactions in foreign currencies are translated into the respective functional currencies of the Company at the exchange rates as at the date of transaction or at an average rate if the average rate approximates the actual rate at the date of transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of transaction. Exchange differences are recognized in the Statement of Profit and Loss.

t) **Recent accounting pronouncement**

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards. There is no such notification which would have been applicable from April 01, 2020.

Measurement of fair value of investment properties:

A. Fair value hierarchy:

The fair value of investment properties has been determined by external independent property valuers, having appropriate recognised professional qualification and recent experience in the location and category of properties being valued.

The fair value measurement of the investment properties has been categorised as Level 3 fair value based on the inputs to the valuation techniques used.

B. Fair valuation technique

Outstanding balance of guarantee obtained	14,417.14	11,727.90

Note 32 Employee benefits

A. Defined benefit plans:

Gratuity

The Company operates a defined benefit plan (the gratuity plan) covering eligible employees, which provides a lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employees salary and tenure of employment. The liability in respect of gratuity being defined benefit schemes, payable in future, are determined by actuarial valuation as on balance sheet date.

In activity of valuation for gratuity following assumptions were used:

Particulars	31 March 2021	31 March 2020
Mortality rate	Indian Assured Lives Mortality (2012-14) ultimate	Indian Assured Lives Mortality (2012-14) ultimate
Withdrawal rate	For attained age above 18 upto 25 years: 25%, For attained age above 25 upto 32 years: 15%, For attained age above 32 upto 39 years: 10%, For attained age above 39 upto 46 years: 5% For attained age above 46 years: 2%	For attained age above 18 upto 25 years: 25%, For attained age above 25 upto 32 years: 15%, For attained age above 32 upto 39 years: 10%, For attained age above 39 upto 46 years: 5% For attained age above 46 years: 2%
Retirement age	58 Years	58 Years
Discount rate	6.71%	6.65%
Salary escalation	7.50%	7.50%

The following tables set out the funded status of the gratuity plans and the amounts recognised in the Company's standalone financial statements as at 31 March 2021, 31 March 2020

The following tables set out status of gratuity plan under Indian Accounting Standard 19 on "Employee benefit".

(₹ in lakhs)

Particulars	31 March 2021	31 March 2020
Changes in present value of defined benefit obligation		
Present value of defined benefit obligation as at the beginning of the year	73.18	61.91
Interest cost	4.67	4.64
Current service cost	7.81	9.36
Actuarial loss due to change in financial assumptions	(0.35)	11.33
Actuarial (gain) due to change in demographic assumptions	-	(0.22)
Actuarial loss/(gain) due to experience adjustments	(12.20)	(11.76)
Benefits paid	(5.97)	(2.08)
Present value of defined benefit obligation as at the end of the year	67.14	73.18
Amount recognised in the balance sheet		
Fair value of plan assets as at the end of the year	-	-
Present value of defined benefit obligation as at the end of the year	67.14	73.18
Net obligation as at end of year	67.14	73.18
Non current	61.03	67.57
Current	6.11	5.61
Expenses recognised in the statement of profit and loss under the head Employee benefit expenses		
Service cost	7.81	9.36
Interest cost	4.67	4.64
Net expense recognised in employee benefit expenses	12.48	14.00
Expenses recognised in other comprehensive income for the year		
Remeasurment due to:		
Actuarial loss on obligations - due to change in financial assumptions	(0.35)	11.33
Actuarial (gain) on obligations - due to change in demographic assumptions	-	(0.22)
Actuarial loss/(gain) on obligations - due to experience adjustments	(12.20)	(11.76)
Net expense/(income) recognised in other comprehensive income	(12.55)	(0.65)

Note 32
Employee benefits (continued)

Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below:

(₹ in lakhs)

Particulars	31 March 2021		31 March 2020	
	Increase	Decrease	Increase	Decrease
Discount rate (1% movement)	(5.15)	5.89	(5.31)	6.12
Salary growth rate (1% movement)	4.18	(3.91)	5.00	(4.61)
Withdrawal rate (1% movement)	0.26	(0.30)	(0.27)	0.28

The sensitivity analyses presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the balance sheet. There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior years.

The obligations are measured at the present value of estimated future cash flows by using a discount rate that is determined with reference to the market yields at the Balance Sheet date on Government Bonds which is consistent with the estimated terms of the obligation.

The estimate of future salary increase, considered in the actuarial valuation, takes account of inflation, security, promotion and other relevant factors such as supply and demand in the employment market.

Expected future cash flows:

The expected future cash flows in respect of gratuity as at balance sheet date will be as follows:

(₹ in lakhs)

Projected benefits payable in future years from the date of reporting	31 March 2021	31 March 2020
1st following year	6.11	5.61
2nd following year	3.07	3.25
3rd following year	9.34	3.31
4th following year	2.60	26.44
5th following year	5.75	2.10
Sum of years 6 to 10	25.18	24.26

B. Other long term employee benefits

Compensated absences

The accrual for unutilised leave is determined for the entire available leave balance standing to the credit of the employees at the year end. The value of such leave balances that are eligible for carry forward is determined by an actuarial valuation as at the end of the year and actuarial gains and losses are charged to the statement of profit and loss. Amount of ₹ (3.06) lakhs (31 March 2020: ₹ (11.43) lakhs) towards leave benefits is recognised as (credit)/expense to salaries, wages and bonus under "Employee benefits expenses" in the Statement of Profit and Loss.

Actuarial assumptions

Particulars	31 March 2021	31 March 2020
Discount rate	6.71%	6.65%
Salary growth rate	7.50%	7.50%
Withdrawal rates	"For attained age above 18 upto 25 years: 25%, For attained age above 25 upto 32 years: 15%, For attained age above 32 upto 39 years: 10%, For attained age above 39 upto 46 years: 5% For attained age above 46 years: 2%"	"For attained age above 18 upto 25 years: 25%, For attained age above 25 upto 32 years: 15%, For attained age above 32 upto 39 years: 10%, For attained age above 39 upto 46 years: 5% For attained age above 46 years: 2%"

C. Defined contribution

Contribution to provident fund and employee state insurance contribution

Amount of ₹ 2.99 lakhs (31 March 2020: ₹ 3.63 lakhs) paid towards contribution to provident funds and Employee state insurance contribution is recognised as an expense and included in "Salaries, wages and bonus" under "Employee benefits expense" in the Statement of Profit and Loss.

Note 33

Operating segment

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Company's other components, and for which discrete financial information is available. All operating segments' operating results are reviewed regularly by the Company's Chief Operating Decision Maker (CODM) to make decisions about resources to be allocated to the segments and assess their performance. The Company's operations fall under single segment namely "Infrastructure Business", taking into account the risks and returns, the organization structure and the internal reporting systems. Board of Directors are Chief Operating Decision Maker (CODM) of the Company and hence financial statement represents disclosure of primary segment. Further, there are no export sales and hence there is no reportable secondary segment. All assets are located in the company's country of domicile.

Note 34

Contingent liabilities and commitments

(i) Contingent liabilities

(₹ in lakhs)

(a) Projected benefits payable in future years from the date of reporting	As at 31 March 2021	As at 31 March 2020
Income tax demands for A. Y. 2000-01 matter before Assessing Officer	0.81	0.81
Income tax demands for A. Y. 2002-03 matter before Assessing Officer	0.43	0.43
Income tax demands for A. Y. 2015-16 matter before Central Processing Centre (CPC)	0.64	0.64
Income tax demands for A. Y. 2009-10 matter before Central Processing Centre (CPC)	2.22	2.22

- (b) The Hon'ble Supreme Court of India ("SC") by their order dated 28 February 2019, in the case of Surya Roshani Limited & others v/s EPFO, set out the principles based on which allowances paid to the employees should be identified for inclusion in basic wages for the purposes of computation of Provident Fund contribution. The Company has provided the impact of the said supreme court judgement with effect from 1 January 2020. In view of the management, any additional liability for the period from date of the SC order (28 February 2019) to 31 Decem-

ber 2019 is not material and hence have not been provided in the books of account. In addition, management is of the view that there is a considerable uncertainty around the timing and extent in which the judgement will be interpreted and applied by the regulatory authorities and accordingly, the impact for periods prior to the date SC order (28 February 2019), if any, is not ascertainable and consequently no financial effect has been provided for in the standalone financial statements. Accordingly, this has been disclosed as a contingent liability in the standalone financial statements.

(ii) Commitments

There are no commitments as at 31 March 2021 as well as 31 March 2020.

Note 35
Leases

a) First time Adoption of Ind AS 36 - Leases

Ind AS 116 has been notified by Ministry of Corporate Affairs (MCA) on March 30, 2019 and is effective from accounting period beginning on or after 1 April 2019. The application of Ind AS 116 did not have any material impact on the Company's financial position, income statement, earnings per share and cash flows for the year ended 31 March 2021 and 31 March 2020.

b) As a lessor

The Company's significant leasing arrangements are in respect of operating leases for commercial premises. Lease income from operating leases is recognised on a straight-line basis over the period of lease. The aggregate lease rental income of ₹ 97.23 lakhs (31 March 2020: ₹ 77.33 lakhs) is accounted in the statement of profit and loss. (refer note 23).

There are no contingent rents which are recognised in statement of profit and loss. The future minimum lease receivables of non-cancellable operating leases are as under:

Future minimum lease receipts under operating leases		(₹ in lakhs)
Particulars	As at 31 March 2021	As at 31 March 2020
Not later than 1 year	65.30	31.06
Later than 1 year and not later than 5 years	86.79	77.64
Later than 5 years	-	-

c) As a lessee

The Company has taken office premises on lease. The terms of lease includes terms of renewals, increase in rent in future periods, terms of cancellation, etc. The agreement is executed for a period of 3 years with a renewable clause and also provide for termination at will by either party giving a prior notice of 3 months at any time during the lease term and hence considered the same to be of short term lease in nature under Ind AS 116. Accordingly, no further disclosures are applicable.

Lease rental expense debited to statement of profit and loss is ₹ 7.62 lakhs (31 March 2020: ₹ 9.25 lakhs).

Note 36
Disclosures as per Ind AS 115 "Revenue from contracts with customers"
(a) Disaggregation of revenue from contracts with customers for the year ended 31 March 2021 :

(₹ in lakhs)

Total	4,110.96	10,944.72	15,055.68	1,922.75	2,024.92	3,947.67	19,003.35

(b) Contract assets / Contract liabilities

The contract assets, land and transferrable development rights receivable represents amount due from customers which primarily relate to the Company's rights to consideration for work executed but not billed at the reporting date. The contract assets or Land and transferrable development rights are transferred to receivables when the rights become unconditional. i.e. when invoice is raised on achievement of contractual milestones. This usually occurs when the Company issues an invoice to the customer. The contract liabilities primarily represent advances received from customers for which invoices are yet to be raised on customers pending achievement of milestone.

The following table provides information about trade receivables and contract assets :

(₹ in lakhs)

Particulars	31 March 2021	31 March 2020
- Contract assets	3,741.80	5,099.61
- Land and transferrable development rights	4,853.07	3,479.60
- Contract liabilities	979.00	1,815.09

Changes in contract asset and land and transferrable development right balances during the year are as follows:

(₹ in lakhs)

Particulars	31 March 2021	31 March 2020
Contract asset		
Balance at the beginning of the year	5,099.61	4,602.55
Unbilled revenue for the year	1,039.26	4,655.18
Contract assets reclassified to trade receivables	2,397.07	4,158.12
Balance at the end of the year	3,741.80	5,099.61

(₹ in lakhs)

Particulars	31 March 2021	31 March 2020
Land and transferrable development rights		
Balance at the beginning of the year	3,479.60	3,978.11
Unbilled revenue for the year	1,758.47	3,459.70
Contract assets reclassified to trade receivables	385.00	3,958.22
Balance at the end of the year	4,853.07	3,479.60

Changes in contract liabilities balances during the year are as follows:

(₹ in lakhs)

Particulars	31 March 2021	31 March 2020
Balance at the beginning of the year	1,815.08	1,070.51
Less:- Recognised as amounts due to Customers under Construction Contract	836.08	1,043.92
Add:- Advances received from customers for which invoices are yet to be raised	-	1,788.49
Balance at the end of the year	979.00	1,815.09

(c) Transaction price allocated to remaining performance obligations

Table below shows the forward order book for the Company at the reporting date with the time bands of when the Company expects to recognise secured revenue on its contracts with customers. Secured revenue corresponds to fixed work contracted with customers and excludes the impact of any anticipated contract extensions or modifications, and new contracts with customers.

31 March 2021
(₹ in lakhs)

Particulars	Within one year	More than one year	Total
Contract revenue	14,500.00	41,084.00	55,584.00
Total	14,500.00	41,084.00	55,584.00

31 March 2020
(₹ in lakhs)

Particulars	Within one year	More than one year	Total
Contract revenue	14,044.99	39,405.01	53,450.00
Total	14,044.99	39,405.01	53,450.00

(d) Reconciliation of revenue recognised in the Statement of Profit and Loss

There are no adjustments made to the contracted price with customers which need to be reconciled to revenue recognised in the statement of profit and loss.

Note 37
Financial Instruments - Fair Value And Risk Measurements

* Fair value of financial assets and liabilities measured at amortised cost is not materially different from the amortised cost. Further, impact of time value of money is not significant for the financial instruments classified as current. Accordingly, the fair value has not been disclosed separately.

Note 1: Investments in associate, joint ventures and subsidiary have been accounted at historical cost. Since these are scoped out of Ind AS 109 for the purposes of measurement, the same have not been disclosed in the tables above.

Note 2: At the time of transition to Ind AS effective from 1 April 2016, the Group had opted to measure its investments in subsidiaries, joint ventures and associate at deemed cost, i.e. previous GAAP carrying amount, except for its investment in one of the joint venture - Romanovia Industrial Park Private Limited, which has been measured at fair value at the date of transition to Ind AS. If an entity chooses to measure its investment at fair value at the date of transition to Ind AS than that is deemed cost of such investment for the Group and, therefore, it shall carry its investment in at that amount (i.e. fair value at the date of transition) after the date of transition.

Fair value hierarchy

The fair value of financial instruments as referred above have been classified into three categories depending on the inputs used in valuation technique. The hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level I measurements) and lowest priority to unobservable inputs (Level III measurements).

The categories used are as follows:-

Input Level I (Directly Observable) : which includes quoted prices in active markets for identical assets such as quoted price for an equity security on Security Exchanges.

Input Level II (Indirectly Observable) : which includes prices in active markets for similar assets such as quoted price for similar assets in active markets, valuation multiple derived from prices in observed transactions involving similar businesses, etc.

Input Level III (Unobservable): which includes management's own assumptions for arriving at a fair value such as projected cash flows used to value a business, etc.

B. Measurement of fair values

i) Valuation techniques and significant unobservable inputs

The fair value of the investment in quoted investment in equity shares is based on the current bid price of investment at balance sheet date

ii) Transfers between Levels I and II

There has been no transfer in between Level I and Level II

iii) Level III fair values

There are no items in Level III fair values.

C. Financial risk management

The Company has a well-defined risk management framework. The Board of Directors of the Company has adopted a Risk Management Policy. The Company has exposure to the following risks arising from financial instruments:

- Credit risk ;
- Liquidity risk ; and
- Market risk

Risk management framework

The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The board of directors evaluate and exercise independent control over the entire process of risk management. The board also recommends risk management objectives and policies.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The audit committee oversees how management monitors compliance with the company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The audit committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and adhoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

(i) Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk primarily trade receivables and other financial assets including deposits with banks. The Company's exposure and credit ratings of its counterparties are continuously monitored and the aggregate value of transactions is reasonably spread amongst the counterparties.

Trade receivables and other receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer

operates, also has an influence on credit risk assessment. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. The Company establishes an allowance for doubtful debts and impairment that represents its estimate of incurred losses in respect of trade and other receivables. The Company considers the probability of default and whether there has been a significant increase in the credit risk on an ongoing basis through each reporting period. To assess whether there is a significant increase in credit risk, the Company compares the risk of default occurring on financial assets as on the reporting date.

Summary of the Company's exposure to credit risk by age of the outstanding from various customers is as follows:
 (₹ in lakhs)

Particulars	As at 31 March 2021	As at 31 March 2020
Not Due	1,170.95	3,297.38
0-3 Months	4,195.04	2,341.63
3-6 Months	932.90	1,284.05
6-12 Months	85.63	52.83
1-2 years	212.09	3.71
> 2 years	-	1.60
Total	6,596.61	6,981.20

Impairment

Most of customers are PSU and as per past experience, there has been no credit loss on account of customer's inability to pay i.e. there has been no material bad debts in past and therefore, no provision is generally made on this account. The company has used a practical expedient by computing the expected credit loss allowance for trade receivables on a provision matrix. An impairment analysis is performed at each reporting date based on the facts and circumstances existing on that date to identify expected losses on account of time value of money and credit risk. The calculation is based provision matrix which considers actual historical data adjusted appropriately for the future expectations and probabilities. Receivables from group companies are excluded for the purposes of this analysis since no credit risk is perceived on them. Proportion of expected credit loss provided for across the ageing buckets is summarised below:

On the above basis, the Company estimates the following provision matrix at the reporting date:

Particulars	Expected credit loss %	
	31 March 2021	31 March 2020
Not Due	0.28%	0.89%
0-3 Months	0.32%	0.89%
3-6 Months	0.32%	3.67%
6-12 Months	7.38%	8.15%
1-2 years	13.26%	16.01%
> 2 years	100.00%	100.00%

Movement in the provision for loss allowance in respect of trade and other receivables are as follows:

(₹ in lakhs)

Particulars	As at 31 March 2021	As at 31 March 2020
Balance at the beginning of the year	148.53	40.00
Provision / (Reversal) during the year	(71.37)	108.53
Balance at the end of the year	77.16	148.53

Cash and bank balances

The Company is also exposed to credit risks arising on cash and cash equivalents and term deposits with banks. The Company believes that its credit risk in respect of cash and cash equivalents and term deposits is insignificant as funds are invested in term deposits at pre-determined interest rates for specified period of time. For cash and cash equivalents and other bank balances, only high rated banks are accepted.

Other financial assets

Other financial assets includes loan to employees and related parties, security deposits, etc. Credit risk arising from these financial assets is limited and there is no collateral held against these because the counterparties are group companies, banks. Banks have high credit ratings assigned by the credit rating agencies.

(ii) Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are proposed to be settled by delivering cash or other financial asset. The Company's financial planning has ensured, as far as possible, that there is sufficient liquidity to meet the liabilities whenever due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. In addition to the Company's own liquidity, it enjoys credit facilities with the reputed bank and financial institutions.

Management monitors the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows. The Company's liquidity management policy involves periodic reviews of cash flow projections and considering the level of liquid assets necessary, monitoring balance sheet, liquidity ratios against internal and external regulatory requirements.

Exposure to liquidity risk

The following are the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted, and include estimated interest payments and exclude the impact of netting agreements.

(₹ in lakhs)

31 March 2021	Carrying amount	Contractual maturities				
		Not Due	Less than 12 months	1-2 years	2-5 years	More than 5 years
Borrowings						
- Non-current	11,560.76	-	-	2,288.64	8,554.92	717.20
- Current	1,049.56	-	1,049.56	-	-	-
Trade payable						
- Non-current	-	-	-	-	-	-
- Current	4,844.24	-	4,844.24	-	-	-
Other financial liability						
- Non-current	93.41	-	-	10.93	82.48	-
- Current	2,069.79	-	2,069.79	-	-	-

(₹ in lakhs)

31 March 2020	Carrying amount	Contractual maturities				
		Not Due	Less than 12 months	1-2 years	2-5 years	More than 5 years
Borrowings						
- Non-current	9,990.93	-	-	1,075.15	8,186.44	729.34
- Current	981.57	-	981.57	-	-	-
Trade payable						
- Non-current	359.04	-	-	359.04	-	-
- Current	4,271.71	-	4,271.71	-	-	-
Other financial liability						
- Non-current	15.85	-	-	7.98	7.87	-
- Current	1,058.91	-	1,058.91	-	-	-

(iii) Market risk

Market risk is the risk that changes in market prices – such as foreign exchange rates and interest rates – will affect the Company's income. Market risk is attributable to all market risk sensitive financial instruments including foreign currency receivables and payables and debt. The company does not have any transactions in foreign currency. And accordingly, company does not have currency risk.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's liquidity and borrowing are managed by professional at senior management level. The interest rate exposure of the Company is reduced by matching the duration of investments and borrowings. The interest rate profile of the Company's interest - bearing financial instrument as reported to management is as follows:

(₹ in lakhs)

Particulars	As at 31 March 2021	As at 31 March 2020
Fixed-rate instrument		
Financial asset	8,529.42	7,708.83
Financial liability	69.68	-
Floating-rate instrument		
Financial asset	-	-
Financial liability	14,457.25	11,936.38

Interest rate sensitivity

Profit or loss is sensitive to higher/lower interest expense from borrowings as a result of change in interest rates. The following table demonstrates the sensitivity of floating rate financial instruments to a reasonably possible change in interest rates. The risk estimates provided assume a parallel shift of 100 basis points interest rate across all yield curves. This calculation also assumes that the change occurs at the balance sheet date and has been calculated based on risk exposures outstanding as at that date. The period end balances are not necessarily representative of the average debt outstanding during the period.

(₹ in lakhs)

Particulars	Increase on profit/(loss) after tax
31 March 2021	
Increase in 100 basis point	(144.57)
Decrease in 100 basis point	144.57
31 March 2020	
Increase in 100 basis point	(119.36)
Decrease in 100 basis point	119.36

Note 38 Capital management

The Company's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The board of directors seeks to maintain a balance between the higher returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position. The Company monitors capital using a ratio of 'Debt' to 'Equity'. For this purpose, 'Debt' is meant to include long-term borrowings, short-term borrowings and current maturities of long-term borrowings. 'Equity' comprises all components of equity. The Company's debt to equity ratio as at the end of the reporting periods are as follows:

(₹ in lakhs)

Particulars	As at 31 March 2021	As at 31 March 2020
Total debt (including interest accrued but not due on borrowings)	14,526.93	11,936.38
Less : Cash and bank balances	1,309.38	66.04
Adjusted net debt	13,217.55	11,870.34
Total equity	14,390.97	14,332.39
Debt to equity (net)	0.92	0.83

Note 39 Disclosure under Regulation 34 (3) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and section 186(4) of the Companies Act, 2013.

(₹ in lakhs)

Particulars	As at 31 March 2021	Maximum balance outstanding during the year 2020-21	As at 31 March 2020	Maximum balance outstanding during the year 2019-20
Details of loans given :				
Nila Terminal (Amerli) Private Limited	1,162.89	1,162.89	479.36	484.50
Kent Residential and Industrial Park LLP	4,679.48	5,245.27	5,153.27	5,204.48
Romanovia Industrial Park Private Limited	987.76	1,382.06	75.57	652.67
Vyapnla Terminals (Modasa) Private Limited*	970.86	1,217.21	1,029.33	1,098.86

Details of Investments made by the company are given in Note 7.

All loans are given for the purposes of the business.

* Loan balance of Vyapnla Terminals (Modasa) Private Limited is after adjustment of effective interest rate, the loan is interest free.

Note 40 COVID-19

Consequent to the COVID – 19 pandemic throughout the world, nationwide lockdown was implemented from 25 March 2020 in India and accordingly operations of the company were suspended from that date. The company resumed its operations with minimum capacity from 23 June 2020 with a gradual increase in the level of operations since then considering social distancing norms and material / labour availability.

The company has made detailed assessment of its liquidity position for the next one year and of the recoverability and carrying values of its assets comprising Property, Plant and Equipment, Trade Receivables, Contract assets, Investments, Loans and advances and Inventories and has concluded that there is no material adjustments required in the Financial Statements as at 31 March 2021. Based on the forecasted cash flows, management believes that they will be able to discharge all their liabilities/obligations in next one year.

Management believes that it has considered all the possible impact of known events arising from COVID -19 pandemic in the preparation of the financial Statements. However, the impact assessment of COVID-19 is a continuing process given the uncertainties associated with its nature and duration. The impact of COVID-19, including current wave may be different from that estimated as at the date of approval of these standalone financial results. The company will continue to monitor any material changes to future economic conditions.

Note 41

Previous year figures have been regrouped/reclassified wherever necessary to confirm to current year presentation.

Independent Auditors' Report

To the Members of Nila Infrastructures Limited

Report on the Audit of Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of Nila Infrastructures Limited ("the Holding Company"); having CIN L45201GJ1990PLC013417, and its subsidiary (collectively referred to as "the Group") its associate and its joint ventures, which comprise the Consolidated Balance Sheet as at 31 March 2021 the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information, which we have signed under reference to this report (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of reports of the other Auditors on separate financial statements of the subsidiary, associate and joint ventures referred to in Other matters section below, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the group, its associate and its joint ventures as at 31 March 2021, and their consolidated loss (including other comprehensive income), their consolidated cash flows and the consolidated changes in equity for the year ended on that date.

Basis of Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act (SAs) and other applicable authoritative pronouncements issued by the Institute of Chartered Accountants of India. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group, its associate and its joint ventures, in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained along with the consideration of audit reports of the other auditors referred to in sub paragraph (a) of the "Other Matters" paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

1) Recognition of contract revenue and margins:

Revenue from construction projects represents significant portion of the revenue from operations of the Group. We identified recognition of contract revenue and margins as a key audit matter because the estimation of the contract revenue and total cost to complete the contract is inherently subjective, complex and requires significant management judgment. The same may get subsequently changed due to change in prevailing circumstances, contract variations and changes to key assumptions and could result in significant variance in the revenue and profit or loss from a contract for the reporting period.

Refer note 3 (h) to the consolidated financial statements on accounting policy for revenue recognition.

How the matter was addressed in our audit;

Our procedures included the following

- Obtained an understanding of management's process for analysing long term contracts, the risk associated with the contract and any key judgments.
- Evaluating the design and implementation of relevant controls over contract revenue and cost estimation process through a combination of procedures involving inquiry, observations, and inspection of evidence.
- We selected a sample of contracts to test, using a risk based criteria which included individual contracts with: significant revenue recognised during the year; significant contract asset balances held at the year-end; or low profit margins.
- For the sample contracts selected as above, verified underlying documents such as original contract and its amendments, key contract terms and milestones for verifying the estimation of contract revenue and costs and /or any change in such estimation.
- Evaluating retrospective results for contracts completed during the current year to ensure there is no management bias in estimated contract revenue and costs.
- Evaluated adequacy of specific key assumptions considered by management in determining contract revenue.
- Considered the adequacy of the disclosures in note 36 to the consolidated financial statements.

2) Recoverability of carrying value of loans and investments in subsidiary, joint ventures and associate:

The assessment of recoverable value of the Group's investment in and loans receivable from joint ventures and associate involves significant judgement. These include assumptions such as discount rates, future business plan, recoverability of its receivables and growth rate.

We focused on this area as a key audit matter due to judgements involved in forecasting future cash flows and the selection of assumptions.

Refer note 7 and 37 to the consolidated financial statements.

How the matter was addressed in our audit;

Our procedures included the following

- Tested operating effectiveness of controls over the impairment analysis performed by the management.
- Evaluated net worth and past performance of the Company to whom loans were given or investment made.
- Challenged the significant assumptions and judgements used in impairment analysis, such as forecast revenue, margins, terminal growth and discount rates, especially in light of the existing economic situation due to COVID-19.
- Evaluated adequacy of specific key assumptions considered by management in determining the recoverable value of its loans and investments.
- Performing sensitivity analysis on key assumptions including discount rates and estimated future growth.
- Evaluated accuracy of disclosure in the consolidated financial statements.

Information other than the Consolidated Financial Statements and Auditor's Report thereon

The Board of Directors of the Holding company is responsible for the other information. The other information comprises the information included in the Letter to shareholders, Operational highlights, Financial charts, Directors' report Analysis, Business Responsibility Report, Dividend Distribution Policy and Performance trend but does not include the Standalone Financial Statements, Consolidated Financial Statements and our Auditor's Reports thereon.

Our opinion on the Consolidated Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated Financial Statements, our responsibility is to read the other information, compare with the Consolidated Financial Statements audited and, in doing so, place reliance on the work of the other Auditors and consider whether the other information is materially inconsistent with the Consolidated Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. Other information so far as it relates to the subsidiary companies, is traced from their Financial Statements audited by other Auditors.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these consolidated financial statements to give a true and fair view of the consolidated financial position, consolidated financial performance (including other comprehensive income), consolidated cash flows and consolidated changes in equity of the Group including its associate and its joint ventures in accordance with the Ind AS and accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group, its associate and its joint ventures, are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors and management of the companies and entities included in the Group and its associate and its joint ventures, are responsible for overseeing the financial reporting process of each entity.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is

sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the Group has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group, its associate and / or its joint ventures, to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the business activities within the Group and its associate and its joint ventures, to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the audit of the Financial Statements of such entities or business activities included in the Consolidated Financial Statements of which we are the Independent Auditors. For the other entities or business activities included in the Consolidated Financial Statements, which have been audited by other Auditors, such other Auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance of the Holding Company regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other matters

- (a) The consolidated financial statement include the audited financial statement of one subsidiary, whose financial statements reflects (before consolidation adjustments) total assets of ₹ 2309.09 lakhs as at 31 March 2021,

total revenues from operation of ₹ Nil, total net loss after tax of ₹ 0.75 lakhs, total comprehensive loss of ₹ 0.75 lakhs and net cash inflow of ₹ 4.44 lakhs for the year ended on that date, as considered in the Consolidated Financial Statement. The consolidated financial statement also include the Group's share of net loss after tax (before consolidation adjustments) of ₹119.85 lakhs for the year ended 31 March 2021, as considered in the consolidated financial statement, in respect of one associate and two joint ventures. These Financial Statements of one subsidiary, two joint ventures and one associate have been audited by their respective independent auditors whose reports have been furnished to us by management and our opinion, in terms of sub-section (3) of the Section 143 of the Act, in so far as it relates to the amount and disclosures included in respect of these entities is based solely on the report of such auditors and the procedures performed by us as stated under Auditor's Responsibilities section above.

- (b) One of these joint ventures is a Limited Liability Partnership ("LLP") whose financial statements and other financial information have been prepared in accordance with accounting principles generally accepted in India, the accounting standards issued by Institute of Chartered Accountants of India and the provisions of LLP Act, 2008 ("applicable reporting framework for LLP") and have been audited by other auditors under generally accepted auditing standards applicable in India. The Holding Company's management has converted the financial statements of such joint venture from applicable reporting framework for LLP to Indian Accounting Standards prescribed under Section 133 of the Act. We have audited these conversion adjustments made by the Holding Company's management. Our opinion in so far as it relates to the balances and affairs of such joint venture is based on the report of other auditors and the conversion adjustments prepared by the management of the Holding Company and audited by us.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters, with respect to our reliance on the work done and the reports of the other auditors and conversion adjustments prepared by management as mentioned above.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit and on the consideration of reports of the other auditors on separate financial statements of such subsidiary, associate, and joint ventures as were audited by other auditors, as noted in the 'Other Matter' paragraph, we report, to the extent applicable, that:
 - (a) We have sought and obtained all the information and explanations, which to the best of our knowledge and belief, were necessary for the purposes of our audit;
 - (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors;
 - (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss, the Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
 - (d) In our opinion, the aforesaid consolidated financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
 - (e) On the basis of the written representations received from the directors of the Holding Company as on 31 March 2021 taken on record by the Board of Directors of the holding company and the reports of the statutory auditors of its subsidiary company, associate company, joint venture, none of the directors of the Group Companies, its associate company, and joint venture is disqualified as on 31 March 2021 from being appointed as a director in terms of Section 164 (2) of the Act.
 - (f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Holding Company, its subsidiary and one joint venture Company, to which requirements of the Act are applicable and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".

- (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors on separate financial statements of the subsidiary, associate and joint ventures, as noted in the 'Other Matter' paragraph:
- i. The Group has disclosed the impact of pending litigations on its financial position in its Consolidated financial statements;
 - ii. The Group, its associate and joint ventures did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Holding Company during the year ended 31 March 2021. Further, there are no amounts which are required to be transferred to the Investor Education and Protection Fund by the subsidiary, associate and joint ventures during the year ended 31 March 2021.
- (h) In our opinion and according to the information and explanations given to us and based on the reports of the statutory auditors of subsidiary company incorporated in India which was not audited by us, the remuneration paid during the current year by the Holding Company and such subsidiary company to its directors is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director by the Holding Company and such subsidiary Company is not in excess of the limit laid down under Section 197 of the Act. According to the information and explanations given to us and based on the reports of the statutory auditors of associate and joint ventures, which were not audited by us, the provisions of Section 197 of the Act is not applicable to such associate and joint ventures.

To Independent Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

Opinion

In conjunction with our audit of the consolidated financial statements of the Nila Infrastructures Limited ("the holding company") as of and for the year ended 31 March 2021, we have audited the internal financial controls with reference to consolidated financial statements of the Holding Company, and one joint venture company to which requirements of the Act are applicable, as of that date.

In our opinion, the Holding Company and one joint venture company to which requirements of the Act are applicable, have in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2021, based on the internal control over financial reporting criteria established by such companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("the Guidance Note").

Management's Responsibility for Internal Financial Controls

The respective company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the internal financial controls with reference to consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors of the subsidiary and one joint venture Company, to which requirements of the Act are applicable, in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to consolidated financial statements.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting

includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Other Matter

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to consolidated financial statements in so far as it relates to the subsidiary and one joint venture company, to which the requirements of the Act are applicable, is based on the corresponding report of other auditors of such subsidiary and one joint venture company.

Our opinion on the internal financial controls with reference to consolidated financial statements is not modified in respect of the above matter, with respect to our reliance on the work done and the reports of the other auditor.

Nature and purpose of reserves:

General Reserve - The General Reserve is used from time to time to transfer profits from retained earnings for appropriation purposes. As the General Reserve is created by a transfer from one component of equity to another and is not an item of other comprehensive income, items included in the general reserve is not reclassified subsequently to the Statement of Profit and Loss.

Equity Security Premium - Securities premium reserve is used to record the premium on issue of equity shares. The reserve is utilised in accordance with the provisions of the Act.

Notes forming part of the consolidated financial statements

for the year ended 31 March 2021

1. Group overview

Nila Infrastructures Limited ('the Company') is based in Ahmedabad, Gujarat with its Registered Office situated at 1st Floor, Sambhav House, Opp. Chief Justice Bungalow, Bodakdev, Ahmedabad - 380015. Nila Infrastructures Limited is a public company incorporated on 26th February, 1990 and listed on BSE (Bombay Stock Exchange of India Limited) and NSE (National Stock Exchange of India Limited). The Company, together with its subsidiaries, joint ventures and associate, collectively referred to as ('the Group') is involved in the construction as well as development infrastructures project. These consolidated financial statements comprise the financial statements of the Company, its subsidiary, joint ventures and the associate.

2. Basis of preparation and measurement

2.1. Statement of compliance

These consolidated financial statements have been prepared in accordance with Indian Accounting Standards ('Ind AS') as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of the Companies Act, 2013 (the 'Act') and other relevant provisions of the Act.

The consolidated financial statements for the year ended 31 March 2021 have been reviewed by audit committee and subsequently approved by Board of Directors at its meetings held on 19 June 2021.

Details of the Group's significant accounting policies are included in note3.

2.2. Functional and presentation currency

These consolidated financial statements are presented in Indian Rupees (₹), which is also the Group's functional currency. All the amounts have been rounded-off to the nearest lakhs, unless otherwise stated.

2.3 Basis of Measurement

The consolidated financial statements have been prepared on the historical cost basis except for the following items:

Items	Measurement basis
Net defined benefit plans	Fair value of plan assets less present value of defined benefit obligation using key actuarial assumptions
Land and transferable development rights Receivables	Fair value of land and transferable development rights using applicable market inputs

2.4 Use of estimates and judgements

In preparing this consolidated financial statement, management has made judgements, estimates, and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Basis of preparation and measurement

Estimates and assumptions are reviewed on an ongoing basis. Revision to accounting estimates are recognized prospectively.

Information about critical judgements in applying accounting policies, as well as estimates and the assumptions that have most significant effect to the carrying amounts of assets and liabilities within the next financial year, are included in the following notes:

Note 3(h) – Evaluation of percentage completion for the purpose of revenue recognition
 Note 3 (e) - Identification of the building & furniture & fixtures as an investment property
 Note 3 (c) – Useful life used for the purpose of depreciation on property, plant and equipment and investment properties and amortization of intangible assets
 Note 3 (f), (j) – Impairment of financial and non-financial assets
 Note 3 (q) - Lease classification
 Note 3 (g) – Recognition and measurement of defined benefit obligations, key actuarial assumptions
 Note 3 (j) – Fair value measurement of financial instruments
 Note 3 (k) – Current / deferred tax expense and recognition and evaluation of recoverability of deferred tax assets
 Note 3 (m) – Provisions and contingencies

2.5 Measurement of fair values

The Group's accounting policies and disclosures requires the measurement of fair values for financial instruments.

The Group has established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments.

Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets and liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or liability, the Group uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entity in the same level of fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Group recognizes transfers between the levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumptions made in measuring fair values is included in the following notes:

Note 5 - Investment property
 Note 37 – Financial instruments

3. Significant Accounting Policies

a) Operating Cycle

All assets and liabilities have been classified as current or non-current as per the Group's normal operating cycle and other criteria set out in Schedule III of the Companies Act, 2013. Operating cycle for project related assets and liabilities is the time start of the project to their realization in cash or cash equivalents. Operating cycle for all other assets and liabilities has been considered as twelve months.

b) Basis of consolidation

i) Subsidiaries

Subsidiaries are all entities (including structured entities) over which the group has control. The group controls an entity when the group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. The financial statement of the subsidiaries are included in the consolidated financial statements from the date on which control is transferred/acquired to/by the group and they are deconsolidated from the date the control ceases. The acquisition method of accounting is used to account for business combinations by the group.

The group combines the financial statements of the parent and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances and unrealized gains on transactions between group companies are eliminated. Accounting policies of subsidiaries are changed where necessary to ensure consistency with policies adopted by the group.

ii) Joint ventures and associate

The Group's interest in equity accounted investees comprises interest in joint ventures and associate. An associate is an entity in which the Group has significant influence but not control or joint control. A joint venture is an arrangement in which the Group has joint control and has the rights to the net assets of the arrangement, rather than rights to its assets and obligations for its liabilities.

Interests in joint ventures and associates are accounted for using the equity method. They are initially recognized at cost. Subsequent to initial recognition, the consolidated financial statements include the Group's share of profit and loss and other comprehensive

income of equity accounted investees until the date on which the significant influence or joint control ceases.

When the Group's share of losses in any equity accounted investments equals or exceeds its interest in an entity; the Group does not recognize further losses, unless it has incurred obligations or made payments on behalf of other entity.

iii) Equity method

Under the equity method of accounting, the investments are initially recognized at cost and adjusted thereafter to recognize the Group's share of post-acquisition profits or losses of the investee in profit and loss, and the Group's share of other comprehensive income of the investee in other comprehensive income.

When the Group's share of loss in equity-accounted investment equals or excess its interest in the entity, including any other unsecured long term receivables, the Group does not recognize further losses, unless it has incurred obligations or made payments on behalf of the other entity.

Unrealised gains on transactions between the Group and its associates and joint ventures are eliminated to the extent of the Groups interest in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of assets transferred. Accounting policies of equity accounted investees have been changed where necessary to ensure consistency with the policies adopted by the Group.

iv) Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealized income and expenses arising from intra-group transactions, are eliminated in full while preparing these consolidated financial statements. Unrealised gains or losses arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Deferred tax asset or liability is created on any temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.

c) Property, plant and equipment

Recognition and measurement

Items of property, plant and equipment are measured at cost, which includes capitalized borrowing costs, less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment comprises its purchase price, including non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognized in the Statement of Profit and Loss.

Subsequent measurement

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Group.

Depreciation

Depreciation is being provided on a pro-rata basis on the 'Straight Line Method' over the estimated useful lives of the assets as prescribed under Part C of Schedule II to the Companies Act, 2013. The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate. Advances given towards acquisition of property, plant and equipment outstanding at each Balance Sheet date are disclosed as other non-current assets.

Derecognition

The carrying amount of an item of property, plant and equipment is derecognized on disposal or when no future economic benefits are expected from its use or disposal. The consequential gain or loss is measured as the difference between the net disposal proceeds and the carrying amount of the item and is recognized in the Statement of Profit and Loss.

d) Intangible assets and amortisation

Intangible assets are carried at cost less accumulated amortization and impairment losses, if any. The cost of an intangible asset comprises of its purchase price, including any import duties and other taxes (other than those subsequently recoverable from the taxing authorities), and any directly attributable expenditure on making the asset ready for its intended use.

Subsequent Expenditure

Subsequent expenditure is capitalized only when it increases the future economic benefits associated with the expenditure will flow to the Group. All other expenditure is recognized in the Statement of Profit and Loss as incurred

Amortisation

Intangible assets are amortized on a straight - line basis (pro-rata from the date of additions) over estimated useful life up to five years.

Derecognition

The carrying amount of an intangible asset is derecognized on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from the derecognition of an intangible assets are measured as the difference between the net disposal proceeds and the carrying amount of intangible assets and is recognized in the Statement of Profit and Loss account

e) Investment Property

Investment property is property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes.

Recognition and measurement

Upon initial recognition, an investment property is measured at cost. Subsequent to initial recognition, investment property is measured at cost less accumulated depreciation and accumulated impairment losses, if any.

Depreciation

Depreciation is being provided on a pro-rata basis on the 'Straight Line Method' over the estimated useful lives of the assets as prescribed under Part C of Schedule II to the Companies Act, 2013. The residual values, useful lives and methods of depreciation of investment properties equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Fair value disclosure

The fair values of investment property is disclosed in the notes. Fair values is determined by an independent valuer who holds a recognized and relevant professional qualification and has recent experience in the location and category of the investment property being valued.

Any gain or loss on disposal of an investment property is recognized in Statement of Profit and Loss.

f) Impairment of non-financial assets

Non-financial assets of the Group, other than inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For impairment testing, assets that do not generate independent cash inflows are grouped together into cash-generating units (CGUs). Each CGU represents the smallest group of assets that generates cash inflows that are largely independent of the cash inflows of other assets or CGUs.

The recoverable amount of a CGU (or an individual asset) is the higher of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the CGU (or the asset).

An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognized in the Statement of Profit and Loss. Impairment loss recognized in respect of a CGU is allocated to reduce the carrying amounts of the other assets of the CGU (or group of CGUs) on a pro rata basis.

g) Employee benefits

Short term employee benefits

Short term employee benefit obligations are measured on an undiscounted expenses and are expensed as the related services are provided. A liability is recognized for the amount expected to be paid, if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the amount of obligation can be estimated reliably.

Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Group makes specified monthly contributions towards government administered schemes. Obligations for contributions to defined contribution plans are recognized as an employee benefit expense in the Statement of Profit and Loss in the periods during which the services are rendered by the employees.

Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than defined contribution plan. The Group's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligations is performed periodically by an independent qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Group, the recognized asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan.

To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.

Remeasurement of the net defined benefit liability, which comprise actuarial gains and losses and the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in other comprehensive income (OCI). Net interest expense (income) on the net defined liability (assets) is computed by applying the discount rate, used to measure the net defined liability (asset). Net interest expense and other expenses related to defined benefit plans are recognized in Statement of Profit and Loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognized immediately in Statement of Profit and Loss. The Group recognizes gains and losses on the settlement of a defined benefit plan when the settlement occurs.

Other long-term employee benefits

The Group's net obligation in respect of long-term employee benefits other than post-employment benefits is the amount of future benefits that employees have earned in return for their service in the current and prior periods; that benefits is discounted to determine its present value, and the fair value of any related assets is deducted. The obligation is measured on the basis of an annual independent actuarial valuation using the projected unit credit method. Remeasurements gains or losses are recognized in the Statement of Profit and Loss in the period in which they arise.

h) Revenue recognition

(i) Construction and infrastructure contracts

Performance obligations with reference to construction and infrastructure contracts are satisfied over the period of time, and accordingly, revenue from such contracts is recognized based on progress of performance determined using input method with reference to the cost incurred on contract and their estimated total contract costs. Revenue is adjusted towards liquidated damages, time value of money and price variations/escalation, wherever, applicable. Variation in contract work and other claims are included when it is highly probable that significant reversal will not occur and it can be measured reliably and it is agreed with customers.

Estimates of revenue and costs are reviewed periodically and revised, wherever circumstances change, resulting increases or decreases in revenue determination, is recognized in the period in which estimates are revised.

The Group evaluates whether each contract consists of a single performance obligation or multiple performance obligations. Where the Group enters into multiple contracts with the same customer, the Group evaluates whether the contract is to be combined or not by evaluating various factors as prescribed in the standard.

(ii) Land and transferrable development rights

Revenue from contracts for sale of land and transferrable development rights is recognised at a point in time when control is transferred to the customer and it is probable that consideration will be collected. This is usually deemed to be legal completion as this is the point at which the Group has an enforceable right to payment. Revenue from sale of land and transferrable development rights is measured at the transaction price specified in the contract with the customer.

Contract balances

Contract assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer e.g. unbilled revenue. If the Group performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset i.e. unbilled revenue is recognised for the earned consideration that is conditional.

Trade receivables

A receivable represents the Group's right to an amount of consideration that is unconditional i.e. only the passage of time is required before payment of consideration is due.

Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. Contract liabilities are recognised as revenue when the Group performs under the contract.

(iii) Lease rental income

Lease income from operating leases shall be recognised in income on a straight line basis over the lease term, unless another systematic basis is more representative of the time pattern in which use benefit derived from the leased asset is diminished. Income from leasing of commercial complex is recognised on an accrual basis in accordance with lease agreements. Refer note 3 (q) for accounting policy on leases.

i) Other income

Interest income from financial asset is recognised when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to the asset's net carrying amount on initial recognition.

Dividend income and share of profit in LLP is recognized when the right to receive the same is established, it is probable that the economic benefits associated with the dividend will flow to the Group and amount can be measured reliably.

j) Financial instrument

Financial assets

Classification

The Group classifies financial assets as subsequently measured at amortized cost, fair value through other comprehensive income or fair value through profit and loss on the basis of its business model for managing the financial assets and the contractual cash flow characteristics of the financial assets.

Initial recognition and measurement

On initial recognition, a financial asset is recognized at fair value, in case of financial assets which are recognized at fair value through the Statement of Profit and Loss (FVTPL), its transaction cost are recognized in the Statement of Profit and Loss. In other case, the transaction costs are attributed to the acquisition value of the financial asset.

Subsequent measurement and gains and losses

Financial assets are subsequently classified as measured at

- **Financial assets at amortized cost:** These assets are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment is recognized in the Statement of Profit and Loss. Any gain or loss on derecognition is recognized in the Statement of Profit and Loss.
- **Fair value through profit and loss (FVTPL):** These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in the Statement of Profit and Loss.
- **Fair value through other comprehensive income (FVOCI):** These assets are subsequently measured at fair value. Dividends are recognized as income in the Statement of Profit and Loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains or losses are recognized in OCI and are not reclassified to the Statement of Profit and Loss.

Financial assets are not reclassified subsequent to their recognition, except if and in the period the Group changes its business model for managing financial assets.

Trade receivables and loans

Trade receivables and loans are initially recognized at fair value when they are originated. Subsequently, these assets are held at amortized cost, using the effective interest rate (EIR) method net of any expected credit losses. The EIR is the rate that discounts estimated future cash income through the expected life of financial instrument.

Equity instrument

All investments in equity instruments classified under financial assets are initially measured at fair value, the Group may, on initial recognition, irrevocably elect to measure the same either at FVOCI or FVTPL. The Group makes such election on an instrument-by-instrument basis. Fair value changes on an equity instrument is recognized as other income in the Statement of Profit and Loss unless the Group has elected to measure such instrument at FVOCI. Fair value changes excluding dividends, on an equity instrument measured at FVOCI are recognized in OCI. Amounts recognized in OCI are not subsequently reclassified to the Statement of Profit and Loss. Dividend income on the investments in equity instruments are recognized as 'other income' in the Statement of Profit and Loss.

Derecognition

A financial asset (or, where applicable, a part of the financial asset) is primarily derecognized when:

- a) The right to receive cash flows from the asset have expired; or
- b) The Group has transferred substantially all the risks and rewards of the asset; or
- c) The Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Impairment of financial assets

Expected credit losses are recognized for all financial assets subsequent to initial recognition other than financial assets in FVTPL category. For financial assets other than trade receivables, as per Ind AS 109, the Company recognizes 12 month expected credit losses for all originated or acquired financial assets if at the reporting date the credit risk of the financial asset has not increased significantly since its initial recognition. The expected credit losses are measured as lifetime expected credit losses if the credit risk on financial asset increases significantly since its initial recognition. The Company's trade receivables do not contain significant financing component and loss allowance on trade receivables is measured at an amount equal to life time expected losses i.e. expected cash shortfall. The impairment losses and reversals are recognized in Statement of Profit and Loss.

Financial liabilities

Initial recognition and measurement

Financial liabilities are recognized when the Group becomes a party to the contractual provisions of the instrument. Financial liabilities are initially measured at the amortized cost unless at initial recognition, they are classified as fair value through profit and loss. In case of trade payables, they are initially recognized at fair value and subsequently, these liabilities are held at amortized cost, using the effective interest method.

Subsequent measurement

Financial liabilities are subsequently measured at amortized cost using the EIR method. Financial liabilities carried at fair value through Statement of Profit and Loss are measured at fair value with all changes in fair value recognized in the Statement of Profit and Loss.

Derecognition

A financial liability is derecognized when the obligation specified in the contract is discharged, cancelled or expires.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet date if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle them on net basis or to realize the assets and settle the liabilities simultaneously.

k) Income taxes

Income tax comprises of current and deferred tax. It is recognized in the Statement of Profit and Loss except to the extent that it relates to an item recognized directly in equity or in OCI.

Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes.

It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date. Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognized amounts, and it is intended to realize the asset and settle the liability on a net basis or simultaneously.

Deferred tax

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognized in respect of carried forward tax losses and tax credits. Deferred tax assets are recognized to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Minimum Alternate Tax (MAT) eligible for set off in subsequent years (as per tax laws), is recognized as an asset by way of credit to the restated standalone summary Statement of Profit and Loss only if there is convincing evidence that sufficient taxable profit will be available against which the unused tax losses or unused tax credits can be utilized by the Group. At each balance sheet date, the carrying amount of deferred tax in relation to MAT credit entitlement receivable is reviewed to reassure realization.

l) Inventories

Inventory comprises of land, project inventories and work in progress in case of construction and development of infrastructure projects. Inventories comprising of land is valued at lower of cost or net realizable value. Cost includes cost of land, borrowing cost and other related overhead as the case may be.

Project inventories

Inventories of project materials are valued at cost or net realizable value whichever is less. Cost is arrived at on weighted average method (WAM) basis.

Work-in-progress

Construction and development of Infrastructure project:

Cost incurred for the contract that relate to future activity of the contract, such contract cost are recognized as an asset provided it is probable that they will be recovered. Such costs represent an amount due from the customer and are often classified as Contract work in progress which is valued at cost or net realizable value whichever is less.

m) Provisions and contingencies

A provision is recognized if, as a result of past events, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

The unwinding of the discount is recognized as finance cost. Expected future operating losses are not provided for.

Contingent liabilities are disclosed in the Notes to the Consolidated Financial Statements. Contingent liabilities are disclosed for:

- i. possible obligations which will be confirmed only by future events not wholly within the control of the Group, or
- ii. present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

n) Borrowing Cost

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings to the extent they are regarded as an adjustment to the interest cost.

Investment income earned on temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

Borrowing costs, if any, directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized, if any. All other borrowing costs are expensed in the period in which they occur.

o) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM) of the Group. The CODM is responsible for allocating resources and assessing performance of the operating segments of the Group. For the disclosure on reportable segments see Note 334.

p) Cash and cash equivalents

Cash and Cash equivalents for the purpose of Cash Flow Statement comprise cash and cheques in hand, bank balances, demand deposits with banks where the original maturity is three months or less and other short term highly liquid.

q) Leases

Asset given under lease

In respect of assets provided on finance leases, amount due from lessees are recorded as receivables at the amount of the Group's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Group's net investment outstanding in respect of the leases. In respect of assets given on operating lease, lease rentals are accounted on accrual basis in accordance with the respective lease agreements.

Asset held under lease

Leases of property, plant and equipment that transfer substantially all the risks and rewards of ownership are classified as finance leases. All the other leases are classified as operating leases. For finance lease, the leased assets are measured initially at an amount equal to the lower of their fair value and the present value of minimum lease payments. Subsequent to the initial recognition, the assets are accounted for in accordance with the accounting policy applicable to similar owned assets.

Assets held under operating leases are neither recognized in (in case the Group is lessee) nor derecognized (in case the Group is lessor) from the Group's balance sheet.

Lease payments

Payments made under operating leases are generally recognized in the Statement of Profit and Loss on a straight line basis over the term of lease unless such payments are structured to increase in line with the expected general inflation to compensate for the lessor's expected inflationary cost increases. Lease incentives received are recognized as an integral part of the total lease expense over the term of lease.

Policy applicable after 1 April 2019 under Ind AS 116

Effective 1 April 2019, the Company Group has adopted Ind AS 116 Leases which introduces single accounting model and requires a lessee to recognise assets and liabilities for all leases subject to recognition exemptions. The Company adopted Ind AS 116 Leases using modified retrospective approach and practical expedients.

At the inception of a contract, the Company assesses whether a contract is or contains, a lease. A contract is, or contains a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange of consideration. To assess whether a contract conveys the right to control the use of an asset the Company assesses whether:

- The contract involves the use of an identified asset – this may be specified explicitly or implicitly, and should be physically distinct or represent substantially all of the capability of a physical distinct asset. If the supplier has a substantive substitution right, then the asset is not identified.
- The Company has the right to obtain substantially all of the economic benefits from use of the asset through out the period of use; and
- The Company has the right to direct the use of the asset. The Company has this right when it has the decision making rights that are most relevant to changing how and for what purpose the asset is used.

As a Lessee

Right of use Asset

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. At the commencement date, a lessee shall measure the right-of-use asset at cost which comprises initial measurement of the lease liability, any lease payments made at or before the commencement date, less any lease incentives received, any initial direct costs incurred by the lessee; and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

Lease Liability

At the commencement date, a lessee shall measure the lease liability at the present value of the lease payments that are not paid at that date. The lease payments shall be discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the lessee shall use the lessee's incremental borrowing rate.

Short-term lease and leases of low-value assets

The Company has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of less than 12 months or less and leases of low-value assets, including IT Equipment. The Company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

The election for short-term leases shall be made by class of underlying asset to which the right of use relates. A class of underlying asset is a grouping of underlying assets of a similar nature and use in Group's operations. The election for leases for which the underlying asset is of low value can be made on a lease-by-lease basis.

r) Earnings per share

Basic earnings per share is computed by dividing the net profit for the year attributable to the equity shareholders of the Group by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year and for all the years presented is adjusted for events such as bonus shares, other than conversion of potential equity shares that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

s) Foreign currency transactions

Transactions in foreign currencies are translated into the respective functional currencies of the Group at the exchange rates as at the date of transaction or at an average rate if the average rate approximates the actual rate at the date of transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of transaction. Exchange differences are recognized in the Statement of Profit and Loss.

t) Recent accounting pronouncement

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards. There is no such notification which would have been applicable from 01 April 2021.

Note 32

Employee benefits

A. Defined benefit plans:

Gratuity

The Group operates a defined benefit plan (the gratuity plan) covering eligible employees, which provides a lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employees salary and tenure of employment. The liability in respect of gratuity being defined benefit schemes, payable in future, are determined by actuarial valuation as on balance sheet date.

In activity of valuation for gratuity following assumptions were used:

Particulars	31 March 2021	31 March 2020
Mortality rate	Indian Assured Lives Mortality (2012-14) ultimate	Indian Assured Lives Mortality (2012-14) ultimate
Withdrawal rate	For attained age above 18 up to 25 years: 25%, For attained age above 25 up to 32 years: 15%, For attained age above 32 up to 39 years: 10%, For attained age above 39 up to 46 years: 5% For attained age above 46 years: 2%	For attained age above 18 up to 25 years: 25%, For attained age above 25 up to 32 years: 15%, For attained age above 32 up to 39 years: 10%, For attained age above 39 up to 46 years: 5% For attained age above 46 years: 2%
Retirement age	58 Years	58 Years
Discount rate	6.71%	6.65%
Salary escalation	7.50%	7.50%

The following tables set out the funded status of the gratuity plans and the amounts recognised in the Group's consolidated financial statements as at 31 March 2021, 31 March 2020.

The following tables set out status of gratuity plan under Indian Accounting Standard 19 on "Employee benefit".

(₹ in lakhs)

Particulars	31 March 2021	31 March 2020
Changes in present value of defined benefit obligation		
Present value of defined benefit obligation as at the beginning of the year	73.18	61.91
Interest cost	4.67	4.64
Current service cost	7.81	9.36
Actuarial loss due to change in financial assumptions	(0.35)	11.33
Actuarial (gain) due to change in demographic assumptions	-	(0.22)
Actuarial loss/(gain) due to experience adjustments	(12.20)	(11.76)
Benefits paid	(5.97)	(2.08)
Present value of defined benefit obligation as at the end of the year	67.14	73.18
Amount recognised in the balance sheet		
Fair value of plan assets as at the end of the year	-	-
Present value of defined benefit obligation as at the end of the year	67.14	73.18
Net obligation as at end of year	67.14	73.18
Non current	61.03	67.57
Current	6.11	5.61
Expenses recognised in the statement of profit and loss under the head Employee benefit expenses		
Service cost	7.81	9.36
Interest cost	4.67	4.64
Net expense recognised in employee benefit expenses	12.48	14.00
Expenses recognised in other comprehensive income for the year		
Remeasurement due to:		
Actuarial loss on obligations - due to change in financial assumptions	(0.35)	11.33
Actuarial (gain) on obligations - due to change in demographic assumptions	-	(0.22)
Actuarial loss/(gain) on obligations - due to experience adjustments	(12.20)	(11.76)
Net expense/(income) recognised in other comprehensive income	(12.55)	(0.65)

Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below:

(₹ in lakhs)

Particulars	31 March 2021		31 March 2020	
	Increase	Decrease	Increase	Decrease
Discount rate (1% movement)	(5.15)	5.89	(5.31)	6.12
Salary growth rate (1% movement)	4.18	(3.91)	5.00	(4.61)
Withdrawal rate (1% movement)	0.26	(0.30)	(0.27)	0.28

The sensitivity analyses presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the balance sheet. There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior years.

The obligations are measured at the present value of estimated future cash flows by using a discount rate that is determined with reference to the market yields at the Balance Sheet date on Government Bonds which is consistent with the estimated terms of the obligation.

The estimate of future salary increase, considered in the actuarial valuation, takes account of inflation, security, promotion and other relevant factors such as supply and demand in the employment market.

Expected future cash flows:

The expected future cash flows in respect of gratuity as at balance sheet date will be as follows:

(₹ in lakhs)

Projected benefits payable in future years from the date of reporting	31 March 2021	31 March 2020
1st following year	6.11	5.61
2nd following year	3.07	3.25
3rd following year	9.34	3.31
4th following year	2.60	26.44
5th following year	5.75	2.10
Sum of years 6 to 10	25.18	24.26

B. Other long term employee benefits

Compensated absences

The accrual for unutilised leave is determined for the entire available leave balance standing to the credit of the employees at the year end. The value of such leave balances that are eligible for carry forward is determined by an actuarial valuation as at the end of the year and actuarial gains and losses are charged to the statement of profit and loss. Amount of ₹ (3.06) (31 March 2020: ₹ 11.43 lakhs) towards leave benefits is recognised as (credit)/expense to salaries, wages and bonus under "Employee benefits expenses" in the Statement of Profit and Loss.

Actuarial assumptions

Particulars	31 March 2021	31 March 2020
Discount rate	6.71%	6.65%
Salary growth rate	7.50%	7.50%
Withdrawal rates	For attained age above 18 up to 25 years: 25%, For attained age above 25 up to 32 years: 15%, For attained age above 32 up to 39 years: 10%, For attained age above 39 up to 46 years: 5% For attained age above 46 years: 2%	For attained age above 18 up to 25 years: 25%, For attained age above 25 up to 32 years: 15%, For attained age above 32 up to 39 years: 10%, For attained age above 39 up to 46 years: 5% For attained age above 46 years: 2%

C. Defined contribution

Contribution to provident fund and employee state insurance contribution

Amount of ₹ 2.99 lakhs (31 March 2020: ₹ 3.63 lakhs) paid towards contribution to provident funds and Employee state insurance contribution is recognised as an expense and included in "Salaries, wages and bonus" under "Employee benefits expense" in the Statement of Profit and Loss.

Note 33

Operating segment

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components, and for which discrete financial information is available. All operating segments' operating results are reviewed regularly by the Group's Chief Operating Decision Maker (CODM) to make decisions about resources to be allocated to the segments and assess their performance. The Group's operations fall under single segment namely "Infrastructure Business", taking into account the risks and returns, the organization structure and the internal reporting systems. Board of Directors are Chief Operating Decision Maker (CODM) of the holding company and hence financial statement represents disclosure of primary segment. Further, there are no export sales and hence there is no reportable secondary segment. All assets are located in the group's country of domicile.

Note 34

Contingent liabilities and commitments

(i) Contingent liabilities

(₹ in lakhs)

(a) Particulars	As at 31 March 2021	As at 31 March 2020
Income tax demands for A. Y. 2000-01 matter before Assessing Officer	0.81	0.81
Income tax demands for A. Y. 2002-03 matter before Assessing Officer	0.43	0.43

Income tax demands for A. Y. 2009-10 matter before Central Processing Centre (CPC)	2.22	2.22

- (b) The Hon'ble Supreme Court of India ("SC") by their order dated 28 February 2019, in the case of Surya Roshani Limited & others v/s EPFO, set out the principles based on which allowances paid to the employees should be identified for inclusion in basic wages for the purposes of computation of Provident Fund contribution. The Group has provided the impact of the said supreme court judgement with effect from 1 January 2020. In view of the management, any additional liability for the period from date of the SC order (28 February 2019) to 31 December 2019 is not material and hence have not been provided in the books of account. In addition, management is of the view that there is a considerable uncertainty around the timing and extent in which the judgement will be

interpreted and applied by the regulatory authorities and accordingly, the impact for periods prior to the date SC order (28 February 2019), if any, is not ascertainable and consequently no financial effect has been provided for in the consolidated financial statements. Accordingly, this has been disclosed as a contingent liability in the consolidated financial statements.

(ii) Commitments

There are no commitments as at 31 March 2021 as well as 31 March 2020.

Note 35
Leases

a) First time Adoption of Ind AS 36 - Leases

Ind AS 116 has been notified by Ministry of Corporate Affairs (MCA) on March 30, 2019 and is effective from accounting period beginning on or after 1 April 2019. The application of Ind AS 116 did not have any material impact on the Group's financial position, income statement, earnings per share and cash flows for the year ended 31 March 2020.

b) As a lessor

The Group's significant leasing arrangements are in respect of operating leases for commercial premises. Lease income from operating leases is recognised on a straight-line basis over the period of lease. The aggregate lease rental income of ₹ 97.23 (31 March 2020: 77.33) lakhs is accounted in the statement of profit and loss. (refer note 23).

There are no contingent rents which are recognised in statement of profit and loss. The future minimum lease receivables of non-cancellable operating leases are as under:

Future minimum lease receipts under operating leases		(₹ in lakhs)
Particulars	As at 31 March 2021	As at 31 March 2020
Not later than 1 year	65.30	31.06
Later than 1 year and not later than 5 years	86.79	77.64
Later than 5 years	-	-

c) As a lessee

The Group has taken office premises on lease. The terms of lease includes terms of renewals, increase in rent in future periods, terms of cancellation, etc. The agreement is executed for a period of 3 years with a renewable clause and also provide for termination at will by either party giving a prior notice of 3 months at any time during the lease term and hence considered the same to be of short term lease in nature under Ind AS 116. Accordingly, no further disclosures are applicable.

Lease rental expense debited to statement of profit and loss is ₹ 7.62 lakhs (31 March 2020: ₹ 9.25 lakhs).

Note 36

Disclosures as per new revenue standard - Ind AS 115 "Revenue from contracts with customers"

(a) Disaggregation of revenue from contracts with customers for the year ended 31 March 2021 : (₹ in lakhs)

Particulars	Gujarat			Rajasthan			Total (A+B)
	Government	Non-government	Total (A)	Government	Non-government	Total (B)	
Affordable Housing Engineering, procurement and construction (EPC)	379.29	3,106.94	3,486.23	1,364.45	-	1,364.45	4,850.69

(b) Contract assets / Contract liabilities

The contract assets, land and transferrable development rights receivable represents amount due from customers which primarily relate to the Group's rights to consideration for work executed but not billed at the reporting date. The contract assets or Land and transferrable development rights are transferred to receivables when the rights become unconditional. i.e. when invoice is raised on achievement of contractual milestones. This usually occurs when the Group issues an invoice to the customer. The contract liabilities primarily represent advances received from customers for which invoices are yet to be raised on customers pending achievement of milestone

The following table provides information about trade receivables and contract assets : (₹ in lakhs)

Particulars	31 March 2021	31 March 2020
Contract assets	3,734.07	5,094.43
Land and transferrable development rights	4,853.07	3,479.60
Contract liabilities	979.00	1,815.09

Changes in contract asset and land and transferrable development right balances during the year are as follows:

(₹ in lakhs)

Particulars	31 March 2021	31 March 2020
Contract asset		
Balance at the beginning of the year	5,094.43	4,602.55
Add:- Unbilled revenue for the year	1,039.26	3,459.70
Less:- Contract assets reclassified to trade receivables	2,399.62	2,967.82
Balance at the end of the year	3,734.07	5,094.43

(₹ in lakhs)

Particulars	31 March 2021	31 March 2020
Land and transferrable development rights		
Balance at the beginning of the year	3,479.60	3,978.11
Add:- Unbilled revenue for the year	1,758.47	3,479.60
Less:- Contract assets reclassified to trade receivables	385.00	3,978.11
Balance at the end of the year	4,853.07	3,479.60

Changes in contract liabilities balances during the year are as follows:

(₹ in lakhs)

Particulars	31 March 2021	31 March 2020
Balance at the beginning of the year	1,815.08	1,070.51
Less:- Recognised as amounts due to Customers under Construction Contract	836.08	1,043.92
Add:- Advances received from customers for which invoices are yet to be raised	-	1,788.49
Balance at the end of the year	979.00	1,815.08

(c) Transaction price allocated to remaining performance obligations

Table below shows the forward order book for the Group at the reporting date with the time bands of when the Group expects to recognise secured revenue on its contracts with customers. Secured revenue corresponds to fixed work contracted with customers and excludes the impact of any anticipated contract extensions or modifications, and new contracts with customers.

31 March 2021

(₹ in lakhs)

Particulars	Within one year	More than one year	Total
Contract revenue	13,225.00	39,809.00	53,034.00
Total	13,225.00	39,809.00	53,034.00

31 March 2020

(₹ in lakhs)

Particulars	Within one year	More than one year	Total
Contract revenue	14,595.57	42,756.28	57,351.85
Total	14,595.57	42,756.28	57,351.85

(d) Reconciliation of revenue recognised in the Statement of Profit and Loss

There are no adjustments made to the contracted price with customers which need to be reconciled to revenue recognised in the statement of profit and loss.

Note 37

Financial Instruments - Fair Value And Risk Measurements

A. Accounting classification and fair values

The carrying amounts and fair values of financial instruments by class are as follows:-

* Fair value of financial assets and liabilities measured at amortised cost is not materially different from the amortised cost. Further, impact of time value of money is not significant for the financial instruments classified as current. Accordingly, the fair value has not been disclosed separately.

Note 1: Investments in associate and joint ventures have been accounted at historical cost. Since these are scoped out of Ind AS 109 for the purposes of measurement, the same have not been disclosed in the tables above.

Note 2: At the time of transition to Ind AS effective from 1 April 2016, the Group had opted to measure its investments in subsidiaries, joint ventures and associate at deemed cost, i.e. previous GAAP carrying amount, except for its investment in one of the joint venture - Romanovia Industrial Park Private Limited, which has been measured at fair value at the date of transition to Ind AS. If an entity chooses to measure its investment at fair value at the date of transition to Ind AS than that is deemed cost of such investment for the Group and, therefore, it shall carry its investment in at that amount (i.e. fair value at the date of transition) after the date of transition.

Fair value hierarchy

The fair value of financial instruments as referred above have been classified into three categories depending on the inputs used in valuation technique. The hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level I measurements) and lowest priority to unobservable inputs (Level III measurements).

The categories used are as follows:-

Input Level I (Directly Observable) : which includes quoted prices in active markets for identical assets such as quoted price for an equity security on Security Exchanges.

Input Level II (Indirectly Observable) : which includes prices in active markets for similar assets such as quoted price for similar assets in active markets, valuation multiple derived from prices in observed transactions involving similar businesses, etc.

Input Level III (Unobservable): which includes management's own assumptions for arriving at a fair value such as projected cash flows used to value a business, etc.

B. Measurement of fair values

i) Valuation techniques and significant unobservable inputs

The fair value of the investment in quoted investment in equity shares is based on the current bid price of investment at balance sheet date

ii) Transfers between Levels I and II

There has been no transfer in between Level I and Level II

iii) Level III fair values

There are no items in Level III fair values.

C. Financial risk management

The Group has a well-defined risk management framework. The Board of Directors of the Group has adopted a Risk Management Policy. The Group has exposure to the following risks arising from financial instruments:

- Credit risk ;
- Liquidity risk ; and
- Market risk

Risk management framework

The Group's board of directors has overall responsibility for the establishment and oversight of the Group's risk management framework. The board of directors evaluate and exercise independent control over the entire process of risk management. The board also recommends risk management objectives and policies.

The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The audit committee oversees how management monitors compliance with the Group's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. The audit committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and adhoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

(i) Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk primarily trade receivables and other financial assets including deposits with banks. The Group's exposure and credit ratings of its counterparties are continuously monitored and the aggregate value of transactions is reasonably spread amongst the counterparties.

Trade receivable and other receivable

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Group grants credit terms in the normal course of business. The Group establishes an allowance for doubtful debts and impairment that represents its estimate of incurred losses in respect of trade and other receivables. The Group considers the probability of default and whether there has been a significant increase in the credit risk on an ongoing basis through each reporting period. To assess whether there is a significant increase in credit risk, the Group compares the risk of default occurring on financial assets as on the reporting date.

Summary of the Company's exposure to credit risk by age of the outstanding from various customers is as follows:
(₹ in lakhs)

Particulars	As at 31 March 2021	As at 31 March 2020
Not Due	1,155.29	3,297.33
0-3 Months	4,195.04	1,920.85
3-6 Months	932.90	1,284.05
6-12 Months	85.63	52.83
1-2 years	212.09	3.71
> 2 years	-	1.60
Total	6,580.95	6,560.37

Impairment

Most of customers are PSU and as per past experience, there has been no credit loss on account of customer's inability to pay i.e. there has been no material bad debts in past and therefore, no provision is generally made on this account. The Group has used a practical expedient by computing the expected credit loss allowance for trade receivables on a provision matrix. An impairment analysis is performed at each reporting date based on the facts and circumstances existing on that date to identify expected losses on account of time value of money and credit risk. The calculation is based provision matrix which considers actual historical data adjusted appropriately for the future expectations and probabilities. Receivables from group companies are excluded for the purposes of this analysis since no credit risk is perceived on them. Proportion of expected credit loss provided for across the ageing buckets is summarised below:

On the above basis, the Company estimates the following provision matrix at the reporting date:

Particulars	Expected credit loss %	
	31 March 2021	31 March 2020
Not Due	0.28%	0.89%
0-3 Months	0.32%	0.89%
3-6 Months	0.32%	3.67%
6-12 Months	7.38%	8.15%
1-2 years	13.26%	16.01%
> 2 years	100.00%	100.00%

Movement in the provision for loss allowance in respect of trade and other receivables are as follows:

(₹ in lakhs)

Particulars	Expected credit loss %	
	31 March 2021	31 March 2020
Balance at the beginning of the year	148.53	40.00
Provision / (Reversal) during the year	(71.37)	108.53
Balance at the end of the year	77.16	148.53

Cash and bank balances

The Group is also exposed to credit risks arising on cash and cash equivalents and term deposits with banks. The Group believes that its credit risk in respect to cash and cash equivalents and term deposits is insignificant as funds are invested in term deposits at pre-determined interest rates for specified period of time. For cash and cash equivalents and other bank balances, only high rated banks are accepted.

Other financial assets

Other financial assets includes loan to employees and related parties, security deposits, etc. Credit risk arising from these financial assets is limited and there is no collateral held against these because the counterparties are group companies, banks. Banks have high credit ratings assigned by the credit rating agencies.

(ii) Liquidity Risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are proposed to be settled by delivering cash or other financial asset. The Group's financial planning has ensured, as far as possible, that there is sufficient liquidity to meet the liabilities whenever due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation. In addition to the Group's own liquidity, it enjoys credit facilities with the reputed bank and financial institutions.

Management monitors the Group's liquidity position and cash and cash equivalents on the basis of expected cash flows. The Group's liquidity management policy involves periodic reviews of cash flow projections and considering the level of liquid assets necessary, monitoring balance sheet, liquidity ratios against internal and external regulatory requirements.

Exposure to liquidity risk

The following are the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted, and include estimated interest payments and exclude the impact of netting agreements

(₹ in lakhs)

31 March 2021	Carrying amount	Contractual maturities				
		Not Due	Less than 12 months	1-2 years	2-5 years	More than 5 years
Borrowings						
- Non-current	11,560.76	-	-	2,226.01	8,597.12	737.63
- Current	1,049.56	-	1,049.56	-	-	-
Trade payable						
- Non-current	-	-	-	-	-	-
- Current	4,844.81	-	4,844.81	-	-	-
Other financial liability						
- Non-current	93.41	-	-	10.93	82.48	-
- Current	2,002.49	-	2,002.49	-	-	-

(₹ in lakhs)

31 March 2020	Carrying amount	Contractual maturities				
		Not Due	Less than 12 months	1-2 years	2-5 years	More than 5 years
Borrowings						
- Non-current	9,990.93	-	-	1,075.15	8,186.44	729.34

- Current	4,271.71	-	4,271.71	-	-	-
Other financial liability						
- Non-current	15.85	-	-	7.98	7.87	-
- Current	1,058.91	-	1,058.91	-	-	-

(iii) Market risk

Market risk is the risk that changes in market prices – such as foreign exchange rates and interest rates – will affect the Group's income. Market risk is attributable to all market risk sensitive financial instruments including foreign currency receivables and payables and debt. The Group does not have any transactions in foreign currency. And accordingly, Group does not have currency risk.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's liquidity and borrowing are managed by professional at senior management level. The interest rate exposure of the Group is reduced by matching the duration of investments and borrowings. The interest rate profile of the Group's interest - bearing financial instrument as reported to management is as follows:

(₹ in lakhs)

Particulars	As at 31 March 2021	As at 31 March 2020
Fixed-rate instrument		
Financial asset	7,400.63	7,261.50
Financial liability	69.68	-
Floating-rate instrument		
Financial asset	-	-
Financial liability	14,457.25	11,936.38

Interest rate sensitivity

Profit or loss is sensitive to higher/lower interest expense from borrowings as a result of change in interest rates. The following table demonstrates the sensitivity of floating rate financial instruments to a reasonably possible change in interest rates. The risk estimates provided assume a parallel shift of 100 basis points interest rate across all yield curves. This calculation also assumes that the change occurs at the balance sheet date and has been calculated based on risk exposures outstanding as at that date. The period end balances are not necessarily representative of the average debt outstanding during the period.

(₹ in lakhs)

Particulars	Increase on profit/(loss) after tax
31 March 2021	
Increase in 100 basis point	(144.57)
Decrease in 100 basis point	144.57
31 March 2020	
Increase in 100 basis point	(119.36)
Decrease in 100 basis point	119.36

Note 38**Capital management**

The Group's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The board of directors seeks to maintain a balance between the higher returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position. The Group monitors capital using a ratio of 'Debt' to 'Equity'. For this purpose, 'Debt' is meant to include long-term borrowings, short-term borrowings and current maturities of long-term borrowings. 'Equity' comprises all components of equity. The Group's debt to equity ratio as at the end of the reporting periods are as follows:

(₹ in lakhs)

Particulars	As at 31 March 2021	As at 31 March 2020
Total debt (including interest accrued but not due on borrowings)	14,526.93	11,936.38
Less : Cash and bank balances	1,314.73	66.95
Adjusted net debt	13,212.20	11,869.43
Total equity	13,496.30	13,551.91
Debt to equity (net)	0.98	0.88

Note 39
Interest in other entities

1 Subsidiaries

The Group has only one subsidiary at 31 March 2021. It's share capital comprises solely of equity shares held by the group and proportion of ownership interest held equals the voting rights held by group.

Name of entity	Ownership interest held by group		Ownership interest held by non-controlling interest		Principal Activities
	31 March 2021	31 March 2020	31 March 2021	31 March 2020	
	%	%	%	%	
Nila Terminals (Amreli) Private Limited	100.00%	100.00%	-	-	Special Purpose Vehicle created for Construction of bus terminal at Amreli

2 Interest in associate & joint ventures

Below is the list of associate and joint ventures as at 31 March 2021. Their Share capital comprise solely of equity shares and/or as partners capital held by the group and proportion of ownership interest held equals the voting rights held by the group

(₹ in lakhs)

Name of entity	% of ownership interest	Relationship	Method of Accounting	Quoted Fair value		Carrying Amount

Details of Investments made by the Group are given in Note 7.
All loans are given for the purposes of the business.

Note 42
Covid-19

Consequent to the COVID – 19 pandemic throughout the world, nationwide lockdown was implemented from 25th March 2020 in India and accordingly operations of the Group were suspended from that date. The Group resumed its operations with minimum capacity from 23 June 2020 with a gradual increase in the level of operations since then considering social distancing norms and material / labour availability.

The Group has made detailed assessment of its liquidity position for the next one year and of the recoverability and carrying values of its assets comprising Property, Plant and Equipment, Trade Receivables, Contract assets, Investments, Loans and advances and Inventories and has concluded that there is no material adjustments required in the Financial Statements as at 31 March 2021. Based on the forecasted cash flows, management believes that they will be able to discharge all their liabilities/obligations in next one year.

Management believes that it has considered all the possible impact of known events arising from COVID-19 pandemic in the preparation of the financial Statements. However, the impact assessment of COVID-19 is a continuing process given the uncertainties associated with its nature and duration. The impact of COVID-19, including current wave may be different from that estimated as at the date of approval of these consolidated financial results. The Group will continue to monitor any material changes to future economic conditions.
